VIII. APPRECIATIONS.

The Fire Commissioner is in receipt of a Resolution, adopted by his Honor, the Mayor of Gloucester and the Municipal Council, dated October 29, 1947, in which the Boston Fire Department is given a vote of thanks for assistance rendered during the recent emergency of fire in the City of Gloucester.

The Fire Commissioner is in receipt of a letter from the Board of Selectmen of Reading, Mass., which he is pleased to publish for the information of the department:

"RUSSELL S. CODMAN, JR., Fire Commissioner, 60 Bristol St., Boston, Mass.

DEAR SIR,—The Board of Selectmen deeply appreciates the assistance your Department rendered to the Town of Reading during the recent emergency, which very definitely helped to prevent the loss of many homes which were so seriously threatened.

If at any time we can reciprocate, do not hesitate to call upon us.

Yours very truly,

KENNETH C. LATHAM,
CHARLES E. WILKINSON,
G. LAWRENCE ROBERTS,
Board of Selectmen."

IX. COMMENDATION.

Ladderman Gerard E. McGowan of Ladder Company 16 and George J. McNulty of Ladder Company 23 are hereby commended for responding to, and working at fire, Box 2741, two alarms, November 9, 1947, while off duty.

By order of Fire Commissioner
RUSSELL S. CODMAN, JR.

NAPEEN BOUTILIER,
Chief of Department.

LAND-TAKING IN BRIGHTON.

The Temporary Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the laying out, without construction, of Oakland avenue, Brighton district, as a highway, from Oakland street southwesterly for a distance of approximately two hundred and twenty-four feet, with the name of Egan Way or some other distinctive name, bounded and described as follows:

A highway named Egan Way is hereby laid out, without construction, from Oakland street westerly for a distance of approximately two hundred and twenty-four feet.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Easterly by Oakland street, twenty-nine and 25-100 feet; southerly by the southerly line of said Egan Way as hereby laid out, two hundred twenty-five and 30-100 feet; westerly by the westerly line of said Egan Way as hereby laid out, twenty-nine and 18-100 feet; and northerly by the northerly line of said Egan Way as hereby laid out, two hundred twenty-three and 96-100 feet.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement consisting of the laying out, without construction, of Egan Way (formerly Oakland avenue), Brighton district, as a highway, from Oakland street westerly, under the order of the Board of November 3, 1947, and awards no damages therefor.

APPROPRIATION FOR
ATHLETIC INJURIES

A communication was received from the Business Manager, under date of Oct. 17, 1947, recommending, in accordance with the provisions of Chapter 525 of the Acts of 1947 which authorizes the appropriation of money by towns for payment of reasonable expenses incurred by or in behalf of certain injured school children, the passage of the accompanying order, as it is obvious that there is a definite need and a moral obligation to provide a fund for adequate treatment of athletic injuries.

Placed on file.

On motion, it was

1. ORDERED, That the Director of Physical Education, the Director of School Hygiene, and the Business Manager be, and they hereby are, constituted a panel to administer the expenditure of money appropriated for the payment of the reasonable hospital, medical and surgical expenses incurred by or in behalf of any student in any of the public schools of the City of Boston by reason of injury sustained by such student while participating, or practising or training for participation, in any game, meet or contest conducted or held as a part of or in connection with the athletic training program of the Boston School Department; and

2. ORDERED, That except when the School Committee shall otherwise order, no money so appropriated shall be expended (1) unless the student sustaining the injury has, within three months after sustaining the injury, applied in writing to the School Committee, on a form furnished by and filed with the Director of Physical Education, for the payment of the hospital, medical and surgical expenses incurred by the student or in his behalf, (2) unless the application is approved in writing by the student's parent or guardian, and (3) unless the application is accompanied (a) by a certificate from the teacher

or coach in charge of the practising, training, game, meet or contest that the injury was sustained by the student while participating, or practising or training for participation, in a game, meet or contest conducted or held as a part of or in connection with the athletic training program of the Boston School Department, (b) by a certificate from a doctor, satisfactory to the panel, that the hospital, medical and surgical expenses to which the application relates were the proximate result solely of the injury sustained by the student, and (c) by documents evidencing, satisfactorily to the panel, the amount of the expenses incurred by or in behalf of the student; and

3. ORDERED, That as soon as conveniently possible after each application has been filed the panel shall consider the same; and if the full panel finds that the conditions of Order No. 2 have been fulfilled and that the whole or any part of the sum applied for may properly be paid from money appropriated for the purpose hereinbefore specified, the full panel shall so certify in writing and the sum applied for in so far as found by the full panel to come within the purposes of the appropriation, shall be paid directly to the hospital or doctor without further action on the part of the School Committee; provided, however, that unless the School Committee shall otherwise order, not more than \$300 shall be so paid on account of any one injury.

FLAGS AT HALF-STAFF IN BOSTON PUBLIC SCHOOLS

Mr. White offered the following:

The American flag should fly at half-staff from all public school buildings throughout the city in tribute to the veterans of World War II who paid the supreme sacrifice. This gesture should be in effect during the return of the bodies of the heroic war dead from Antwerp, Belgium.

Following the request of President Truman and Governor Bradford that flags should be flown at half-staff, I respectfully recommend that the Boston School Department cooperate in this tribute to the heroes now on their way to their final resting places in this country.

The flags will remain at half-staff until the three ships arrive in this country and the bodies transported to their graves.

The Committee adjourned.

Attest:

LOUISE KANE,
Secretary.

CITY OF BOSTON.

HOSPITAL DEPARTMENT.

INVITATION FOR PROPOSALS FOR INSTALLATION OF STERILIZING EQUIPMENT IN VARIOUS BUILDINGS AT THE BOSTON CITY HOSPITAL.

The Trustees of the Boston City Hospital, hereinafter referred to as the Awarding Authority, invite sealed proposals for the installation of sterilizing equipment in various buildings at the Boston City Hospital.

Proposals will be received until 12 o'clock noon, Friday, November 21, 1947, Eastern Standard Time, at the office of the Superintendent of the Boston City Hospital, 318 Harrison avenue, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Architect, the John M. Gray Company, 175 High street, Boston, Mass. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Superintendent of the Boston City Hospital, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, or a satisfactory bid bond executed by the bidder and a surety company in the amount of 5 per cent of the base proposal shall be submitted with each bid, filed with the Superintendent of the Boston City Hospital.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, laborers, etc., in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts, a copy of which schedule is attached to the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under the contract.

Plans and specifications may be obtained at the office of the Architect, the John M. Gray Company, 175 High street, Boston, Mass. A deposit of \$25 in cash or a certified check will be required for each set of plans and specifications, and this deposit will be returned to the bidders upon receipt of said plans and specifications in good condition by the Architect.

Sub-bidders bidding on the work of sub-contractors shall use the proposal form obtainable from the Architect upon request.

All sub-bidders' proposals must be in the possession of the Trustees of the Boston City Hospital and delivered or mailed to the general bidder no later than 12 o'clock noon, Eastern Standard Time, Wednesday, November 19, 1947.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, or a satisfactory bid bond executed by the sub-bidder and a surety company shall be submitted by sub-bidders listed under Item 2 of the general contractor's bid form in not less than 5 per cent of the sub-bidder's bid price, and shall be submitted with each sub-bid.

Sub-bids will be taken on the following portions of the work:

a. Plumbing. b. Heating.

A performance bond, issued by a surety company satisfactory to the Awarding Authority in the full amount of the contract, will be required of the successful general contractor.

Information relating to the performance bonds of sub-contractors is set forth in the notice to sub-bidders.

The City of Boston reserves the right to reject any or all bids of the general bidders and to waive any informalities in bidding, if it be in the public interest to do so. The City of Boston also reserves the right to reject all bids of the sub-bidders on any item or items and to waive any informalities in the bidding, if such rejection or waiver be in conformance with section 44C of chapter 149 of the General Laws.

No bid of a general bidder shall be withdrawn prior to thirty (30) days from the opening of bids by the Awarding Authority, and no bid of a sub-bidder shall be withdrawn prior to thirty (30) days from the opening of bids, without the consent of the Awarding Authority.

The Overseers of the Public Welfare of the City of Boston invite proposals for painting interior walls and woodwork of the Overseers of the Public Welfare buildings at 170 Hancock street, Dorchester, and 154 Maverick street, East Boston, Mass., according to specifications which may be obtained from the office of the Board, first floor, 43 Hawkins street, Boston. There will be a charge of twenty-five cents (\$0.25) for each blank proposal taken out. Bidders must use the form of proposal to be obtained at this office, and the successful bidder must furnish a bond for one half of the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. Bids, with a certified check for two hundred and fifty dollars (\$250) payable to and to become the property of the City of Boston if the proposal is not carried out, must be left at the office of the Board, first floor, 43 Hawkins street, before 12 noon, Wednesday, November 26, 1947, at which time and place they will be publicly opened and read. A duplicate proposal, without check, must be left with the City Auditor, prior to the time named for the opening of the bids. The Board of Overseers of the Public Welfare reserves the right to accept or reject any or all bids. All contracts made subject to appropriations to meet the payments thereunder.

LOUIS P. LEONARD,
(Nov. 15-22.) Chairman.

CITY OF BOSTON.

SEALED PROPOSALS FOR \$1,000,000 CITY OF BOSTON LOANS.

COUPON SERIAL BONDS.

BONDS EXEMPT FROM TAXATION IN MASSACHUSETTS AND FROM THE PRESENT FEDERAL INCOME TAX.

TREASURY DEPARTMENT.

OFFICE OF THE CITY TREASURER.

CITY HALL, BOSTON, MASS., November 14, 1947.

In pursuance of the authority given by orders of the City Council of Boston and Acts of Massachusetts, the undersigned will receive proposals at the office of the City Treasurer until 12 o'clock m., Eastern Standard Time, Tuesday, November 25, 1947, for the purchase of all but no part of the following-described coupon serial bonds.

Coupon Serial Bonds.

Bidder to name one rate of interest in multiples of 1 of one per cent; no bid to be less than par and accrued interest.

PUBLIC WAYS, CONSTRUCTION OF, \$1,000,000.

Order of City Council of Boston of June 27, 1947, effective July 18, 1947. Payable \$100,000 annually, December 1, 1948, to December 1, 1957, inclusive.

This loan will be issued in Coupon Bond Certificates of \$1,000 each, and will be paid on the dates specified, all with interest payable semi-annually on the first days of June and December in each year, at the office of the City Treasurer, Boston.

In comparing bids, preference will be given to the bidder whose bid provides for the lowest net interest cost to the City (total interest for the duration of the loan from December 1, 1947, less the amount of premium bid).

The bonds will be dated December 1, 1947, and will be ready for delivery on or about December 15, 1947. Interest will begin December 1, 1947, and will cease on the dates on which the bonds are payable.

These bonds are exempt from taxation in Massachusetts and from the present Federal Income Tax.

Proposals must be sealed and addressed to Henry F. Brennan, City Treasurer, Boston, Mass., indorsed "Proposals for Loans." Each proposal must be accompanied by a cashier's or certified check on a Boston National Bank or Trust Company, or by cash, equal to one per cent of the loan bid for, the check made payable to the City of Boston, Henry F. Brennan, City Treasurer. The check or cash of any bidder to whom an award is made will be retained as part payment for the loans awarded. All other checks or cash will be returned.

Accrued interest from December 1, 1947, to date of delivery is to be paid by the purchaser.

All proposals will be opened in the office of the City Treasurer, Tuesday, November 25, 1947, at 12 o'clock m., Eastern Standard Time. The City Treasurer reserves the right to reject any or all bids or to accept such bid or bids as may seem to him to be the most advantageous to the City.

HENRY F. BRENNAN,
(Nov. 15.) City Treasurer.

CITY OF BOSTON.

SUPPLY DEPARTMENT.

PROPOSALS FOR FURNISHING 1,000 SPONGES.

The Supply Department of the City of Boston invites proposals for furnishing sponges for city departments, as specified in forms which may be obtained at the office of the Supply Department, Room 1001, City Hall Annex. The bidder must leave his proposal with a certified check for \$100, payable to and to become the property of the City of Boston if the proposal is not carried out, at the above office. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. Envelopes containing bids to be sealed and plainly marked "Proposal for Sponges." There will be a charge of twenty-five cents (\$0.25) for each set of proposals. The bids will be publicly opened and read Friday, November 21, 1947, at 12 m., at Room 1001, City Hall Annex. The successful bidder must furnish a bond for one half the total estimated amount of the contract, with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

PROPOSALS FOR MOTOR TRUCKING TERMINALS PRESENTED TO TEMPORARY MAYOR JOHN B. HYNES BY CITY PLANNING BOARD—TERMINALS TO HAVE BACK-UP SPACE FOR 200 OR MORE TRUCKS—PROPOSALS REFERRED TO LAW DEPARTMENT BY TEMPORARY MAYOR FOR DRAFTING ENABLING LEGISLATION—ESTIMATED COST OF TERMINALS FIXED AT \$2,500,000—LOCATIONS TO BE NORTH AND SOUTH OF DOWNTOWN BUSINESS AREAS.

The City of Boston Planning Board has submitted to Temporary Mayor John B. Hynes a report in which are presented proposals for traffic relief in the City of Boston. The report proposes that two truck terminals be constructed, at a cost of \$2,500,000, looking toward relieving the traffic conditions. The report suggested that terminals be established as public projects at locations to be decided upon at the north and the south of the downtown business areas.

The report also proposes that, to build and operate these terminals, which would have back-up space for at least 200 trucks, a Boston Motor Truck Terminal Commission be established with authority to finance the venture through serial bonds backed by the credit of the city.

Upon receipt of the report Temporary Mayor Hynes directed the Law Department to study the report thoroughly and then draft legislation to permit the establishment of the proposed commission. Approval of the Legislature will be necessary. The letter from the Planning Board, presenting the report, reads as follows:

Report's Proposals.

HON. JOHN B. HYNES, *Temporary Mayor of Boston.*

DEAR MAYOR HYNES,—The City Planning Board submits herewith its "Report on a Union Motor Truck Terminal for Boston." This report is the culmination of nearly a year's time devoted intermittently to the careful research necessary to a proper understanding of the subject. The work was begun at the direction of his Honor, Mayor James M. Curley, who, in turn, was acting at the request of the City Council, made on September 9, 1946, by passage of the following order:

"That his Honor the Mayor request the City Planning Board, the Corporation Counsel and any other city departments to survey, plan and prepare legislation to be presented to the 1947 session of the Massachusetts Legislature in regards to the following matters: In order to diminish or eliminate the traffic congestion and to speed up the flow of traffic in the City of Boston, it is suggested that: 1. A truck terminal be located in the City of Boston. 2. Make out a list of streets in the City of Boston to be widened and request that the work be financed out of the State Highway Fund. 3. Arterial highway for the City of Boston to be financed out of the State Highway Fund."

The amount of work involved in a competent development of truck terminal legislation precluded any possibility of its being ready for the 1947 session of the General Court.

The Board acknowledges with gratitude the advice and assistance freely given by the following, who have comprised an advisory committee in making the studies necessary for this report:

MR. WILLIAM H. DAY, *Chairman*, representing the Boston Chamber of Commerce, Transportation Department.

MR. MYLES ILLINGSWORTH, Massachusetts Motor Truck Association.

MR. RONALD S. WOODBERRY, New England Motor Rate Bureau.

MR. EDWARD J. SAMPSON, Boston Express Exchange.

MR. ELLERTON J. BREHAUT, Boston Chamber of Commerce, Civic Department.

MR. ELTON RICHARDSON, traffic manager, Lever Brothers Company.

MR. JOSEPH F. KORD, operation superintendent, William Filene's Sons.

Valuable assistance was also rendered by Mr. Frank Dickson, motor rate analyst and vice-president of H. B. Church Company, Mr. Philip T. Desmond, chief traffic engineer of the Boston Traffic Commission, the Massachusetts Department of Public Utilities, and the many trucking firms who answered the questionnaire sent to them.

The Planning Board hopes that this report and the bill contained herein will lead to early legislation authorizing the construction of one or more terminals in Boston.

Very truly yours,

WILLIAM STANLEY PARKER,
Chairman.

CITY PLANNING BOARD PRESENTS PROPOSALS FOR UNION MOTOR TRUCK TERMINAL TO TEMPORARY MAYOR JOHN B. HYNES.

(Continued from page 1281.)

The report continues to say:

"The need and desirability of developing a union motor truck terminal as a means of eliminating to a large degree one of the factors contributing to the city's intolerable traffic congestion were discussed in a report on a union motor truck terminal released today by the Boston City Planning Board.

"The study, which is the result of several months' work devoted to the careful research necessary to a proper understanding of the subject, was started last fall at the direction of his Honor, Mayor James M. Curley, who, in turn, was acting at the request of the City Council. Early in the work the Board set up an Advisory Committee, composed of representatives of the trucking interests, whose members gave valuable time in the consideration of the problem. The results of the survey were also discussed in detail with Temporary Mayor John B. Hynes.

"Inefficiency of present trucking methods as compared with advantages and benefits of modern union terminals is discussed along with terminal operation and economics. The general conclusions are summarized as follows:

"1. Downtown Boston's traffic, now becoming critical, is aggravated in no small measure by the inefficiency of present methods of truck operation in pickup and delivery work. The inherent waste in these methods is indicated by the fact that the pickup and delivery trucks are carrying, on the average, only 44 per cent of their capacity.

"2. As generally agreed by traffic authorities, modern union truck terminals, serving as central points of consolidation and clearance of freight, constitute the most effective answer to the urban trucking problem. Such terminals provide two general types of benefits: traffic relief and lower operating costs.

"3. At present at least 2,000 trucks belonging to common carriers are actively engaged each day in pickup and delivery in downtown Boston. In handling 7,200 tons daily of less-than-truckload freight in consignments of three tons or less, these trucks generate about 30,000 truck-miles on downtown streets. This is the kind of trucking activity which could be most beneficially handled through a union terminal.

"4. An initial plan for Boston should envision the building of one or two terminals close to the downtown area. A daily volume of 2,800 tons handled at the platform might reasonably be expected. This should result in a reduction of one eighth in the total volume of truck traffic occasioned by pickup and delivery, and savings of approximately 27 cents per ton on the handling of freight, 51 cents per ton on pickup and delivery; total annual saving about \$800,000.

"5. If two terminals are planned, one should be to the immediate north, one to the immediate south of the downtown area. Sites totaling at least nine acres would be required and, all told,

the terminals should have back-up spaces for at least 200 trucks and cost about \$2,500,000.

"6. An agency of the city government, in the form of a commission appointed by the Mayor, should be created to build and operate such terminals, financing its ventures through serial bonds backed by the credit of the city."

FINANCIAL PLAN.

"It is improbable that private enterprise can or will undertake such a project in the near future mainly because the financial returns would be marginal. Other stumbling blocks in the path of a private solution of the terminal problem are the necessity for paying full taxes, lack of power of eminent domain in acquiring sites, and higher interest rates on borrowed capital.

"The Planning Board, therefore, is of the opinion that union terminals must be built as public projects. Though actual sites and types of terminal construction are not discussed, it was felt that the situation called for a terminal such as the one now being built in the Borough of Manhattan by the Port of New York Authority.

"The report contains two appendices, one showing calculations and the method of procedure taken in support of the conclusions. The other contains a tentative draft of a legislative bill to create a Boston Motor Truck Terminal Commission, and embodies the ideas on terminal operation and economics set forth in the report. It is preliminary and intended to provide a basis for discussion."

POLICE DEPARTMENT ORDERS.

General Order No. 963.

In accordance with provisions of section 1 of chapter 392, Acts of 1930, as amended, Rule 65 of the Police Rules and Regulations relating to Hackney Carriages established by the Police Commissioner for the City of Boston is hereby amended by:

Adding the following new paragraph to section 2 under the sub title "Hackney Carriage Licenses Granted Under These Rules and Regulations" as appearing upon pages 219 and 220 of said Rules and Regulations:

"Before employing a hackney carriage driver, the owner shall compare his identification card, hackney badge and operator's license to verify the fact that he is legally licensed to operate a taxicab. This procedure shall be repeated daily and no vehicle shall be assigned to a driver who does not possess all of his credentials."

All rules and regulations inconsistent herewith are hereby repealed.

This amendment will take effect Thursday, January 1, 1948.

The Acting Superintendent of Police will promulgate this order.

EDWARD W. FALLON,
Acting Police Commissioner.

CONSTRUCTION WORK.

The Temporary Mayor has approved the request of the Public Works Department for the following construction work:

A 15-inch pipe sanitary sewer, and one catch-basin in Alley No. 931, between Boylston street and Peterborough street, in the Roxbury district, at an estimated cost of twenty-two thousand (22,000) dollars.

CHELSEA STREET BRIDGE CLOSING.

It was announced on November 20 by Public Works Commissioner Robert P. Curley that the Chelsea Street Bridge over the Chelsea River, connecting East Boston and Chelsea, would be closed to use from 12.45 a. m. to 5 a. m. on Friday, November 21.

This closing, the commissioner indicated, was necessary to permit the department to make some much needed repairs. This work, he added, could be performed more easily while the street-car service was suspended during the early hours of the morning.

ZOO EMPLOYEES PROMOTED.

The Temporary Mayor has approved the request of the Park Commissioner, as contained in the following letter:

PARK DEPARTMENT.

Boston, November 5, 1947.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR,—I respectfully request that our budget for 1947 be amended by adding the positions of head animal keeper, provisional, and assistant head animal keeper, provisional.

I requested permission to appoint George J. Gillespie as head animal keeper at a provisional salary of \$2,500 a year, and Russell L. Grant as assistant head animal keeper at a provisional salary of \$2,400 a year. Both these men have been employed at the Zoo for many, many years, and are now receiving compensation at the rate of \$41.76 weekly. A survey of the employees of the Zoo shows that these men are the senior men employed there qualified to act in a supervisory capacity, as they are familiar with much of the detail work that was handled by Mr. Harkins.

Respectfully yours,

JOHN J. MURPHY, Chairman.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of the city employees have been made:

HOSPITAL DEPARTMENT.

General Division.

For the week ending November 4:

The following weekly nurses have been appointed:

Permanent.—Catherine P. Cleary, Dedham, floor nurse, \$2,200 a year; Gloria Lariviere, 710 Massachusetts avenue, floor nurses, \$1,784 a year; Emma L. Carroll, 1 Hawthorne avenue, part-time floor nurse, \$1 an hour; Frances Monsour, floor nurse, from vacation supply to floor nurse, permanent, at \$2,200 a year.

The following provisional employees have been appointed:

Frederic Hucksman, 15 West Dedham street, George Daniels, 276 Washington street, Andrew Lowry, 324 Shawmut avenue, Charles E. Monahan, 113 Hampden street, hospital medical workers, \$25 a week; Florence Schultz, 660 Massachusetts avenue, Ruth E. VETERANS' RETIREMENT.

The Temporary Mayor has approved the following applications for retirement of veterans:

Maurice J. McCarthy, 18 Custer street, Jamaica Plain, teamster-laborer in the Sanitary Service of the Public Works Department.

Frank J. Forte, 18 Glen road, Jamaica Plain, laborer in the Sanitary Service of the Public Works Department.

Edward A. Kehoe (also called Edward Keough), 28 Saratoga street, East Boston, teamster-laborer in the Sanitary Service of the Public Works Department.

OVERTIME ALLOWED.

The Temporary Mayor has approved the requests for overtime for employees as contained in the following letters:

HOSPITAL DEPARTMENT.

Sanatorium Division.

BOSTON, November 8, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—Because of our inability to obtain help at the Sanatorium Division in sufficient time to put the 40-hour week in effect as of October 15, 1947, your approval is respectfully requested to the emergency payment of overtime to our employees. It is rather difficult to give an accurate count of the number of persons involved at the present time. As far as it is practicable to do so, we will rearrange our working schedules and hire additional help to put the departments on a 40-hour basis.

Care of Patients.—With the shortage of nurses, I feel that we shall have to plan to grant overtime pay for an indefinite period to approximately 170 nurses and subsidiary ward help.

Other Departments.—There are certain positions at the Sanatorium Division, where it would be more expensive to hire an additional employee than to grant overtime payments to our present employees. These situations are being given careful consideration, and we should be able to give a more comprehensive report in another month. I respectfully request

blanket permission, therefore, for overtime payments to the balance of the hospital help through the December 9th overtime pay roll. I will then make another report to you and get definite approval in the cases where I believe overtime payments would be less expensive for the city.

Very truly yours,

FREDERICK L. BOGAN,
Assistant Superintendent.

PUBLIC WORKS DEPARTMENT.

Sanitary Service.

BOSTON, October 24, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—Request is respectfully made for your approval of overtime in the Sanitary Division, Street-Cleaning Service, of the Public Works Department, which is necessary on account of street-cleaning work which must be done every day, including Sundays and holidays, in certain districts of the city.

This overtime usually necessitates the employment of from 8 to 10 sweeping-machine operators, 4 to 5 chauffeurs, and approximately 25 laborers, and appears on the regular employees' pay roll of the Street-Cleaning Service every week in the year, weather permitting.

Very truly yours,

TIMOTHY J. O'LEARY,
Acting Division Engineer.

Water Division.

BOSTON, November 7, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR MR. MAYOR,—For many years past it has been necessary to pay overtime or grant time off to employees of the Water Division who have worked overtime when it was necessary to do so in repairing breaks in the water system.

I respectfully request that permission be granted to the Water Division for payment of overtime in the future in the case of employees engaged on emergency work.

Very respectfully,

D. M. SULLIVAN,
Division Engineer.

BOSTON TRAFFIC COMMISSION.

Boston, November 3, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—In compliance with instructions contained in circular letter of October 17, 1947, from City Auditor Charles J. Fox, I hereby respectfully notify you of the anticipated requirements for overtime services on the part of our regular employees for the balance of this year.

The emergency requiring overtime services is caused by the following facts:

1. The care and custody of the building at 8 Atkinson street, Roxbury, occupied by our shop forces has recently been transferred to this department from the Bridge Division of the Public Works Department. This transfer requires that we use all of our personnel as watchmen until such time as we can secure the services of new permanent personnel for this duty.

2. The 13 temporary seasonal employees used in this department during the year have been laid off as of October 21, because the funds for their services have been depleted. The loss of these

men requires the use of our regular forces for overtime during the balance of the year.

The following are our estimated requirements:

One chauffeur, 8 hours; three painters, 8 hours each; two laborers, 8 hours each.

Respectfully yours,

LEO F. CURLEY, *Commissioner.*

CONTRACTS AWARDED.

Permission to award contracts for work, materials, and supplies, in accordance with recommendations of department heads, has been approved by the Temporary Mayor.

BOSTON HOUSING AUTHORITY.

Upon November 4 the Temporary Mayor approved a contract with the Atlantic Roofing and Skylight Works for roofing and wall treatment of the buildings in Dorchester at Columbia Village. Bids, opened October 8, were as follows:

Atlantic Roofing and Skylight Works, \$39,442; A. Belanger & Sons, \$62,333; M. Slotnick Corporation, \$66,590.

PUBLIC WORKS DEPARTMENT.

Upon October 21 the Temporary Mayor approved a contract with Dooley Brothers, Inc., for sheet asphalt pavement in Brayton road and Undine road, Ward 22, at an estimated cost of \$25,622.50. The work to be done under this contract is to be completed on or before December 31, 1947. The following bids were received October 10:

Dooley Brothers, Inc., \$25,622.50; Baker & Co., Inc., \$28,572.50; A Singarella and Son, \$28,590; John McCourt Company, \$28,773.75; Caruso & Barone, Inc., \$30,532.50; S. J. Tomasello Corporation, \$33,627.50; James A. Susi, \$34,517.50.

SCHOOL COMMITTEE.

The School Committee has approved proposals for furnishing military equipment for Boston public schools. Bids were opened on Monday, October 20, 1947, at 12 m., and only one bid was received from the following concern: Scott Brothers Pattern Works. Award was made to the only bidder in accordance with specifications and standards, and contract was awarded as follows:

Scott Brothers Pattern Works, \$1,395.

SUPPLY DEPARTMENT.

Upon October 8 the Temporary Mayor approved a contract with Thomas F. Culkeen for furnishing hay, grain, etc., to the various city departments in the amount of \$3,813.40. The correct amount of this contract is \$3,858.40. On October 23 permission was granted to award a contract, without further advertisement, to Thomas F. Culkeen in the amount of \$3,858.40 and orders to the following companies:

Curley Grain and Fuel, \$258.84; Louis E. Page, Inc., \$371.50; John J. White Company, \$45.

Bids, opened October 8, were as follows:

Item 1. *Flory Dairy, 16 Per Cent, 10 Tons, Per Ton.*—Thomas F. Culkeen, \$88.10*; William Culkeen & Sons, \$90.80.

Item 2. *Pig Feed Mix, 6 Tons, Per Ton.*—Thomas F. Culkeen, \$92.10*.

Item 3. *Broiler Mash, 20 Per Cent, Per Ton.*—Thomas F. Culkeen, \$107.90*; William Culkeen & Sons, \$109.

Approximate Net Total.—Whiting Milk Company, \$13,743.52; H. P. Hood & Sons, Inc., \$13,992; Shawmut Dairy, Inc., \$12,544.

Remarks.—H. P. Hood & Sons, Inc., enclosed the following letter with their bid: "In connection with our bid herewith submitted, provided we are awarded the contract, we wish to call your attention to the following: If and when it is decided by the City of Boston to extend the end of the term of the contract to any date not later than April 30, 1948, we are convinced that we would negotiate a price for such extended term at a lower rate than our price herewith submitted for the two months November and December, 1947. While our product at the time of processing rarely shows a bacteria content of over 3,000 colonies per gram, we desire to have the specifications amended so that we would not be in violation if the bacteria count equalled the amount permissible in ice cream by the Massachusetts State regulation, i.e., 100,000 colonies per gram."

Shawmut Dairy, Inc., made the following amendment on milk fat content: "It shall contain not less than 12 per cent or 13 per cent by weight of milk fat."

Upon October 23 the Temporary Mayor approved a contract with R. W. Balam for furnishing loam to the Park Department. Bids, opened on October 20, were as follows:

Remarks.—The bid submitted by the Shawmut Dairy Company was irregular in the following manner: Although a check was deposited, prices of the various items were not written. The bid was blank. The above prices were taken from

the Auditor's copy which was in order. The following clause was submitted with their bid: "If prices of milk and cream drop during the term of this contract, the City of Boston will receive the benefit of the drop in prices"; H. P. Hood & Sons enclosed the following letter with their bid: "Our milk prices herewith submitted are subject to increases and reductions in the same amount and effective on the same date, that any and all reductions and increases in the price of milk to be paid to our producers, is reduced by order of the U. S. Department of Agriculture or any other authorized agent. Our cream prices herewith submitted are subject to advance or decline as the actual cost of cream fluctuates from the present cost which is \$32.50 per 40-quart can of 40 per cent butter fat bottling quality cream. Following is the formula to be used for this purpose: Extra heavy cream is to fluctuate at the rate of 5 cents per quart, heavy cream is to fluctuate at the rate of 4 cents per quart, light cream is to fluctuate at the rate of 2.5 cents per quart, for each change (up or down) of \$2 per 40-quart can in the weighted average price or cost of 40 per cent of bottling cream."

* Contract awarded.

Upon October 28 the Temporary Mayor approved a contract in accordance with the following letter.

BOSTON, October 24, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—Attached is list of bids on proposals for canned goods and groceries for the various city departments which were publicly opened and read in this office on October 10, 1947.

I would respectfully request that permission be granted me to award contracts to the lowest bidders as indicated on the attached sheets with the following exceptions. The Quaker Oats Company was irregular in that both copies of their proposal were deposited at the Supply Department and no copy left at the Auditor's office. However, in view of the fact that a considerable saving will accrue to the city by accepting these bids I would respectfully request that permission be granted me to award the items upon which they are the low bidders to this company without further advertising. The bid submitted by F. H. Leggett Company is not acceptable due to the fact that they bid on a two months' supply instead of the period indicated on the proposal.

On Items Nos. 38, 40, 53, and 61, I would request permission to void the bids received as this department can secure same in the open market at prices which will show considerable saving to the city. Approximate totals of awards are as follows:

H. A. Johnson Company, \$15,662.02; George D. Emerson Company, \$15,036.55; Golden Wonder Foods Company, \$8,423.70; M. Stoll & Co., \$8,367.42; Morgan Foods Company, \$4,870.49; Webster Thomas Company, \$4,385.25; Robbins & Co., \$3,689.28; Suffolk Grocery Company, \$2,381.75; Quaker Oats Company, \$2,036.10; Reid, Murdoch Company, \$1,134.80; Somerset Grocery Company, \$1,101.80; American Flour Company, \$886.75.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

Bids, opened October 10, were as follows:

Item 1. 1,975 Pounds Dried Apricots, 100's, Per Pound.—Reid, Murdoch Company, 32 cents; H. A. Johnson Company, 31.35 cents; choice Blenheim; George D. Emerson Company, 31.7 cents.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Temporary Mayor approved contracts with supply houses, contractors, etc., for furnishing labor, supplies, and merchandise. Communications from the heads of the departments interested were as follows:

FIRE DEPARTMENT.

BOSTON, November 13, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—Your Honor's permission is requested to award, without public advertising, the work of making certain repairs to Fireboat "Matthew J. Boyle," Engine Company 44, to the Bethlehem Steel Company, 256 Marginal street, East Boston, Mass., at an approximate cost of \$1,140, as follows:

Dry-dock vessel, clean all surfaces below water line, supply and apply one coat anticorrosive and one coat anti-fouling, and paint in all draft numbers. Remove seven suction strainers, clean wells, and renew retaining screws, as required. Check propeller shaft clearance and recement propeller nuts for the sum of \$690.

Open up, grind in and repack the following valves—four 10-inch fire pump suction valves; two 14-inch condenser circulating pump suction valves; two toilet valves; two bilge syphon discharge valves; three skin blow-off valves; one bilge pump suction valve—for the sum of \$450.

There will be an additional unit price of \$1.75 each for renewing shell rivets as required, exclusive of any removals in way and a unit price of \$1 per pound for renewing hull zinc plates.

The following bids were received in connection with this work:

Bethlehem Steel Company (Shipbuilding Division), \$1,140 plus a unit price of \$1.75 for each shell rivet renewed exclusive of any removals in way and unit price of \$1 per pound for renewing hull zinc plates.

James S. Munro, \$1,715 plus a unit price of \$1.50 each for renewing shell

ivets exclusive of any removals in way. Also, a price of \$1 per pound for renewing hull zinc plates.

The above two concerns are the only ones equipped to haul the fireboat out of the water on to a dry dock in Boston or vicinity. On October 22 your Honor approved of the award of this work to James S. Munro Company because of the fact that the Bethlehem Steel Company employees were on strike and that company stated they could not do the work until the strike was settled. Since that time the strike has been settled, and they are able to do this work.

James S. Munro, to whom the award was originally made, bid approximately \$575 higher than the Bethlehem Steel Company. The award was made to Munro because it was an emergency job and because no advantage would be gained by the city through public advertising for bids, inasmuch as the repair work would be delayed and it was absolutely necessary to have the fireboat back in service as quickly as possible, especially with the winter season so near.

The Munro Company had a fire in their control room and also trouble with their submarine railway, making it impossible to haul the fireboat out of the water. The fireboat was towed to the Munro dock two weeks ago and since that time has not been hauled into the dry dock for necessary repairs, and the Munro Company cannot give us a definite date when they can haul the boat out of the water.

On the other hand, the lowest bidder, Bethlehem Steel Company, can put the boat in dry dock immediately and perform the required work within a week.

I respectfully request that your Honor's approval of the award of this work to the Munro Company, dated October 22, 1947, be cancelled and the work be given to the Bethlehem Steel Company at the prices quoted above.

Respectfully yours,

RUSSELL S. CODMAN, JR.,
Fire Commissioner.

INSTITUTIONS DEPARTMENT.

BOSTON, November 7, 1947.

HON. JOHN B. HYNES,
Temporary Mayor.

DEAR MR. MAYOR,—Authority is requested to incur expenditures not exceeding \$2,000 for boat hire when the Steamer "Stephen O'Meara" or Motor Vessel "James Michael Curley" is incapacitated.

This department has been accustomed to hire a boat at \$30 per round trip to allow the "O'Meara" crew time off—one trip on Saturday, two trips on Sunday, and as required on holidays. These trips are covered by service orders and charged to Item B-10 of the steamer budget.

In addition, we are obliged to hire a substitute boat when either the "O'Meara" or "Curley" is out for repairs, and charge same to Item B-39. The department usually hires a larger boat at \$70 per day for this purpose, although occasionally the smaller boat will meet the needs.

The prices appear reasonable, and I believe nothing could be gained by advertising.

Yours respectfully,

G. FRANK McDONALD,
Commissioner.

PARK DEPARTMENT.

BOSTON, October 22, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—Your permission is respectfully asked to enter into a three-year contract starting November 1, 1947, with the American Coin Lock Company Pawtucket, Rhode Island, for the operation of three convenience stations on Boston Common.

This company has operated the three convenience stations on the Common, at Park street, West street, and Flagstaff Hill for many years. Recently the city has been paying them \$2,500 per year to operate these stations and, under the terms of the present agreement which will continue under the new agreement, the company furnishes one attendant at Flagstaff Hill station and two attendants at the Park Street station. Flagstaff Hill is open from 8 a. m. to 8 p. m. and the Park Street station is open day and night.

Under the present agreement, whereby the city has been paying them \$2,500 a year, this company furnishes all the toilet tissues, mops, brooms, brushes, cleaning material, etc. If we were to operate these stations on the Common, the salaries alone would approximate \$7,000 per year, and in addition the city would have to purchase all the supplies necessary for the operation of them. In addition we would have to rent the locks from the American Coin Lock Company, as they cannot be purchased, and we would in turn be required to give back part of the receipts of the coin locks to the company.

I am convinced that if the city was to operate these stations they would be a definitely losing proposition.

The Board of Park Commissioners believe that for the best interests of the city this contract should be awarded to the American Coin Lock Company, without advertising. We know them to be one of the best concerns in this line of business, as we have made a survey of other companies and we find the American Coin Lock Company to be well qualified to operate the stations.

The Board of Park Commissioners request that they be allowed to award a contract for the operation of the Boston Common convenience stations to the American Coin Lock Company for a three-year period starting November 1, 1947, the city to pay the sum of \$2,500 per year and the American Coin Lock Company to furnish the services of three attendants and all necessary supplies and cleaning material and to retain the receipts of the coin locks in the stations. It is requested that the award be made without publicly advertising for bids, as we believe nothing could be gained by so doing.

Respectfully yours,

JOHN J. MURPHY,
Chairman.

BOSTON, November 10, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—For many years the Park Department has annually erected a manmade Christmas tree on Boston Common. Each year this department has been required to purchase several hundred small trees for use in the erection of the large Christmas tree. We have found it necessary to hire a rigger for the erection of a pole, and later the removal of it, on which this tree is formed. Then, further, we have had the cost of

decorating the tree with electric lights and later the removal of the decorations and lights. In addition, we have had to use considerable of the manpower of this department, at the risk of serious accidents in the reconstruction and removal of the annually manmade tree. Over all in the past the Christmas tree on Boston Common has cost approximately \$4,500 a year.

It is planned to furnish and transplant to Boston Common a live spruce tree. Accordingly, considerable time has been spent in and around greater Boston in an endeavor to find a suitable large evergreen for transplanting to the Common. The transplanting of a large evergreen is no ordinary task, but we feel that the transplanted tree will live from three to five years, and probably, with special care, longer.

After considerable search, a Norway spruce, measuring 55 to 60 feet in height has been found. It will be necessary to transplant this tree 25 miles to Boston. I have received a proposal from the Frost & Higgins Company, 20 Mill street, Arlington, whereby this firm will furnish and erect this tree, which is of healthy and shapely proportions and which can be bought.

This firm will furnish and erect this tree on Boston Common for the sum of \$2,318. This price includes preparation of the tree pit on the Common and also the digging, balling, and moving of the tree from its present location to the new position and properly guying it in place.

There may be some question as to how long an evergreen will live on Boston Common. We are reasonably assured that it will remain in a healthy condition for at least three years, and may live considerably longer if carefully maintained. Even if it lives only three years, a considerable saving will result to the city. Our only annual expense will be for the decorations and lights. I feel that this is a step forward for the city. Even this year the cost to the city with the transplanted tree should be slightly less than last year.

The Frost & Higgins Company is one of the very few firms in New England equipped to do this work. They have properly trained men and the necessary equipment and are covered by insurance, workmen's compensation, etc.

You are respectfully requested to approve, without publicly advertising for bids, the award of a contract for furnishing and placing a 55 to 60-foot spruce tree on Boston Common, to Frost & Higgins Company, for a sum not to exceed \$2,318.

The cost of this work is to be charged to "Park and Playground Improvements, Etc., Revenue."

Respectfully yours,

JOHN J. MURPHY,
Chairman.

SUPPLY DEPARTMENT.

BOSTON, November 6, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award an order to Sparrow Chisholm Company for furnishing the following: 2,500 yards compress, soft bleached, 1-yard flat fold, at 19½ cents a yard; 2,500 yards compress, stiff, 1-yard flat fold, at 27½ cents a yard.

This department has publicly advertised for bids on this commodity but was unable to secure any prices on said

publicly advertised bids. Since the Boston City Hospital was in urgent need of this commodity, bids were requested on the open market, and the only bid received was from the Sparrow Chisholm Company at the prices indicated above. Total amount of order, \$1,175.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, November 6, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award a contract, without public advertisement, to Remington Rand, Inc., Boston, Massachusetts, for furnishing to the Water Division of the Public Works Department one Remington triple print dual cross register public utility billing machine. This machine is used for water billing and produces a three-part bill with mechanical computation of water consumption and water charges.

This machine is to replace an old Remington Rand Machine which is now obsolete. The Division Engineer of the Water Service informs this department that this particular machine is especially adapted and constructed to meet his billing needs.

Total amount of contract, \$4,197, net delivered.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, November 7, 1947.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR,—At the present time the Public Welfare Department is using tabulating machine equipment belonging to the International Business Machines Corporation. This equipment cannot be purchased outright but is secured through the medium of a rental contract.

The Public Welfare Department has been considering the possibility for some time of securing similar equipment from Remington Rand, Inc., from whom they can be purchased outright, but have encountered considerable difficulty in getting the proper equipment from this company. They have notified this department that more time will be needed to adjust this condition and request that a contract be executed with the International Business Machines Corporation for furnishing tabulating machine equipment and services for a period of six months from July 1, 1947, to December 31, 1947.

In view of the above, I would respectfully request that permission be granted to award a contract, without public advertisement, to the International Business Machines Corporation for the following on a monthly rental basis:

Printing punch, No. 10751, \$50; printing punch, No. 10382, \$50; horizontal sorter, No. 12910, \$40; horizontal sorter, No. 12913, \$40; electric accounting machine, No. 11141, \$85; bill feed, No. 10114, \$20; alphabetic electric accounting machine, No. 21184, \$305; bill feed, No. 10827, \$20; alphabetic electric accounting machine, No. 12905, \$255; bill feed, No. 10356, \$20; automatic reproducer, No. 12062, \$90; check writing interpreter, No. 10279, \$60; automatic carriage, No. 19138, \$20; multiplying punch, No. 11267,

\$155; total, \$1,210. Approximate amount of contract for six months at \$1,210 a month, \$7,260.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, November 12, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to purchase flour for the various city departments in the open market for the month of December.

For the best interests of the city it is not advisable to enter into a long-term contract at the present time because the flour market is too high. The government's export program on grains should be near completion by the end of December, which should result in lower prices on flour in January, 1948, at which time publicly advertised bids will be considered.

The approximate amount of flour to be purchased during December is 600 bags, which will amount to approximately \$4,500.

Respectfully yours

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, November 14, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—I would respectfully request that permission be granted me to award an order to the Addressograph Sales Agency, 573 Boylston street, Boston, for furnishing to the Water Division of the Public Works Department one (1) graphotype machine, No. 6343, at a price of \$1,011.02 delivered, less an allowance for an old machine of \$35, making a net total of \$976.02.

This new machine is a replacement for one that has become obsolete and is a necessary item in the performances of the Water Income Division, and as the Addressograph Sales Agency are the manufacturers no advantage would be gained by publicly advertising for bids

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR REMOVING ASHES, CINDERS, CLINKERS, AND REFUSE FROM THE FERRYBOATS.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for removing ashes, cinders, clinkers, and refuse from the ferryboats. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Removing Ashes, Cinders, Clinkers, and Refuse from the Ferryboats," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of TUESDAY, DECEMBER 2, 1947, with a certified check for ONE HUNDRED (100) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

ROBERT P. CURLEY.

(Nov. 22.) Commissioner of Public Works.

CITY OF BOSTON.

HOSPITAL DEPARTMENT.

INVITATION FOR PROPOSALS FOR INSTALLATION OF A NEW ELEVATOR AND HOT WATER PIPING AT SANATORIUM DIVISION, 249 RIVER STREET, MATTAPAN DISTRICT, BOSTON, MASS.

The Trustees of the Boston City Hospital, hereinafter referred to as the Awarding Authority, invite sealed proposals for the installation of new elevator and hot water piping at the Sanatorium Division, 249 River street, Mattapan district, Boston, Mass.

Proposals will be received until 12 o'clock noon, Friday, December 5, 1947, Eastern Standard Time, at the office of the Superintendent of the Boston City Hospital, 818 Harrison avenue, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the architect, the John M. Gray Company, 175 High street, Boston, Mass. Each copy of the proposal shall be properly filled out, signed and enclosed in a sealed envelope plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Superintendent of the Boston City Hospital, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, or a satisfactory bid bond executed by the bidder and a surety company in the amount of 5 per cent of the base proposal shall be submitted with each bid, filed with the Superintendent of the Boston City Hospital.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, laborers, etc., in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts, a copy of which schedule is attached to the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under the contract.

Plans and specifications may be obtained at the office of the architect, the John M. Gray Company, 175 High street, Boston, Mass. A deposit of \$50 in cash or a certified check will be required for each set of plans and specifications, and this deposit will be returned to the bidders upon receipt of said plans and specifications in good condition by the architect.

Sub-bidders bidding on the work of sub-contractors shall use the proposal form obtainable from the architect upon request.

All sub-bidders' proposals must be in the possession of the Trustees of the Boston City Hospital and delivered or mailed to the general bidder no later than 12 o'clock noon, Eastern Standard Time, Wednesday, December 3, 1947.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, or a satisfactory bid bond executed by the sub-bidder and a surety company shall be submitted by sub-bidders listed under Item 2 of the general contractor's bid form in not less than 5 per cent of the sub-bidder's bid price, and shall be submitted with each sub-bid.

Sub-bids will be taken on the following portions of the work:

- a. Elevator. b. Plumbing.

A performance bond, issued by a surety company satisfactory to the Awarding Authority in the full amount of the contract, will be required of the successful general contractor.

Information relating to the performance bonds of sub-contractors is set forth in the notice to sub-bidders.

The City of Boston reserves the right to reject any or all bids of the general bidders and to waive any informalities in bidding, if it be in the public interest to do so. The City of Boston also reserves the right to reject all bids of the sub-bidders on any item or items and to waive any informalities in the bidding, if such rejection or waiver be in conformance with Section 44C of chapter 149 of the General Laws.

No bid of a general bidder shall be withdrawn prior to thirty (30) days from the opening of bids by the Awarding Authority, and no bid of a sub-bidder shall be withdrawn prior to thirty (30) days from the opening of bids, without the consent of the Awarding Authority.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR REPAIRING FENDER PIERS AT CHELSEA NORTH BRIDGE.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for repairing fender piers at Chelsea North Bridge. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Repairing Fender Piers at Chelsea North Bridge," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of THURSDAY, DECEMBER 4, 1947, with a certified check for FIFTEEN HUNDRED (1,500) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars (\$2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

ROBERT P. CURLEY,

(Nov. 22.) Commissioner of Public Works.

CITY OF BOSTON.

INSTITUTIONS DEPARTMENT.

INVITATION FOR PROPOSALS FOR THE REPAIR OF FROM ONE TO SIX COMBUSTION CHAMBERS AND BOILER SETTINGS, AND THE REPLACING OF LINING FOR FROM ONE TO SIX BOILERS IN THE POWER PLANT AT THE LONG ISLAND HOSPITAL, BOSTON HARBOR, MASS.

The Commissioner of Institutions of the City of Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for the repair of from one to six combustion chambers and boiler settings, and the replacing of lining for from one to six boilers in the power plant at the Long Island Hospital, Boston Harbor, Mass.

Proposals will be received until 12 o'clock noon, Monday, December 1, 1947, at the office of the Awarding Authority, eleventh floor, 1109 City Hall Annex, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$1,000, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

Specifications may be obtained at the office of the Awarding Authority.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

G. FRANK McDONALD,
Commissioner.

BOSTON'S RETIREMENT SYSTEMS SHOWN TO BE IN VERY SATISFACTORY CONDITION, ACCORDING TO REPORT OF GOVERNING BOARD—SHOWS 259 MEMBERS RETIRED, WITH 1,428 NEW MEMBERS AND 1,195 WITHDRAWALS—OF NUMBER WITHDRAWING, 123 WERE DUE TO DEATHS, 813 TO RESIGNATIONS, AND 259 TO RETIREMENTS—CASH REFUNDED AMOUNTED TO \$743,145.02, AND COST OF ADMINISTRATION AMOUNTED TO \$42,797.51—STATE-BOSTON RETIREMENT SYSTEM INAUGURATED WITHOUT IMPAIRING OPERATION OF BOSTON ORGANIZATION.

Boston's Retirement Systems are in very satisfactory condition, according to report made to Mayor Curley by the governing board—259 members were retired, of whom 168 were for service, 77 for accidental disability, 11 for ordinary disability, and 7 accidental death benefits were granted. One thousand four hundred twenty-eight new employees were admitted to membership, with 1,195 withdrawals.

	<i>Boston Retirement System.</i>	<i>State-Boston Retirement System.</i>
Members Retired	211	48
Service	126	42
Accidental Disability	74	3
Ordinary Disability	8	3
Accidental Death Benefit	3	4

During the year there were admitted to membership 1,428 new employees. The number of withdrawals was 1,195, of which 123 were due to death, 813 were due to resignation, and 259 to retirement. The amount of cash refunded as a result of these withdrawals was \$743,145.02. The cost of administering the systems for 1946, which is borne by the city, was \$42,797.51.

The itemization of the administration is as follows:

	<i>Boston Retirement System.</i>	<i>State-Boston Retirement System.</i>

TEMPORARY MAYOR HYNES PLEADS TO SAVE HARVARD MALL, CHARLESTOWN, FROM DESTRUCTION BY MYSTIC RIVER BRIDGE AUTHORITY.

Upon November 25 Temporary Mayor Hynes issued the following letter:

HON. ROBERT F. BRADFORD,
Governor of the Commonwealth, State House, Boston.

MY DEAR GOVERNOR,—It has been called to my attention that the Mystic River Bridge Authority contemplate the taking of a piece of John Harvard Mall in Charlestown, in connection with a street widening for the approach to the new bridge. The Harvard Mall, which is on Main street, Charlestown, was acquired and improved by a private individual who turned it over to Harvard College, who, in turn, turned it over to the City of Boston, which has maintained this small parcel of land for the past several years. There is considerable objection to the taking of any part of this Mall, and I think this objection is justified. It would seem to me that such a taking can be avoided and this historic site preserved.

In addition, it might be kept in mind that under the law, the Mystic River Bridge Authority pay no damages for the taking of public lands, and this is a further objection to the taking of this particular piece of land.

I would like also to call attention at this time, to the fact that the same Authority are contemplating the taking of a portion of the Barry Playground located at Chelsea and Medford streets in Charlestown. Such a taking of a portion of

this playground will cause the City of Boston to spend from forty thousand to fifty thousand dollars to put the playground in a serviceable condition after the bridge is completed. Under the terms of the Act, no damages will be forthcoming from the Mystic River Bridge Authority. It should be kept in mind, in this connection, that in Charlestown today there are only two playgrounds, the Barry and the Sullivan Square Playgrounds. In the construction of the bridge, we not only lose the use of one of these playgrounds for a period of two years or perhaps longer, and not only lose a portion of the playground permanently, but get no recompense whatsoever for such loss. In view of the fact that land in Charlestown is at a premium for this purpose, it would cost the city, at today's prices, approximately three hundred thousand dollars to replace the Barry Playground.

I am further agreed that the wheels of progress demand that certain things of this nature be done at times, but I do think that whenever historic areas are to be taken or playground facilities partially destroyed, the local government concerned in the maintenance of these public lands should be given some right to be heard. In the present instance, I think the taking of the Harvard Mall should be avoided, and I think an amendment to the law to provide for recompense to the city for the damages to the Barry Playground should be given approval.

With every best wish, I am

Respectfully,

JOHN B. HYNES,
Temporary Mayor.

Construction Units, Inc., \$377,300; M. S. Kelliher Company, \$374,832; Park Construction Company, \$398,000; J. A. Singarella Company, \$398,628; S. Volpe & Co., \$397,206.

Upon November 12 the Temporary Mayor approved a contract with Bennett-Stewart Company, Inc., for the construction of a veterans' housing development on the north side of River street, in the Mattapan district of the City of Boston. Bids, opened October 20, were as follows:

Bennett-Stewart Company, Inc., \$321,799; John Bowen Company, \$356,000; Construction Units, \$324,000; Park Construction Company, Inc., \$381,140; J. A. Singarella Company, \$370,328; M. Slotnick Corporation,

\$339,863; S. Volpe & Co., \$331,391; Thomas Worcester, Inc., \$366,175.

Upon November 12 the Temporary Mayor approved a contract with Construction Units for veterans' housing developments at Downer and Sawyer avenues and Tileston and Windsor streets, in the Dorchester and Mattapan districts of the City of Boston. Bids, opened November 3, were as follows:

Sawyer Avenue and Downer Avenue.

Bennett-Stewart Company, Inc., \$125,734; P. J. Cantwell and Son, \$123,400; Construction Units, \$111,555; Park Construction Company, Inc., \$129,000; J. A. Singarella Company, \$129,822; S. Volpe & Co., \$118,000.

Tileston and Windsor Streets.

Bennett-Stewart Company, Inc., \$102,334; P. J. Cantwell and Son, \$103,600; Construction Units, \$93,558; Park Construction Company, Inc., \$105,000; J. A. Singarella Company, \$108,185; S. Volpe & Co., \$99,000.

Upon November 12 the Temporary Mayor approved a contract with Matthew Cummings Company for the construction of veterans' housing development in the Readville district of the City of Boston. Bids, opened October 21, were as follows:

John Bowen Company, \$676,700; Matthew Cummings Company, \$646,560; Park Construction Company, Inc., \$699,000; J. A. Singarella Company, \$684,837; M. Slotnick Corporation, \$653,578; S. Volpe & Co., \$653,352; Thomas Worcester, Inc., \$664,433.

Upon November 17 the Temporary Mayor approved a contract with M. Slotnick Company for veterans' housing development at Cottage street, Hyde Park district of the City of Boston. Bids, opened October 22, were as follows:

Bennett-Stewart Company, Inc., \$794,549; John Bowen Company, \$808,000; M. S. Kelliher Company, \$858,500; Park Construction Company, \$825,000; J. A. Singarella Company, \$844,277; M. Slotnick Company, \$784,610; S. Volpe & Co., \$791,434.

Upon November 17 the Temporary Mayor approved a contract with M. S. Kelliher Company for the construction of a veterans' housing development on River street, in the Mattapan district of the City of Boston. Bids, opened October 1, were as follows:

M. S. Kelliher Company, \$653,121; J. A. Singarella Company, \$687,000; S. Volpe & Co., \$689,329; Grande & Son, \$727,077.

Bids as received specified a one-pipe steam heating system. After the bids were opened, the Authority decided to invite bids as permitted by statute for an oil-fired air heating system which, in its opinion, would be more economical. Bids were received and opened on Friday, November 7, on the heating system as revised. This results in a reduction in the bid of the low bidder, M. S. Kelliher Company, of \$29,385.

Approval has been given to an award of a contract to M. S. Kelliher Company in the amount of \$623,736, which sum reflects a saving of \$29,385 over the original bid of this company.

HOSPITAL DEPARTMENT.

Upon November 12 the Temporary Mayor approved a contract with Stearns, Perry and Smith Company for reconditioning sprinkler supervisory system, Boston City Hospital. Bids, opened at the hospital on Thursday, November 6, were as follows:

WITHOUT ADVERTISING.

Upon varying dates as indicated the Temporary Mayor approved contracts with contractors, supply houses, and commercial institutions for furnishing labor, supplies, etc. Communications from the heads of the departments interested were as follows:

LIBRARY DEPARTMENT.

BOSTON, November 7, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR MR. MAYOR,—Since it is not possible to obtain competitive bidding by public advertising, your approval is respectfully requested for the Trustees to sign a lease, without public advertising, with Edith Foster for the rental of the premises located at 18 Barnes avenue, East Boston, for quarters for our Orient Heights Branch Library. The lease will be for the period September 1, 1947, through August 31, 1948, and the rental

will be in the sum of three thousand six hundred dollars (\$3,600).

Inasmuch as the total rental will exceed one thousand dollars (\$1,000), beyond which there must be public advertising for bids, it is necessary to request your permission to enter into this lease without publicly advertising for bids.

Your approval of this award is respectfully requested.

Respectfully,

THE TRUSTEES OF THE PUBLIC LIBRARY
OF THE CITY OF BOSTON,
FRANCIS B. MASTERSON,
President.

BOSTON, November 7, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR MR. MAYOR,—Since it is not possible to obtain competitive bidding by public advertising, your approval is respectfully requested for the Trustees to sign a lease, without public advertising, with George A., Elizabeth V., and Johanna A. Wagner for the rental of the premises located at 182-184 Neponset avenue, Dorchester, for quarters for our Neponset Branch Library. The lease will be for the period November 1, 1947, through October 31, 1948, and the rental will be in the sum of eighteen hundred dollars (\$1,800).

Inasmuch as the total rental will exceed one thousand dollars (\$1,000), beyond which there must be public advertising for bids, it is necessary to request your permission to enter into this lease without publicly advertising for bids.

Your approval of this award is respectfully requested.

Very sincerely yours,

THE TRUSTEES OF THE PUBLIC LIBRARY
OF THE CITY OF BOSTON,
FRANCIS B. MASTERSON,
President.

BOSTON, November 7, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR MR. MAYOR,—Your permission is respectfully requested to award without public advertising a contract for the transportation of books and other materials between the Central Library and the branch libraries during the calendar year 1948 to the H. B. Church Truck Service Company, 26 Reading street, Roxbury, Mass.

Such permission is requested for the following reasons:

1. The nature of the work to be performed, and particularly the fact that a substantial portion of it has to be done daily before or after members of the library staff in the branch libraries are on duty, makes it desirable to continue if possible without the necessity of training new drivers into its routine.

2. Public advertising for bids in 1939 resulted in the submission of two bids; in 1940, one bid; in 1941, two bids; in 1942, two bids; in 1943, one bid; in 1944, one bid; in 1945, two bids. In 1942 the low bidder died in the course of the year. In 1943 it was necessary to take action against the contractor doing the work, inasmuch as the rates being charged the Library for the work were in excess of those filed by him with the Department of Public Utilities of Massachusetts. In 1945 it was necessary to terminate the contract with the low bidder for inability to provide the proper type of equipment as set forth in our contract.

3. The H. B. Church Truck Service Company has been the holder of the contract for the period September 20, 1943, through December 31, 1944, and for the period June 4, 1945, until the present time.

4. The H. B. Church Truck Service Company has a thorough familiarity with the work to be performed, is a reliable organization, and has given satisfactory service on its preceding contracts.

For these reasons it is believed that it will be to the best interests of the city and of the Library to award this contract for 1948 without public advertising for bids. The Trustees have therefore

"Voted, That there be awarded without public advertising to the H. B. Church Truck Service Company, 26 Reading street, Roxbury, Mass., a contract for the transportation of books and other materials between the Central Library and the branch libraries for the period January 1 through December 31, 1948, at the rate of ninety-five dollars (\$95) per truck for two (2) trucks, plus an over-all charge of ten dollars (\$10) per week for handling cash, plus two dollars and forty-five cents (\$2.45) per hour per truck for all hours trucks are used beyond eight (8) hours in any working day, and for a third (3d) or more additional trucks as required at the rate of two dollars and eighty-five cents (\$2.85) per hour per truck with a minimum charge of four (4) hours per truck, and at the rate of three dollars and forty-five cents (\$3.45) for use of such third or more trucks beyond eight hours in any working day."

Your permission to proceed along these lines is respectfully requested.

Respectfully,

THE TRUSTEES OF THE PUBLIC LIBRARY
OF THE CITY OF BOSTON,
FRANCIS B. MASTERSON,
President.

BOSTON, November 7, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR MR. MAYOR.—Since it is not possible to obtain competitive bidding by public advertising, your approval is respectfully requested for the Trustees to sign a lease, without public advertising, with Toffo C. Kando for the rental of the premises located at 275 Washington street, Dorchester, for quarters for our Mt. Bowdoin Branch Library. The lease will be for the period January 1, 1948, through December 31, 1948, and the rental will be in the sum of three thousand dollars (\$3,000).

Inasmuch as the total rental will exceed one thousand dollars (\$1,000), beyond which there must be public advertising for bids, it is necessary to request your permission to enter into this lease without publicly advertising for bids.

Your approval of this award is respectfully requested.

Respectfully,

THE TRUSTEES OF THE PUBLIC LIBRARY
OF THE CITY OF BOSTON,
FRANCIS B. MASTERSON,
President.

PARK DEPARTMENT.

BOSTON, November 15, 1947.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR SIR,—The condition of the bituminous concrete and the sheet asphalt type of road surface on the parkways (on roads upon which the guarantee has

expired) is poor in many places. In some places the surfaces and foundations of the roads have disintegrated, and it is imperative that we start immediately to make certain repairs on the roads so that they may be in good shape during the winter months.

The city has in force now an agreement with the Central Construction Company for patching bituminous-type pavements on streets and highways which are under the control of the Public Works Department of the city. The Central Construction Company has agreed to make patches on pavements on park roads as designated by this department at the same unit prices that are now in force in the above-mentioned contract. I feel that these unit prices are the lowest that can be obtained and that the Central Construction Company has all the facilities necessary to complete all the required work on time.

Accordingly, it is my judgment that nothing can be gained by publicly advertising for the work.

In view of the foregoing, I respectfully request permission to award a contract, without publicly advertising, for the repair of parkways and roadways as designated by this department, to the Central Construction Company, 228 Southampton street, at the unit prices set forth in the above-mentioned contract, for a sum not to exceed \$10,000.

The cost of the work will be charged to "Reconstruction and Repairs of Roadways and Parkways."

Very respectfully yours,

JOHN J. MURPHY,
Chairman.

SUPPLY DEPARTMENT.

BOSTON, November 6, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—I would respectfully request that permission be granted to award an order to Hoffman-LaRoche Company for furnishing to the Boston City Hospital 5000 ampoules of Berocca-C at a price of \$21.60 per 100 ampoules.

As the Hoffman-LaRoche Company are the only manufacturers of this product, no advantage would accrue from a public advertisement for bids.

The total amount of the order is \$1,080.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

INCREASED AID TO WELFARE RECIPIENTS.

The following was received:

City of Boston,
Office of the Mayor, October 28, 1947.
To the City Council.

Gentlemen,—I transmit herewith communication from the Chairman of the Overseers of Public Welfare relative to your order of October 6 concerning increased aid to welfare recipients.

Respectfully yours,
J. B. HYNES,
Temporary Mayor.

City of Boston,
Overseers of the Public Welfare,
October 24, 1947.

Hon. John B. Hynes,
Mayor of Boston.

Dear Sir,—The Board of Overseers of the Public Welfare, in answer to the order of the City Council passed on October 6, 1947, which reads as follows:

"Ordered, That his Honor the Mayor be requested to instruct the Public Welfare Department to double the present allowances given to Old Age Assistance and other recipients of welfare aid, due to the decline in the value of the dollar and extremely high prices charged for food, clothing, etc."

wishes to reply that they have no control of the amounts of aid allowed in Aid to Dependent Children or Old Age Assistance cases, as the department is obliged under the law to follow the mandatory state budget, and that General Relief cases have recently been increased.

Sincerely yours,
LOUIS P. LEONARD,
Chairman.

"STOP" SIGN AT WINSHIP AND UNION STREETS.

The following was received:

City of Boston,
Office of the Mayor, November 10, 1947.
To the City Council.

Gentlemen,—I transmit herewith communication from the Traffic Commissioner relative to your order of October 20, concerning the installing of "Stop" signs at the intersection of Winship and Union streets, bordering Wards 21 and 22.

Respectfully yours,
J. B. HYNES,
Temporary Mayor.

City of Boston,
Traffic Commission, November 5, 1947.
Hon. John B. Hynes,
Mayor of Boston.

Dear Sir,—In reply to Council order of October 20, 1947, in which the Boston Traffic Commission is requested to install "Stop" signs at the intersection of Winship and Union streets, please be advised that there have been very few accidents during the past ten years, and in the opinion of the engineers no action should be taken on this request.

Respectfully submitted,
LEO F. CURLEY,
Commissioner.

TRAFFIC SIGNALS AT NORTH AND FLEET STREETS.

The following was received:

City of Boston,
Office of the Mayor, November 10, 1947.
To the City Council.

Gentlemen,—I transmit herewith communication from the Traffic Commissioner relative to your order of September 29, concerning the installing of traffic signal lights at the intersection of North and Fleet streets, Ward 3.

Respectfully yours,
J. B. HYNES,
Temporary Mayor.

City of Boston,
Traffic Commission, November 4, 1947.
Hon. John B. Hynes,
Mayor of Boston.

Dear Sir,—In reply to Council order of September 29, 1947, requesting the Boston Traffic Commission to install traffic lights at the intersection of Fleet street and North street, Boston, please be advised that I do not believe any action should be taken on this Council order.

At the present time we do not have money available, and in the opinion of the Engineering Department there are many other intersections that should receive consideration before this suggestion.

Respectfully submitted,
LEO F. CURLEY,
Commissioner.

TRAFFIC SIGNALS IN WARD 22.

The following was received:

City of Boston,
Office of the Mayor, November 10, 1947.
To the City Council.

Gentlemen,—I transmit herewith communication from the Traffic Commissioner relative to your order of October 20, concerning the installing of automatic traffic signals at Parsons and Arlington streets, Chestnut Hill avenue and Chiswick road, and Lincoln and Franklin streets, Ward 22, funds to be included in 1948 budget.

Respectfully yours,
J. B. HYNES,
Temporary Mayor.

City of Boston,
Traffic Commission, November 4, 1947.
Hon. John B. Hynes,
Mayor of Boston.

Dear Sir,—In reply to Council order of October 20, 1947, in which the Boston Traffic Commission is requested to include in next year's budget sufficient sums to install automatic traffic signals at the following locations in Ward 22—Parsons and Arlington streets, Chestnut Hill avenue and Chiswick road, Lincoln street and Franklin street—you are hereby advised that the intersection of Parsons street and Arlington street will be signalized shortly and that, when and if money becomes available, every consideration will be given to the request to install traffic signals at the other two intersections.

Respectfully submitted,
LEO F. CURLEY,
Commissioner.

UNIFORMS FOR MAINTENANCE DIVISION MEMBERS OF FIRE DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, October 30, 1947.
To the City Council.

Gentlemen,—I transmit herewith communication from the Fire Commissioner relative to your order of October 20, 1947, concerning the equipping with uniforms of the employees of the Maintenance Division of the Boston Fire Department.

Respectfully yours,
J. B. HYNES,
Temporary Mayor.

City of Boston,
Fire Department, October 29, 1947.
Hon. John B. Hynes,
Temporary Mayor of Boston.

Dear Mr. Mayor,—Reference is made to attached City Council order dated October 20, 1947, requesting the Fire Commissioner to equip with uniforms the employees of the Maintenance Division of the Boston Fire Department.

There are not sufficient funds in our budget at this time to equip the members of the Maintenance Division, as priority for uniforms must be given to the members of the fire fighting force. Further, I can see no advantage that would be derived from giving uniforms to civilian employees of the Maintenance Division.

Very truly yours,
RUSSELL S. CODMAN, JR.,
Fire Commissioner.

ACQUISITION OF JACKSON PARK, BRIGHTON.

The following was received:

City of Boston,
Office of the Mayor, October 28, 1947.
To the City Council.

Gentlemen,—I transmit herewith communication from the Corporation Counsel relative to your order of October 20, 1947, concerning a progress report to the City Council relative to the acquisition of Jackson Park on Commonwealth avenue, Brighton.

Respectfully yours,
J. B. HYNES,
Temporary Mayor.

City of Boston,
Law Department, October 24, 1947.
J. Joseph Connors, Esq.,
Chief Clerk, Mayor's Office.

Dear Sir,—On October 21, 1947, you referred to the Law Department the enclosed order of the City Council requesting the Corporation Counsel to submit a progress report relative to the acquisition of Jackson Park on Commonwealth avenue, Brighton. I referred your communication to Assistant Corporation Counsel Samuel S. Dennis, who is in charge of tax title matters, and I enclose a copy of his report to me.

If the purpose of this order is for the establishment of a park on City of Boston property it is necessary that the matter be referred to the Board of Park Commissioners for their consideration.

Yours very truly,
JOSEPH A. SCOLPNETI,
Corporation Counsel.

MEMORANDUM.

Re: Lot 7, Chiswick Road, Brighton, Ward 21, File M-695.

This memorandum is in relation to enclosed communication from the office of the Mayor, dated October 21, 1947, and referring to Council order October 20, 1947, requesting the Corporation Counsel to submit a progress report to the City Council relative to the acquisition of Jackson Park on Commonwealth avenue, Brighton.

The Tax Title Division of the Law Department has no case referring to property designated as Jackson Park. However, we have a file referring to property, Lot 7, Chiswick road, Brighton, which may be the property the Council have in mind. This property, according to our latest report, stood in the name of Lorenzo D. Baker *et al.*, Trustees of "Jackson Park Trust." Said property being further described in deed Spencer W. Richardson to Trustees of Jackson Park Trust, recorded Suffolk Registry of Deeds, Book 3566, page 302. See also Brighton Atlas, 1916, Plate 10.

The city at one time held a tax title on these premises acquired for nonpayment of the taxes for the year 1941. It appears that under date of February 25, 1947, the taxes due the city as they appeared upon the tax title account, namely, for the years 1941 to 1945, inclusive, were paid and redemption was made from the tax title then held by the city. The City of Boston is not at present the holder of any tax title on these premises. It well may be that the Council by order of May 26, 1947, contemplated the acquisition of this property through a taking by eminent domain.

Respectfully submitted,
SAMUEL S. DENNIS,
Assistant Corporation Counsel.

APPROPRIATION FROM PRINTING DEPARTMENT INCOME.

The following was received:

City of Boston,
Office of the Mayor, November 10, 1947.
To the City Council.

Gentlemen,—I am in receipt of the attached request from the Superintendent of Printing for an additional appropriation of \$41,352.21, necessary to provide sufficient funds for the purchase of equipment and materials for the balance of the year.

In compliance with this request, there is forwarded herewith an order providing for the appropriation of \$41,352.21 from the income of the Printing Department, and I recommend consideration and adoption of this order by your Honorable Body.

Respectfully,
J. B. HYNES,
Temporary Mayor.

APPROPRIATION FROM WORLD WAR MEMORIAL PARK SPECIAL RESERVE ACCOUNT.

The following was received:

City of Boston,
Office of the Mayor, November 10, 1947.
To the City Council.

Gentlemen,—I am in receipt of the attached communication from the Chairman of the Park Department, in which he states that he has deposited with the City Collector a check on the Treasurer of the United States in the amount of \$31,790, which represents reimbursement by the federal government for damage caused to World War Memorial Park and Athletic Field during the recent war. Negotiations for this reimbursement have been carried on for a considerable period of time, but, pending receipt of this money, the Park Department proceeded to restore this park and athletic field, charging the expenses against the Special Appropriation, "Park and Playground Improvements, etc.," with the understanding that this appropriation would be reimbursed for the money expended from it. Accordingly, there is forwarded herewith an order appropriating this sum from the World War Memorial Park Special Reserve Account to the Special Appropriation, "Park and Playground Improvements, etc."

Consideration and adoption of this order by your Honorable Body is recommended.

Respectfully,
J. B. HYNES,
Temporary Mayor.

City of Boston,
Park Department, November 6, 1947.
Hon. John B. Hynes,
Mayor of Boston.

Dear Sir,—I have today deposited with the City Collector a check on the Treasurer of the United States in the amount of \$31,790, which represents reimbursement by the federal government for damage caused to World War Memorial Park and Athletic Field during the recent war. This park was used as a barracks and headquarters for the United States Army and, because of extensive use to which the area was put, it received considerable wear and tear with resultant damage.

I have carried on negotiations for a considerable period of time with officials of the government with regard to the restoration of this park. Estimates for the regrading and resurfacing of the athletic field, grading of all areas, restoration of the field house, cleaning out of drainage and sewerage systems, and work of a similar nature was submitted to the federal government with the request that we be reimbursed for the damage that was caused to these areas. An over-all estimate was submitted to the government in the amount of \$48,617. After considerable negotiation they finally agreed to pay the amount referred to herein, \$31,790, although originally they wanted to pay less. The necessary papers prior to the receipt of this payment were approved by the Corporation Counsel and your Honor.

Pending receipt of this money we proceeded to restore and resurface the main athletic field and some areas in the park. A contract for this work was publicly advertised, and the low bid received amounted to \$21,853. This work is now in progress and has been substantially completed.

This contract has been charged to the Special Appropriation, "Park and Playground Improvements, etc., Revenue," and we feel that this appropriation should be reimbursed for the money being expended from it. It is our intention, with your approval, to have the \$31,790 received from the federal government appropriated to the Park and Playground Improvement account.

Accordingly, it is respectfully requested that you initiate an order on the City Council asking that this money be transferred from the Special Reserve account in the Collector's office to the "Park and Playgrounds, Improvements, etc., Revenue" account. This check has been placed in the Special Reserve account pending action by you. Otherwise, we would have been required to deposit it to General Revenue.

I present this matter to you for your consideration and whatever action you deem necessary.

Respectfully yours,
JOHN J. MURPHY,
Chairman.

Ordered, That the sum of thirty-one thousand seven hundred ninety dollars (\$31,790) be, and the same hereby is, appropriated from the World War Memorial Park Special Reserve Account, to be expended under the direction of the Chairman of the Park Department for Park and Playground Improvements.

Referred to the Executive Committee.

APPROPRIATION FOR GENERAL REZONING STUDY, ETC.

The following was received:

City of Boston,
Office of the Mayor, November 10, 1947.
To the City Council.

Gentlemen,—I am in receipt of the attached request of the Joint Committee on Rezoning, composed of representatives of the City Planning Board and the Board of Zoning Adjustment, re-

questing the sum of \$750 for consultant assistance in the drafting of legislation to clarify certain phases in the Zoning Law, and also for a report and advice on the need of a general rezoning study.

In compliance with the above request I am forwarding herewith an order appropriating the sum of \$750 from the Contingent Fund for this purpose, and recommend consideration and adoption by your Honorable Body.

Respectfully,
J. B. HYNES,
Temporary Mayor.

City of Boston,
Board of Zoning Adjustment,
October 28, 1947.

Hon. John B. Hynes,

Temporary Mayor.
Dear Mr. Mayor.—At a meeting held on Wednesday, October 22, the Joint Committee on Rezoning, composed of representatives of the City Planning Board and the Board of Zoning Adjustment, after thorough consideration,

Voted, To request of his Honor the Temporary Mayor that the sum of \$750 be made available from the Contingent Fund to the Board of Zoning Adjustment, working jointly with the City Planning Board, for consultant assistance in the drafting of legislation to clarify certain phases in the Zoning Law and also for a report and advice on the need of a general rezoning study.

The zoning of Boston has never been comprehensively revised since the Zoning Law went into effect in 1924. Some changes are definitely needed. A determination should immediately be made as to the desirability of a major city-wide rezoning study. Therefore, your Honor's approval of the above appropriation is urgently requested.

Very truly yours,
JOHN A. BREEN, Chairman,
Board of Zoning Adjustment
Committee on Rezoning.

Ordered, That the sum of seven hundred fifty dollars (\$750) be, and the same hereby is, appropriated, to be expended under the direction of the Board of Zoning Adjustment in connection with a general rezoning study, same to be charged to the Contingent Fund.

Referred to the Executive Committee.

APPOINTMENT OF JOHN C. CONLEY TO HOUSING AUTHORITY.

The following was received:

City of Boston,
Office of the Mayor, November 10, 1947.
To the City Council.

Gentlemen,—Under the provisions of section 26M of the Housing Authority of the Commonwealth (as inserted in chapter 121 of the General Laws and as amended by section 1 of chapter 484 of the Acts of 1938) I hereby appoint John C. Conley, 1163 Boylston street, Boston, to be a member of the Boston Housing Authority for the term expiring January 8, 1948, vice, Eva Whiting White, resigned.

Respectfully,

J. B. HYNES,
Temporary Mayor.

Ordered, That the appointment by his Honor the Mayor of John C. Conley to be a member of the Boston Housing Authority for the term expiring January 8, 1948, be, and hereby is, confirmed and approved.

Referred to Committee on Public Housing.

REVISION OF CERTAIN LICENSE FEES.

The following was received:

City of Boston,
Office of the Mayor, November 7, 1947.
To the City Council.

Gentlemen,—I submit herewith an ordinance providing for certain changes and revisions in existing fees for permits, licenses, and departmental services. This ordinance is based on recommendations submitted by the committee appointed early this year to survey departmental revenues, and a copy of the committee's report is attached hereto.

There has been no general revisions of fees for licenses and permits issued by the various departments of the city since 1938. In the meanwhile, as you are well aware, the cost to the city of furnishing departmental services or making available the privileges represented by the issuance of licenses, permits, etc., has expanded materially. It would seem expedient and desirable, therefore, that a revision of departmental charges and fees should be made wherever such revision can be defended on the grounds of reasonableness. I therefore recommend adoption of the accompanying ordinance and trust that such action will take place in time to make the revised charges effective as of January 1, 1948.

Respectfully,

J. B. HYNES,
Temporary Mayor.

Boston, November 6, 1947.

John B. Hynes,

Temporary Mayor of Boston.

Dear Sir,—Departmental revenues received in the City of Boston from the collection of fees for permits and licenses, fines, service charges, etc., may be divided into two classes: first, those revenues which are authorized by specific legislative acts, and second, those which are fixed by department heads under general legislative sanction. In the main, this latter class of charges has been set up under the provisions of chapter 571 of the Acts of 1910, which authorized the establishment by department officials with the approval of the Mayor of "reasonable fees or charges for the issuance of permits and licenses by said departments." Since the authority granted under the provisions of this Act is general in character, it would appear permissible for department heads at this time to revise any fee or charge previously established under the authority of this legislation, provided the revisions proposed may be supported on the grounds of reasonableness.

In 1931 the Legislature, through the enactment of chapter 297, authorized the City Council with the approval of the Mayor "to fix the fees for licenses or permits for which a fee is collected at the date of the passage of this Act under authority of statutes then existing." Under the language of this statute, the City Council is authorized to re-establish fees which were originally established by statute. This statute was amended by chapter 173 of the Acts of 1939, which gave additional power to the Council "to fix the compensation to be paid for any services rendered or work performed by any person or class of persons." It is evident, therefore, that in the City of Boston a program embodying the revision of departmental fees and charges must embrace two definite lines of action. Where fees and charges have been established by department heads under authority of general legislation of the type of chapter 571 of the Acts of 1910, the responsibility for initiating changes and revisions clearly rests with department officials.

REVISION OF CERTAIN LICENSE FEES.

(Continued from page 1315.)

Where fees are now being collected under specific statutory authority, responsibility for revisions and changes rests with the City Council.

In view of this situation, the committee appointed early this year to survey the existing schedule of fees and departmental charges submits its recommendations in two groups or divisions: the first, including recommendations upon which department heads are required to take action, and second, recommendations for consideration and action by the City Council. The first group of recommendations have already been submitted to the various departments concerned, and in a number of instances the new fees and charges suggested have already been adopted. With regard to the second group of recommendations, it is hoped that the revisions and changes therein proposed may be made effective wherever possible as of January 1, 1948.

In drafting its recommendations, the committee has had a series of conferences with all department officials, and with other interested parties, and has devoted considerable time to its consideration of this subject. We are of the opinion that the schedule requiring action by the City Council, together with the schedule representing charges to be established by action of the Mayor and department heads, will provide a new basis for fees which is reasonable and equitable under all the circumstances involved. Your committee has been careful to avoid increasing fees to a point where such charge might rightfully be termed an outright tax. In the process of its studies, the committee has considered the amount of inspectional or other work which is entailed; the value of the privilege granted; the ability of the applicant to meet the higher charges for permits or licenses; and all other factors which would lead to a reasonable and equitable schedule. The committee is of the belief that the results of its studies, if approved, will not only result in increased revenues to the city, but will also establish fees for licenses and permits more consistent with the type and character of service or privilege granted.

Respectfully,
CHARLES J. FOX,
DANIEL F. DONOVAN,

* John B. Hynes, City Clerk, served as a member of the Committee until his appointment as Temporary Mayor, June 26, 1947.

City of Boston,
In the Year Nineteen Hundred and Forty-Seven.
An Ordinance Revising Certain Fees.

Be it ordained by the City Council of Boston, as follows:

SECTION 1. Section twenty-two of chapter forty-one of the Revised Ordinances of 1947 is hereby amended as follows:

of sketches for signs, marquees, etc., \$5; obtaining names and addresses of abutters and notifying of hearings, \$10.

SECT. 2. This ordinance shall take effect beginning with the first day of January, 1948.
Referred to Committee on Ordinances.

LOAN OF \$3,000,000 AND RESCISSION OF \$7,000,000 LOAN FOR LOW-INCOME HOUSING.

The following was received:

City of Boston,
Office of the Mayor, November 10, 1947.
To the Honorable the City Council,
Gentlemen,—After negotiations with the Public Housing Administration of the federal government covering a period of several months, that agency has agreed to advance funds, up to the limit imposed upon it by federal statute, for the construction upon the so-called South End Site, next to Holy Cross Cathedral, of a low-cost housing development, provided that the City of Boston will lend to the Boston Housing Authority the remaining amount necessary to construct that project at present day building costs. It is estimated that the entire cost of the project, including amounts already invested by the federal government in the acquisition of land, demolition of structures, and plans, will be approximately five million five hundred thousand dollars (\$5,500,000).
The Public Housing Administration is authorized under existing law to invest in this project approximately three million three hundred thousand dollars (\$3,300,000), which figure includes a sum of approximately one million dollars (\$1,000,000) already invested by it in acquisition and cleaning of the site and drawing of plans. The estimated participation by the city, therefore, will be approximately two million two hundred thousand dollars (\$2,200,000), that estimate, of course, being subject to revision by the actual bids received from contractors.

The site in question has been ready for building since 1941, and in its present state is unpleasant to the eye and a detriment to the entire South End region. The drastic need for housing in the City of Boston makes it imperative that immediate steps be taken to construct some type of housing development on that site. It appears to me that procedure which I now recommend will provide more quickly for actual construction of housing on the South End Site than any other which might be adopted, and has the further advantage of requiring the least possible outlay of funds by the City of Boston.

I am advised by the Corporation Counsel that the city has authority under General Laws, chapter 121, section 26CC, to borrow for a maximum period of 15 years in order to lend the necessary amount to the Boston Housing Authority for the purposes I have mentioned above. I therefore submit a loan order in the amount of \$3,000,000, for the purposes above described.

I submit to your Honorable Body a second order, rescinding a previous order approved by me on August 21, 1947, purporting to appropriate to the Boston Housing Authority the sum of seven million dollars (\$7,000,000) for similar purposes. I am advised by the Corporation Counsel that the previous order of August 21, 1947, is incomplete, in that it confers no power to borrow, and he therefore recommends that the said order be rescinded.

Very truly yours,

J. B. HYNES,
Temporary Mayor.

Ordered, That under the provisions of General Laws, chapter 121, section 26CC, the sum of three million dollars (\$3,000,000) be, and the same hereby is, appropriated to be loaned to the Boston Housing Authority for the construction of a low-income housing development on the so-called South End or Cathedral Site, in cooperation with the Public Housing Administration of the federal government under the terms of the so-called McCarthy Act (Public Law 85, Eightieth Congress), and that the City Treasurer be, and hereby is, authorized to issue from time to time, upon request of the Mayor, bonds, notes, or certificates of indebtedness of the City of Boston to said amount.

On motion of Councilor Hannon the rules were suspended, and the order was read once and passed, yeas 15, nays 0.

Yeas—Councilors Bayley, Carey, Hannon, Hurley, Keenan, Kelly, Kinsella, Lane, Linehan, McCormack, Moriarty, Muchnick, Russo, Scannell, Sullivan—15.

Nays—0.

The order will take its second reading and passage in not less than 14 days.

Ordered, That the previous order of the City Council purporting to appropriate the sum of seven million dollars (\$7,000,000) to be loaned to the Boston Housing Authority for the construction of low-income housing developments, which order was approved by the Temporary Mayor on August 21, 1947, be, and the same hereby is, rescinded.

HOSPITAL DEPARTMENT.

INVITATION FOR PROPOSALS FOR INSTALLATION OF A NEW ELEVATOR AND HOT WATER PIPING AT SANATORIUM DIVISION, 249 RIVER STREET, MATAPAN DISTRICT, BOSTON, MASS.

The Trustees of the Boston City Hospital, hereinafter referred to as the Awarding Authority, invite sealed proposals for the installation of new elevator and hot water piping at the Sanatorium Division, 249 River street, Mattapan district, Boston, Mass.

Proposals will be received until 12 o'clock noon, Friday, December 5, 1947, Eastern Standard Time, at the office of the Superintendent of the Boston City Hospital, 818 Harrison avenue, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the architect, the John M. Gray Company, 175 High street, Boston, Mass. Each copy of the proposal shall be properly filled out, signed and enclosed in a sealed envelope plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Superintendent of the Boston City Hospital, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, or a satisfactory bid bond executed by the bidder and a surety company in the amount of 5 per cent of the base proposal shall be submitted with each bid, filed with the Superintendent of the Boston City Hospital.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, laborers, etc., in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts, a copy of which schedule is attached to the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under the contract.

Plans and specifications may be obtained at the office of the architect, the John M. Gray Company, 175 High street, Boston, Mass. A deposit of \$50 in cash or a certified check will be required for each set of plans and specifications, and this deposit will be returned to the bidders upon receipt of said plans and specifications in good condition by the architect.

Sub-bidders bidding on the work of sub-contractors shall use the proposal form obtainable from the architect upon request.

All sub-bidders' proposals must be in the possession of the Trustees of the Boston City Hospital and delivered or mailed to the general bidder no later than 12 o'clock noon, Eastern Standard Time, Wednesday, December 3, 1947.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, or a satisfactory bid bond executed by the sub-bidder and a surety company shall be submitted by sub-bidders listed under Item 2 of the general contractor's bid form in not less than 5 per cent of the sub-bidder's bid price, and shall be submitted with each sub-bid.

Sub-bids will be taken on the following portions of the work:

- a. Elevator. b. Plumbing.

A performance bond, issued by a surety company satisfactory to the Awarding Authority in the full amount of the contract, will be required of the successful general contractor.

Information relating to the performance bonds of sub-contractors is set forth in the notice to sub-bidders.

The City of Boston reserves the right to reject any or all bids of the general bidders and to waive any informalities in bidding, if it be in the public interest to do so. The City of Boston also reserves the right to reject all bids of the sub-bidders on any item or items and to waive any informalities in the bidding, if such rejection or waiver be in conformance with Section 44C of chapter 149 of the General Laws.

No bid of a general bidder shall be withdrawn prior to thirty (30) days from the opening of bids by the Awarding Authority, and no bid of a sub-bidder shall be withdrawn prior to thirty (30) days from the opening of bids, without the consent of the Awarding Authority.

MAYOR CURLEY DISCUSSES PROPOSALS FOR TRAFFIC, HOUSING, LIGHTING, AND RECREATION BEFORE LEGISLATIVE COMMITTEE—URGES COMPLETION OF MAINE-NEW HAMPSHIRE HIGHWAY, CONNECTING WITH NEWBURYPORT AND EXTENDING THROUGH BOSTON, TO BRING \$20,000,000 ADDITIONAL REVENUE TO RETAIL ESTABLISHMENTS AND ALSO GIVE TRAFFIC RELIEF SO SORELY NEEDED—WANTS STATE LEGISLATURE, HOWEVER, TO PROVIDE FOR MAJOR EXPENDITURES SO CITIES AND TOWNS MAY NOT BE FURTHER OVERBURDENED—POINTS TO EXCESSIVE BURDENS ALREADY BEING BORNE DUE TO STATE ACTION WITHOUT ADEQUATE PROVISION FOR RELIEF.

The following are the remarks of Mayor James M. Curley before the Legislative Committee on Traffic, Housing, Lighting, and Recreation on December 1:

"The State of Maine is building a highway connecting with a highway that is proposed being built by New Hampshire, which would have a terminus in the vicinity of Newburyport. I recognize that in Maine and New Hampshire there are to be found troubles that are comparable to those in Boston.

"I believe that the wisest procedure that could be had would be to take the necessary steps to complete the Newburyport Turnpike from its terminus and extend it to New Hampshire, and I am firmly of the opinion that, if that is done, with the completion of the major highways with which it will connect through Maine and New Hampshire, it will mean at least \$20,000,000 additional a year to the major retail establishments in the City of Boston.

"Neither in our city nor in any city in the state is it possible to undertake major expenditures of any character, and some method should be devised for the relief of the cities and towns as well as for the state. I don't think the cities should be overburdened.

"I have had a few figures compiled by Charles J. Fox, the City Auditor, and I would like to read them:

"In the Fire Department, the 48-hour week for the employees amounted to \$1,200,000.

"In the Police Department, because of the day off in six, it entailed an additional cost that will reach \$450,000 in 1947.

"We were having considerable hospital difficulties, as is every hospital in the state, and it was necessary in order to meet the nurses' schedule to provide increases there. The federal government, in federal hospitals, paid a salary ranging about \$2,300 a year, and insurance companies raised it to about \$2,500. We were losing nurses, so they were granted an increase in salary. The increased minimum and maximum salaries amounted to \$100,000 for nurses at the City Hospital.

"Then came a general demand, because of increases in the wages of state employees and because of the Fire and Police Department increases, for an increase on all city employees, so we made the E. C. A. permanent at a cost of \$1,300,000. We then granted a \$200 salary increase to every employee in the city, of which there are about 18,000, which amounted to \$2,600,000. The school teachers wanted an increase of from \$400 to \$600. I told them that they should be in the same general category as other city employees, but they went before the Legislature, which gave them an increase which amounted to \$1,600,000.

"No provision was made by the Legislature for the reimbursement of the cities and towns where the increases were granted, so that this year the increased cost of running the city is \$7,250,000. To that may be added \$25,000 additional to take care of the Fire Department, which insisted that they be placed on a par with the Police Department in the matter of salaries. I had an agreement with them before I took my last vacation, and they were agreed on waiting until the first of next year, but in my absence they brought a little pressure to bear, so that means an increase to \$7,300,000 for 1947.

"Mr. Fox's figures for 1948 are as follows:

<i>Fire Department</i> — 48-hour week (additional for full year)	\$400,000
Salary increases (to match Police Department)	700,000
<i>Police Department</i> — Statutory salary increase (additional for full year)	250,000
<i>School Department</i> — Salary increases (additional for full year)	580,000
Equal pay for women (first full year)	1,000,000
<i>Public Welfare Department</i> — Increase in recipients' budget allowances ordered by State Department of Public Welfare	1,300,000
<i>Forty-Hour Week</i>	1,100,000
<i>Price Increases</i> (1947 city, county, and school budgets contained \$16,000,000 appropriations for services, supplies, materials, etc. A 10 per cent increase in costs would appear conservative for 1948.)	
<i>Pensions</i> — Increased requirements	300,000
<i>Special Acts of Legislature</i> (county employees)	100,000

\$7,330,000

MAYOR CURLEY PORTRAYS BOSTON'S FUTURE IN ROSEATE HUE IN MONTHLY BROADCAST OVER STATION WMEX—POINTS TO BUILDING CONSTRUCTION IN PROCESS AND CONTEMPLATED THAT WILL ADD TO FINANCIAL SUPPORT, THE HIGH CREDIT RATING GIVEN BY FINANCIAL INTERESTS, AND PROSPECTS FOR LEGISLATIVE AID TO TAKE CARE OF COSTS PLACED UPON CITY DUE TO SALARY INCREASES IN SCHOOL, FIRE, AND POLICE DEPARTMENTS—ALL THIS, HE POINTS OUT, MEANS BETTERMENT OF LIVING CONDITIONS FOR BOSTON AND THE PROSPECT OF ACTIVITIES THAT WILL KEEP CITY IN FOREFRONT OF PROGRESSIVE MUNICIPALITIES FOR COMING YEAR AND FUTURE.

The following is the text of Mayor James M. Curley's broadcast on December 1 over Station WMEX on the subject "Boston Continues Its Forward March":

The subject of tonight's address, "Boston Continues Its Forward March," is evidenced by the construction activity reaching skyward in every portion of our fair city. It is gratifying to know that the leading financial authorities, despite adverse criticism which appears from time to time, still continue to give Boston an A-1 rating financially, which is the rating that Boston has enjoyed at all times during my terms as Mayor of this fair city.

On Friday last, I called a meeting of the various department heads, including the Corporation Counsel officials, for the purpose of disposing of important matters that were pending and which were vital to the welfare of the city and its people.

The Traffic Commission was requested to submit the required authorization to the City Council for the installation of 5,000 parking meters without cost to the city, such meters being paid for out of receipts.

Upon the matter of the purchase of voting machines, it was deemed advisable, in view of the increased expenditures made necessary by the increase in the cost of substantially all commodities used by the hospital and other institutional departments of the city, to defer any action this year on the purchase of voting machines. It was deemed more essential to provide hospital services and food for the needy than to obligate the city to payment of a huge sum of money for voting machines which are less important than food and service.

GARBAGE CONTRACTS.

In the matter of ash and garbage contracts, it has been common knowledge for a long time that the City of Boston has been the victim of contractors controlling the dumps of the city in the same manner that street construction, prior to 1915, was controlled by the owners and operators of ledges who insisted on putting on macadam and telford, the life of which was not more than two years. The abandonment of this system in 1915 made possible the introduction of longer-lived materials such as asphalt, bituminous concrete, and granolithic block. While the initial cost of the new materials was in excess of that of macadam and telford, over a period of years the cost of the superior material proved a real saving to the city.

I authorized the Commissioner of Public Works to take the necessary steps to locate dumps in the districts that are farthest removed from the present place of dumping, and it is my firm belief that during the year a solution can be arrived at with the installation of incineration plants at locations that are available. In addition, arrangements with the Maritime Commission have been made for the purchase of barges and the equipment of the same, so that Spectacle Island can be utilized for the dumping of garbage and combustible waste. Through the

plans that have been determined upon, it will be possible to remove the city from the clutches of contractors who have been exploiting the city for a long period of years.

In the matter of off-street parking, legislation will be necessary in order to lease premises that have been taken by the city. The present law requires that a lease cannot be made in excess of three years, and it must be apparent to everyone that under these conditions a short-term lease of this character would not be acceptable to any person desiring to invest money. Because of this present legislation, I have instructed the Board of Real Estate Commissioners to confer at once with the Boston Chamber of Commerce, the Boston Real Estate Board, the Greater Boston Development Committee, and the Boston Law Department, with a view to having the required legislative action drafted and presented before expiration of the time for filing new bills to be presented to the incoming Legislature.

ON TRAFFIC, ETC.

Today I journeyed to the State House to present the city's case in the matter of transportation, traffic, new avenues and arteries for the city. I directed the attention of the Legislature to the fact that the increased cost of conducting the activities of the city was due to the liberality of the Legislature and to the increase in the cost of living, making necessary increased wages; plus the adoption, by referendum vote of the people, of the 48-hour week for the firemen; the adoption by the Legislature of "one day off in six" for policemen; the increase in the minimum and maximum wage for nurses and attendants at the City Hospital; the making of a general increase of \$200 in the salary of the employees of the city, which was given to all employees during the war under the name of Emergency Compensation Allot-

ment; and, in addition, another \$200 salary increase granted to the 18,000 city employees, which amounted to \$2,600,000; plus an increase in school teachers' salaries, authorized by the Legislature, in the amount of \$1,600,000.

These various items adopted this year, over which I had but very limited control, plus the raising of the salaries of the Fire Department to conform with those received by the Police Department, represented a total increase in the cost of conducting the affairs of the city of \$7,500,000 for the year 1947.

In the year 1948 the budget estimated by the City Auditor presents a very distressing picture due to the fact that the 48-hour week for firemen will be in operation for a full 12-month period at a total cost of \$400,000, and the salary increases to conform with the salaries being received by the Police Department will represent \$700,000 additional, or a total of \$1,100,000 for the Fire Department.

For the Police Department, the statutory salary increase for a full year will represent \$250,000 additional.

The School Department increases for the full year will represent \$580,000 additional, and equal pay for women teachers for a full year will represent an additional \$1,000,000. This latter item was established by referendum vote of the people and must be provided for.

The Public Welfare Department, due to increases in the allotments for old age recipients, welfare recipients, and child welfare, authorized by the state, will represent an increase in the cost of conducting the department in the amount of \$1,300,000.

HOURS FOR EMPLOYEES.

The 40-hour week for city employees, recently granted, represents an increase of \$1,100,000 for the year 1948.

The city, county, and school budgets, it is estimated, will represent an increase of 10 per cent for the year 1948, due to the increased cost of supplies and materials, or a total of \$1,600,000 additional.

The increased requirements for pensions, due to the retirement of veterans after ten years of service, will represent an additional cost of \$300,000 for 1948.

The Special Acts of the Legislature for county employees will represent an increase of \$100,000 additional, or a total increase in the budget for 1948 of \$7,330,000.

The employees of the city, exclusive of Police, Fire, and School Departments, are demanding a flat \$500 increase, and, in the event that this is granted, it would mean \$9,000,000 additional, or a total of \$16,330,000.

I have asked the Legislature to cease burdening the City of Boston with additional liberal measures calling for the expenditure of vast sums of money, unless provision is made by the state—either for reimbursement or for authority for the state to initiate revenue-producing legislation.

I discussed the matter informally today with His Excellency, the Governor, and found him thoroughly sympathetic. It is a matter that affects the welfare of every individual, whether he owns a business or a home or leases a place of habitation, for the reason that real estate today is bearing 72 per cent of the total cost of government; in fact, it is bearing more than it should bear at the present time. With the impetus that has been given to business and with the forward march the city is taking, it is imperative that relief be provided to offset the increased cost of government, over which the Mayor has but a limited control.

HOUSING FOR VETERANS.

It is a matter in which every person should be interested. Today it was my pleasure to approve housing contracts for veterans' housing in the sum of \$2,250,000, and likewise to approve an authorization for the expenditure of \$3,000,000 for the housing project on Washington street in the vicinity of the Holy Cross Cathedral, which has been an eyesore and a source of injury to the city since 1942.

Incidentally, the Board of Housing Authority has also been authorized to complete plans for the construction of housing for the residents of Roxbury in the vicinity of Camden and Lenox streets and Shawmut avenue.

I likewise desire to direct attention to the fact that, as a further evidence of the confidence in our city, the Canada Dry Ginger Ale Company today agreed to purchase about 100,000 feet of land, at present owned by the city, upon which to erect a \$1,000,000 building.

The John Hancock's \$15,000,000 building's steel work is being completed; the Telephone Building, costing \$15,000,000 additional, is being completed; and the John Hancock Housing Project in West Roxbury and Brookline, costing an additional \$10,000,000, is near completion—so we are moving forward. Let's go along together.

I shall, from time to time, while the Legislature is in session in January, address the public from this radio system, inviting their attendance at hearings of the Legislature while matters which vitally affect their welfare and the future of our city are being considered.

CHARLESTOWN BRIDGE CLOSING.

On November 26 the Public Works Commissioner announced the following:

It will be necessary for the Public Works Department to make some very essential mechanical repairs to the draw of the Charlestown Bridge, over the Charles River, between the City Proper and Charlestown.

As a result, Commissioner Robert P. Curley of the Public Works Department has announced, it will be impossible to open the draw of this bridge for the passage of all types of vessels (water-borne traffic) through the channelway from 12.01 a. m., Monday, December 1, to 12.01 a. m., Wednesday, December 3, 1947.

The use of the bridge by vehicular traffic and by pedestrians will not be

interfered with or interrupted in any way during the period of the repair work on the draw mechanism, Commissioner Curley said.

STATE-BOSTON RETIREMENT BOARD REPORT.

To the Auditor.

At a meeting of the Retirement Board, held on November 15, 1947, the following-named employees of the State-Boston Retirement System were voted to be retired at the close of business, November 30, 1947:

FIRE DEPARTMENT.

Clarence T. Murphy, salary at time of retirement \$2,900 a year.

John J. Donahue, salary at time of retirement \$2,000 a year.

HOSPITAL DEPARTMENT.

Margaret M. Harrington, salary at time of retirement \$1,739 a year.

Emma L. Huntress, salary at time of retirement \$1,739 a year.

Mary MacDonald, salary at time of retirement \$1,700 a year.

LIBRARY DEPARTMENT.

Marion M. Ellis, salary at time of retirement \$2,335 a year.

Edith Bailey, salary at time of retirement \$3,530 a year.

PUBLIC WORKS DEPARTMENT.

Horace A. Bourdon, salary at time of retirement \$2,025 a year.

SCHOOL DEPARTMENT.

Grace V. Lynch, salary at time of retirement \$4,536 a year.

M. Jeannette Grady, salary at time of retirement \$4,488 a year.

SUFFOLK COUNTY.

C. Edouard Sandoz, salary at time of retirement \$4,900 a year.

W. D. KENNEY,
Secretary and Executive Officer.

POLICE DEPARTMENT ORDERS.

General Order No. 965.

The following-named persons are hereby appointed permanent patrolmen in this department and are assigned as follows, effective Wednesday, November 26, 1947, at 10 o'clock a. m.:

Joseph Bingle to Division 9.

Nathan E. Stewart to Division 4.

The Acting Superintendent of Police will promulgate this order.

EDWARD W. FALLON,
Acting Police Commissioner.

General Order No. 966.

For the information of the department the following letter received from the Boston Retirement Board is quoted:

"CITY OF BOSTON,
BOSTON RETIREMENT BOARD,
ROOM 65, CITY HALL, BOSTON.

November 25, 1947.

COL. THOMAS F. SULLIVAN, *Police Commissioner*, Boston, Mass.

DEAR SIR,—In order that your records may be correct, this is to advise that the retirement of Patrolman Fenwick W. Wright of Division 8, Boston Police De-

partment, should be made as of the close of business, October 31, 1947, instead of November 30, 1947, which was the date originally given you.

Very truly yours,

W. D. KENNEY,
Secretary and Executive Officer."

The department records shall be amended accordingly.

The Acting Superintendent of Police will promulgate this order.

EDWARD W. FALLON,
Acting Police Commissioner.

General Order No. 967.

Patrolman Richard M. Mackey, Division 17, honorably discharged veteran of World War I, having arrived at the age of fifty-one years, having been in service of the Boston Police Department for twenty-three years, and having requested retirement under provisions of section 56, chapter 32, General Laws (Ter. Edit.), as amended, it is hereby

Ordered, His Honor the Mayor having approved the same, Patrolman Richard M. Mackey will be retired from active duty in the Police Department, effective Tuesday, December 2, 1947, at 5.45 o'clock p. m.

The Acting Superintendent of Police will promulgate this order.

EDWARD W. FALLON,
Acting Police Commissioner.

General Order No. 968.

Sergt. Leo W. Gannon, Patrolmen Hilary J. McGunigle and Thomas J. Reilly, attached to Division 4, and Patrolman Henry M. Coughlin, of Division 17, all temporarily attached to Superintendent's Office, are hereby commended in General Orders for meritorious duty performed on November 27, 1947, in apprehending a man wanted for the murder of a merchant in his store in the South End.

On November 17, 1947, at 1.30 p. m., Nathan Binder was shot and killed while in his store at 463 Columbus avenue by a holdup man who rifled the cash register of its contents and fled. He left no clue, and, with the exception of the bullet taken from the victim's body, which determined the type of gun used, the police had very little on which to work. A bulletin was issued giving an account of this crime and instructing all officers to be on the lookout for the type of revolver believed to have been used.

The officers mentioned above, while patrolling in the South End district, placed under arrest one Edward Harrison Lee who had on his person an automatic pistol similar to the one described as being used in this murder. The prisoner was brought to Station 4 and after being questioned for several hours finally admitted that he committed the murder and that he had obtained the gun when he broke into a Chinese laundry several weeks prior to this crime.

The Acting Police Commissioner is pleased to recognize and commend these officers for their keen observation, intelligence, and devotion to duty in effecting this important arrest.

In consideration of their excellent work, it is hereby ordered that they be granted one week's additional vacation.

The Acting Superintendent of Police will promulgate this order.

EDWARD W. FALLON,
Acting Police Commissioner.

MAYOR CURLEY, ON FIRST DAY AT DESK, TRANS-ACTS HUGE VOLUME OF CITY BUSINESS — MOVES TO AUTHORIZE INSTALLATION OF 5,000 PARKING METERS WITHOUT COST TO CITY, COSTS TO BE PAID OUT OF RECEIPTS — DECIDES TO DEFER ACTION ON PURCHASE OF VOTING MACHINES BECAUSE OF INCREASES IN EXPENDITURES IN INSTITUTIONAL DEPARTMENTS, DUE TO INCREASED COST OF COMMODITIES AND WAGES — ALSO ACTS IN MATTER OF GARBAGE DISPOSAL CONTRACTS — ORDERS PUBLIC WORKS COMMISSIONER TO LOCATE DUMPS UNTIL INSTALLATION OF INCINERATOR PLANTS CAN BE PROVIDED.

The following statement was released on November 28 by Mayor James M. Curley:

A conference was held today in the office of the Mayor with members of the Law Department and officials of various departments in connection with pending important propositions affecting the finances and welfare of the city and its people.

The Traffic Commission was requested to submit the required authorization to the City Council for the installation of 5,000 parking meters without cost to the city, such meters to be paid for out of receipts.

Upon the matter of the purchase of voting machines it was deemed advisable, in view of the increased expenditures made necessary by the increase in wages and reduction in hours of labor of employees, plus the increase in the cost of substantially all commodities used by the hospital and other institutional departments of the city, to defer any action this year on the purchase of voting machines. It was deemed more essential to provide hospital services and food for the needy than to obligate the city to payment of a huge sum of money for voting machines which are less important than food and service.

ON GARBAGE CONTRACTS.

In the matter of ash and garbage contracts it has been common knowledge for a long time that the City of Boston has been the victim of contractors controlling the dumps of the city in the same manner that street construction prior to 1915 was controlled by the owners and operators of ledges who insisted on putting in macadam and telford, the life of which was not more than two years. The abandonment of this system in 1915 made possible the introduction of longer lived materials such as asphalt, bituminous concrete, and granolithic block. While the initial cost of the new materials was in excess of that of macadam and telford, over a period of years the cost of the superior material proved a real saving to the city.

I have this day authorized the Commissioner of Public Works to take the necessary steps to locate dumps in the districts that are farthest removed from the present place of dumping, and it is my firm belief that during the year a solution can be arrived at with the installation of incineration plants at locations that are available. In addition,

arrangements with the Maritime Commission have been made for the purchase of barges and the equipment of the same, so that Spectacle Island can be utilized for the dumping of garbage and combustible waste. Through the plans that have been determined upon it will be possible to remove the city from the clutches of contractors who have been exploiting the city for a long period of years.

At the present time contracts are pending for the removal of ashes and garbage, and the public are entitled to this service, which, if disregarded and neglected, might result in serious epidemic which would represent a cost to the city and the people far in excess of the amount the city is obliged to pay under the present contract system. The contracts for the removal of ashes and garbage have been advertised upon two occasions, and the Public Works Commissioner has been instructed to award to the lowest qualified bidders.

In the matter of off-street parking, legislation will be necessary in order to lease premises that have been taken by the city. The present law requires that a lease cannot be made in excess of three years, and it must be apparent to everyone that under these conditions a short-term lease of this character would not be acceptable to any person desiring to invest money. Because of the short term of the lease as prescribed by present legislation, I have instructed the Board of Real Estate Commissioners to confer at once with the Boston Chamber of Commerce, the Boston Real Estate Board, the Greater Boston Development Committee, and the Boston Law Department, with a view to having the required legislative action drafted and presented before expiration of the time for filing new bills to be presented to the incoming Legislature.

OFF-STREET PARKING WORK.

My understanding is that there has been some criticism of the Board of Real Estate Commissioners because of the delay in land-takings and clearing of sites, but it must be understood that this is work that cannot be accomplished too speedily without undue cost to the city. It is gratifying to know that on one of the principal sites the property was acquired by the Board of Real Estate

Commissioners at 63 per cent of the assessed valuation, and that certain sections will be cleared very soon, so it could be used for temporary parking during the Christmas rush.

With reference to the low-income housing matter at the South End of Boston in the vicinity of the Holy Cross Cathedral, which, along with the site at South Boston, has been a source of irritation and a blight upon the city, an informal agreement has been reached between the Boston Housing Authority, the Law Department, and the Regional Housing Authority, whereby the federal government will contribute approximately 60 per cent of the cost of this particular housing project.

Under the circumstances I have requested the Boston Housing Authority to accept the recommendation of the federal government and proceed at once with construction of these properties, construction upon which has been delayed for a period of six years, so that housing may be available within a reasonable time for persons who today find it impossible to secure a place of residence.

The Board of Housing Authority has also been authorized to complete plans for the construction of housing for the residents of Roxbury in the vicinity of Camden and Lenox streets and Shawmut avenue.

I have accepted an invitation to attend a meeting of the special commission on traffic, housing, lighting, and recreation in Boston, to be held at Room 207, State House, on Monday, December 1, at 10.30 a. m.

RETIREMENT BOARD REPORT.

To the Auditor.

At meetings of the Boston Retirement Board, held on the following dates, November 14, November 18 and November 25, the retirement from active service of the following-named employees, under the provisions of chapter 521 of the Acts of 1922 (Boston Retirement Act), was approved to become effective at the close of business, November 30, 1947, except as where otherwise noted:

FIRE DEPARTMENT.

Armando Caggiano, ladderman, salary at time of retirement \$2,700 a year.

John J. Lanigan, supervisor of construction, salary at time of retirement \$3,200 a year.

Allan R. McIntyre, ladderman, salary at time of retirement \$2,700 a year.

HOSPITAL DEPARTMENT.

James H. O'Donnell, kitchenman, salary at time of retirement \$2,033 a year.

PARK DEPARTMENT.

Ella L. Blackburn, matron, salary at time of retirement \$1,547 a year.

POLICE DEPARTMENT.

Fenwick W. Wright, patrolman, salary at time of retirement \$3,000 a year. (Retirement effective as of the close of business, October 31, 1947.)

SCHOOL DEPARTMENT.

Margaret M. Duggan, assistant, salary at time of retirement \$3,100 a year. (Retirement effective as of the close of business, October 31, 1947.)

James J. Walsh, custodian, salary at time of retirement \$3,900 a year.

MAYOR CURLEY DISCUSSES PROBLEMS OF CITY BEFORE LEGISLATIVE COMMITTEE.

(Continued from page 1321.)

"These figures do not include a new demand made by city employees for 1948.

"Labor officials are demanding a flat \$500 raise for all employees, which would cost in the neighborhood of \$9,000,000. I suppose this is predicated on the increase given the state employees.

"I do not oppose the increase. I think it is necessary to meet the cost of living, but I do object to these burdens being placed on the city without provision being made as to where the money will come from. The people themselves have been a little bit lax in their consideration of the fact that every time the cost of conducting the city is increased the cost to the taxpayer increases. The city really has only one source of getting revenue, and that is from real estate, from which 72 per cent is derived."

FOR CENTRAL ARTERY.

"I assure you that our chief interest at the present time in Boston, and something which has been talked about for a great many years, is a central artery through the city. My chief interest is to see how we can get that central artery without any expense to the city. We have abandoned about six ferries that formerly operated between Boston and East Boston and Boston and Revere. Two are operating at the present time and show a deficit of \$450,000 every year. That \$450,000 would help out a little on these increases if we could do away with the ferries.

"I feel that it is clearly my duty to say that such a traffic artery or arteries could be obtained without any cost to the city and which might revert to the city after a period of years. My understanding is that the First Boston Corporation has submitted a proposal, and I would like to take the pleasure of directing it to the attention of the committee here.

"It involves two things—there is no cost to the city and there is no cost to the state. It will cost the proponents of the proposition in the vicinity of \$40,000,000 and will revert to the city at the end of the period of amortization, and will permit us to abandon the ferries, saving \$450,000 each year, or \$18,000,000 over the 40 years."

PROPOSAL PRESENTED.

Mayor Curley at this point read the proposal:

"**Financing:** Private capital, raised by authority by issuing revenue bonds payable from revenue. No obligation on Commonwealth or City of Boston. User-pay basis, not out of taxes—reverts to city when paid off—\$40,000,000 in assets.

"**New England Bridge:** Six-lane, high-level bridge over Boston Inner Harbor. East Boston connections to South Station area. Far outside of airport glide and approach zones. Great help to airport development. Would provide several distribution points for traffic crossing harbor—aid in development of its approach area on Boston side—small land damage on East Boston side—and be a direct route to the north and south shores. The building of this bridge, which could connect with the highway that we have running from Lynnfield, provided that the state goes ahead with the highway to Newburyport, would permit the flow of traffic into Boston without interference.

"**The Motor Skyway:** The Motor Skyway would be a six-lane elevated highway about 80 feet wide. It would have its beginning at a point at or near the Public Works Building on Nashua street. It would proceed over the Boston & Maine Railroad yards in the rear of North Station; over the Warren Avenue Bridge, with on and off ramps to Warren avenue; under the first span of the Charlestown Bridge, with on and off ramps to Washington Street North. Then, proceeding over a new right of way adjacent to Causeway street, Commercial street, and Atlantic avenue on the harborside, it would connect with the Harbor Bridge and continue on the westerly side of South Station to a point at or near the Old Colony Parkway in South Boston and a surface connection in the vicinity of Albany street and Broadway.

"It would be wise to continue the widening of Cross street through to Atlantic avenue, a short distance of about one block, and thereby eliminate a bad bottleneck and at the same time provide adequate on and off ramps at this point from the surface streets to the Motor Skyway. This would further provide a suitable crosstown approach from the east to the traffic tunnel and relief for the entire market area.

"The tracks of the Union Freight Railroad would be removed from Atlantic avenue and Commercial street to the new right of way under the Motor Skyway. This would leave these streets free and clear for all their present width and provide better rail facilities for the wharves and warehouses on the water front and in the market district, and provide suitable service roadways for trucks, off the traveled part of the roadway. By following this plan, a direct connection could be made with all the railroads entering Boston. Through service could be provided and thus permit a faster, more efficient handling of all railroad freight. This would give Boston a tremendous advantage over other port cities in the United States."

ADVANTAGE OF DIESELIZING.

In this connection, his Honor the Mayor made the following remarks:

"I might say that I took up with the New Haven Railroad the question of Dieselizing their engines in the Boston area, and all engines are now Diesel between Boston and Providence. The Boston & Albany and the Boston & Maine have done quite a little work on their end and are going to do quite a little more. If these roads are all Dieselized, it is possible to build roadways over these railroads in the same manner as done in New York and would add to the value of the city and to the health of the people."

Relative Economies of Bridges and Tunnels: Robert Moses says: "Never build a tunnel if you can build anything else. A two-lane tunnel would have less than half the capacity of a four-lane bridge. It would cost more, would take twice as long to build, and cost substantially more to maintain."

Mayor Curley made the following remarks with respect to the above paragraph.

"No one who has traveled over the Merritt Parkway or the Triborough Bridge or other bridges in New York can help marveling at these structures, and it cannot be doubted that the man responsible for most of that work, Robert Moses, is the best authority on this in the country. I think it would be a good

idea to have Mr. Moses come here and make a study." (Mayor Curley was informed by a member of the committee that they intended to talk to Mr. Moses.)

"**Future Developments of Grand Master Plan:** The plan as proposed is but the starting of a workable, practical, and efficient master plan for Boston and Greater Boston. The full development of the plan would make available the use of all railroad rights of way entering Boston for overhead construction of motor skyways. All construction would be done in a manner that would not interfere with railroad operation or uses. Thus we would reach all principal parts of the City of Boston from all parts of Greater Boston.

"The railroads have been using these roads for nearly 100 years, and Boston has been developed around them. This tends to prove that they are the proper location to provide access to Boston at moderate cost. It would result in providing a great network of overhead express highways in and to the entire City of Boston from all parts of Greater Boston.

"Dieselization of the railroads is here, and with it we should have the most competent engineers in the country to make studies and recommendations on the feasibility of the following:

1. Cottage Farm (Park Avenue)
2. Mount Bowdoin
3. Roxbury Crossing
4. Brookline to Hammond Pond Parkway
5. North Station to Concord Turnpike
6. To West Medford
7. To Everett and Newburyport Turnpike

"At this time, when neither the Commonwealth nor the city is in a position to spend the money necessary to do the job, we should take advantage of the use of private capital, at a low rate of interest, and the use of revenue bonds, at no obligation to any public agency. Not reflected in tax rate. We have one of the most reputable financial institutions in the country which has indicated a willingness to finance the original plan at \$40,000,000, totally on a user-pay basis. Also under consideration is a plan to construct a much needed truck terminal at Albany and Kneeland streets over the railroad yards, and a central bus terminal over the Back Bay railroad yards at Exeter and Boylston streets. These yards could be developed to the same extent as the old railroad yards at Park Square, where a new Boston skyline is being created, and over \$100,000,000 has been added to Boston's valuation."

IN FOR FORWARD SURGE.

"I want to say, gentlemen, that I think we are on the verge of a great forward surge in Boston. The confidence of businessmen is reflected pretty generally in the character of construction taking place at the present time—The Telephone Building, costing about \$20,000,000, the John Hancock Building. We have religious and educational institutions and, while the city derives no interest from them, they contemplate about \$50,000,000 in building. Ten million dollars is contemplated for the new Children's Hospital. The federal government, with which I have been in contact, and General Bradley, with whom I have reached an agreement, contemplate locating their new \$10,000,000 hospital in Boston, and they would settle on a location in the vicinity of the House of the Angel Guardian at Hyde square, Jamaica Plain.

"The city contemplates about \$5,000,000 for a new surgical building at the City Hospital, making it the largest single hospital unit in the world and, I think, the best, which would represent approximately \$16,000,000 since we started. That makes \$25,000,000. Beth Israel, \$3,000,000 addition, making \$28,000,000. Pratt Diagnostic, \$2,000,000. Boston University addition, \$2,000,000. Archbishop Cushing contemplates about \$12,000,000 for hospital and educational institutions, bringing the total to about \$50,000,000. Boston University has plans for expanding, representing another \$20,000,000, or a total of \$70,000,000, from which we get no revenue. However, these institutions are beneficial and provide employment and the distribution of money.

"Boston does not differ from Springfield, Worcester, or any other cities in the state. I read where Mayor O'Dwyer of New York asked for about \$1,000,000,000 to meet the increased cost of hospitals, institutions, wages, and shorter hours. We always figured our expenditures about one eighth of New York, and that would place our needs at \$125,000,000. If we were to grant increases asked by city employees, it would mean \$9,000,000 in addition to the \$7,000,000. I do not know where we are going to get it. But we must get relief from the state before we embark on any of these ventures. That is just the way I feel about it. I am certain you men will give a lot of time and study to our needs. I wish you would give a little time and study to where the revenue is coming from."

LAND DAMAGES, ETC.

At this point Mayor Curley was asked what steps the state should take with reference to paying for land damages and approaches to the bridge. Mayor Curley replied that proponents of the proposal would take care of land damages out of the \$40,000,000 they propose to spend.

The Mayor was asked if any state appropriation would be needed towards this project, and he stated that he had been informed that none would be needed, and that the entire obligation is assumed by these people. It would cost about \$27,000,000 for property taken and \$13,000,000 for land damages. The tunnel, with the approaches, would cost, today, at least about 50 per cent more.

The Mayor was asked if he had any chance to think about housing in the city and if he had any ideas for the Legislature. He stated that there is no means of knowing what Congress would do, but if the Taft-Ellender-Wagner Bill had gone through it would have meant the wiping out of unusable slum property, and paying \$1,750 a room for the property constructed.

"Under the act that they have been operating on you can't expend in excess of \$1,550, but with the increase in the cost of labor and materials, the lowest bids that have been received are in excess of this figure, and consequently the projects at South Boston and the South End have been held up and have been eyesores since 1941, with no revenue to the city and somewhere in the neighborhood of 900 families obliged to move out. Of course there is a fairly good reason for this. The land was taken, and three architect firms selected to make plans, so that the cost of the project stands in excess of \$2,700,000. The plans call for 6,000 feet of land for the house and 2,000 feet for public utilities. The land was at \$2.29 a foot. We bought land at River street at five cents a foot.

"I started in about a year ago to try and get the federal government to contribute so that we could go ahead. The federal government said that they could not do it, so we decided that the city would put up the difference and go ahead with construction, and during my absence they have made considerable progress and we are about ready to go ahead at the South End, providing for 800 families. In West Roxbury they are going ahead with the construction of those homes; also in Hyde Park and other sections of the city. All things considered, they are going ahead as rapidly as possible."

The Mayor was asked his opinion as to what authority should build the bridge and subsequently manage it — whether it should be the Board of Port Authority or some other authority. He stated that he thought that it should be for the commission to decide, but he thought the State Department of Public Works could handle it.

One of the members of the committee said that this commission is interested in housing, lighting, and recreation, in addition to traffic, and wanted to know if the Mayor had any other comments to make on any or all of the subjects.

ON PARKING METERS.

Mayor Curley answered that in the matter of traffic a meeting was held last week, and it was decided to go ahead with the installation of 5,000 parking meters at no cost to the city, and they would become the property of the city at the end of the period of amortization, either in a year or a year and a half.

"On the matter of lighting I took up with the Edison Company some time ago the installation of high-powered lamps for Boston similar to what they have in Brookline, and I find that they have done some work in this respect. There has been improvement at Columbus avenue, which has been widened by the cutting off of three feet on each sidewalk. We now have a double roadway that is highly illuminated. The only thing that stands in the way of a wholesale program is where the revenue is coming from."

The Mayor was asked how he felt with regard to Back street, between Beacon street and the Charles River; an overpass at Commonwealth avenue at the Cottage Farm Bridge; and a cutover at Belgrade avenue at Roslindale square.

"With regard to Back street, I advocated that for a good many years. Back street with two or three approaches would make a direct highway and provide an increase in revenue with the construction of the concrete garage at the Common. It is an absolute necessity. You would find apartment houses going up with the approach on Back street looking over the Charles River. With regard to the Cottage Farm Bridge, we have taken that up and we are heartily in favor of doing something there, and also at Belgrade avenue."

A member of the commission stated that Irving Lewis, Chairman of the Board of Real Estate Commissioners, and Leo Curley, Boston Traffic Commissioner, had appeared before them previously and that Leo spoke about traffic meters and Mr. Lewis spoke about the off-street parking areas in Boston. Mayor Curley was asked if he cared to comment.

"I had a conference with the Traffic Commissioner, the Real Estate Commissioner, and other department heads last Friday, and we went over the entire matter of off-street parking. They are

razing buildings and now have two sites for off-street parking where garages might be located. There are plenty of private operators willing to construct them and have them revert to the city at the end of the period of amortization. But under the present law the city is only authorized to lease for three years. There isn't anybody who will invest his money under these conditions, but if it was made 20 or 25 years that would make a great difference. If this committee could help in that direction, it would be a great contribution to the speeding up of this program."

COMMENTS ON RECREATION.

The Mayor was asked if he had any comment to make with regard to recreation:

"I am heartily in favor, without expense to the city, of the White Fund expending sufficient money to put up a stadium in the City of Boston that will be as large as there is in the country. We had a meeting of the Schoolhouse Commission, and it was voted to turn over land in East Boston amounting to 70,000 feet to Archbishop Cushing for the establishment of a recreation area. I also favor the re-establishment of a modern zoo."

"Years ago when I was on the Board of Aldermen I had occasion to visit the World's Fair in St. Louis, and on my return to Boston I introduced an order to purchase eight gondolas at a cost of about \$1,000 apiece. At the time we had a watchdog for a city treasurer, and he objected to the purchase, asking why we didn't buy male and female gondolas so that they could be increased as time went on."

The Mayor was asked how he felt about legislation that would provide state credit, and he answered that he was in favor of anything that would relieve the city.

The Mayor was then asked if he favored a state subsidy to make up the difference in rentals, so that the persons who have to pay \$80 or \$90 a month could get apartments for \$40 and have the state make up the difference.

In answer Mayor Curley stated, "If we do that we are treading on Hitler's territory, by promising something that we could not very well do. I think in the end it would prove a great liability."

The commission brought out that there was always that percentage of the population that would live in slums, but Mayor Curley stated that the Taft-Ellender-Wagner Act would solve that problem. The commission then proposed a state bill in case the Taft-Ellender-Wagner Bill didn't pass.

Mayor Curley stated, "I think it is extremely dangerous. If you make it a nation of 'leaners,' God help America and God help the people of America. I don't want to see a nation of leaners."

"If you put through any legislation that involves the expenditure of money, I hope to the Lord you will make a provision for the cities and towns that have to bear the burden."

BUILDING RAZED.

The Temporary Mayor has approved the request of the Building Commissioner to enter the building or other structure, or the abutting land or buildings, at 88 Village street, Ward 5, with such assistance as required, and make safe or remove said unsafe or dangerous building or other structure, and to protect the public by a proper fence or otherwise as may be necessary.

MAYOR APPEALS TO PRESIDENT AND CONGRESS IN BEHALF OF GIs IN PRISONS.

The Mayor, on December 3, sent the following letter to all Representatives and Senators in Congress (435 Representatives—96 Senators):

MY DEAR CONGRESSMAN,—I beg to inclose herewith a letter which I have this day forwarded to President Truman and which is a result of personal observation and investigation during a period of five months, the correction of which is vital to the future of perhaps more than 100,000 American young men.

I sincerely trust you will use your efforts to make possible a pardon of these men at Christmas time, with the good offices of President Harry S. Truman.

Sincerely,

JAMES M. CURLEY,
Mayor of Boston.

The following letter was on December 3, sent to Hon. Harry S. Truman, President of the United States, by Mayor James M. Curley:

HON. HARRY S. TRUMAN, *President of the United States*, White House, Washington, D. C.

DEAR MR. PRESIDENT,—During World War II, and subsequent to its close, more than 100,000 men who entered the various branches of our armed service have been incarcerated either in military or Federal prisons for varied offences. I am concerned with their plight, for they are, today, a frustrated, bewildered, hopeless group in our beloved United States, bitter against their government and everyone and everything in general. But they can be saved and restored to active and useful citizenship. I am thinking also of their families and loved ones, who, too, are suffering.

It is not my aim or desire to intercede in behalf of those who deserted in the face of the enemy, or men who were found guilty of major criminal offences or crimes against chastity. They are receiving just punishment. But, in this great body of men, from all cross sections of life in our country, are many who were sentenced to long terms by military tribunals for what might be considered to be understandable and trivial misdemeanors.

Many of them were mustered into the service while under twenty-one years of age. A large percentage had never before been away from their homes. It was a new experience to them. They were disturbed, alarmed and terribly frightened. They had been suddenly taken away from home restraint and home influence, and yet, their love of home, their parents and their loved ones permeated their souls.

Perhaps, because of this fact, upon learning that a father or mother was dangerously ill, and denied the right to go back home, many went, as the saying goes, "Over the Hill," to be there when the grim spectre of death was hovering over their loved ones. For this they went to military prisons and were later transferred to Federal penitentiaries.

At present, there are more than five million positions subject to Civil Service rules and regulations, and despite the fact that every state in the Union has made provisions for preference to veterans who served either in World War I or World War II, these boys—men now—are forever barred. Upon their release, sometime, as conditions now stand, they will be denied this right to earn a livelihood in the public service. Moreover, because

of the stigma against them, they cannot obtain positions in private employment. When he leaves the Federal penitentiary a prisoner receives a ticket to his home town and \$7.50 in cash. What then, with all doors barred?

I would like to call attention to the fact that every nation engaged in World War II with the exception of the United States, has seen fit to grant general amnesty so that punishment of the kind I have mentioned, for infraction of military rules, would not constitute a permanent closing of the doors of opportunity for livelihood.

I know of nothing that would be more gratifying, more kindly, more Christ-like at this blessed Christmas season, than to grant a general amnesty here to such unfortunate men, whose future seems hopeless and whose life is now cold, barren and heartless.

I am taking the liberty of sending a copy of this letter to the members of the House and Senate of the United States, in the hope that justice may be done.

I am writing to you not only as the Father of the Nation, but as father of a family who is both humane and kindly, and a firm believer in absolute justice for all the people of America.

Respectfully,

JAMES M. CURLEY,
Mayor of Boston.

PUBLIC WORKS DEPARTMENT.

Bridge and Ferry Division.

Approval has been given for the payment of \$31.07 overtime on the Bridge Service pay roll for emergency work, due to break on the bearing box of end lift motor. It was necessary to take out end lifts by hand.

CONTRACTS AWARDED

Upon varying dates as indicated the Temporary Mayor has approved contracts for furnishing supplies, labor, etc., to the various city departments. Communications from the heads of the departments interested were as follows:

SCHOOL COMMITTEE.

The School Committee has approved proposals for furnishing upright pianos for Boston public schools. Bids were opened on Wednesday, October 15, from the following concerns:

Chickering & Sons, Inc., Norris & Co., Inc.

Award was made to the second lowest bidder, as low bidder could submit no sample.

November 13, 1947, Chickering & Sons, Inc., \$1,593.

The School Committee has approved proposals for furnishing sound motion picture projectors for Boston public schools. Bids were opened on Tuesday, October 14, from the following concerns: Ace Photographic Supply Company, E. E. Babb Company, Division of Milton Bradley Company, Capitol Theatre Supply Company, Joe Cifre, Inc., The Eastern Company, Holmes Photo Service, National Theatre Supply, Division of National-Simplex-Bludworth, Inc., Visual Education Service, Wholesome Film Service.

Award was made to Joe Cifre, Inc., as follows:

November 13, 1947, Joe Cifre, Inc., \$10,036.80.

ADDITIONS TO CONTRACTS.

DEPARTMENT OF SCHOOL BUILDINGS.

Ricciardelli Company has been ordered to make the following addition to the contract for the Oliver W. Holmes School:

Furnish and install four new mouth-pieces for fire doors and furnish four new rear arch bars for the sum of \$197, and the amount of \$197 will be added thereto, making the amount as follows: Contract price, \$9,550; total additions, \$197; amount of contract, \$9,747.

FIRE DEPARTMENT.

Approval has been given for the following additions to the contract of General Ship and Engine Works, Inc., for conversion of two former AMc type naval vessels for use as fireboats. The contract was dated December 2, 1946. Additions given below are all in connection with work on the motor vessel "Marabout":

No. 41.—Furnish necessary labor and material to check the heating system radiators for operation, \$25.

No. 42.—Provide labor and material to install a vent connection to the main engine F. O. day tank, port side. \$35.

No. 43.—Check starboard generator F. O. lines for leaks and close up in good order, \$45.

No. 44.—Provide labor and material to supply shore power (D. C.) to the ship's system, \$50.

No. 45.—Provide labor and material to change S. W. suction air compressor to make it possible to run the port generator and air compressor at the same time, \$40.

No. 46.—Provide labor and material to properly vent the ship's sanitary system, \$15.

No. 47.—Provide labor and material to install six new Bacharach indicator cocks on main engine (Gen. Ship supplied), \$153.

No. 48.—Provide labor and material to install sanitary pump and combination foot valve and check, \$22.

No. 49.—Furnish necessary labor and material to install 200-ampere transfer switch on switchboard and for generators and shore line connections, furnish and install three-wire cable between switchboard and shore line receptacle; furnish approximately 40 feet of three-wire shore line cable; reconnect bus on switchboard for three-wire shore line operation, \$755.

No. 50.—Furnish necessary labor and material to remove aft bilge suction, main engine room; place union in horizontal line to provide access to strainer basket, \$24.

No. 51.—Provide additional insulation for four fire pumps and main and auxiliary engine exhaust, \$600.

No. 52.—Furnish labor and material to relocate and repipe two starting air tanks in after compartment, \$234.

No. 53.—Furnish necessary labor and material to reinstall fresh water pressure pump, salt water pressure pump and fire and bilge pump as furnished by the department; repair and reassemble fire and bilge pump; replace two pressure switches, missing and defective valves and piping; remove deck pump; relocate bilge suction; adopt new motor for use with fire and bilge pump, \$680.

No. 54.—Supply labor and material to install new 1-inch copper feed lines from fresh water tanks to fresh water pressure pump, remove or blank off present defective feed lines, \$424.

Total of foregoing additions, \$3,102; original contract, \$168,600; total of additions Nos. 1, 2, 3, 4, dated April 28, 1947, \$3,327; total of addition No. 5, dated May 19, 1947, \$4,400; total of additions Nos. 6 to 40, inclusive, dated October 24, 1947, \$11,273; total contract, \$190,702.00.

Additions 41 to 48 are trial items required for satisfactory operation of main engine and equipment. Addition 49 was requested by the Fire Department to accommodate the ship's electrical system to the use of a three-wire shore line which has been requested by the Boston Edison Company. Additions 50 to 52 are trial items and Item 51 covers insulation of various exhaust lines in addition to insulation which was installed to replace that removed during shipyard work. Addition 53 was necessary in order to obtain satisfactory operation of ship's equipment, some of which was damaged at a time when the ship was flooded and some of which was not in good condition at the time the Fire Department took over the vessel. Under Addition 54 new copper feed lines were necessary as the present lines developed a great many leaks and an attempt to repair them would be more expensive than their replacement.

Although the foregoing is in addition to work contemplated in the original contract it is incidental thereto.

CORRECTION IN CONTRACT.

The Temporary Mayor has approved the request of the Superintendent of Supplies as contained in the following letter:

BOSTON, November 6, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—Under date of September 8, 1947, your Honor approved a request from this department to award a contract to the Highland Sand and Gravel Company for furnishing sand to the various city departments. The amount of the contract stated in this request was \$2,300, but owing to an error in calculation the proper amount should have been \$3,300.

I would respectfully request that approval be granted to award this contract to the Highland Sand and Gravel Company in the proper amount, namely, \$3,300.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

CONTRACTS AMENDED.

INSTITUTIONS DEPARTMENT.

Amendment No. 2.

The M & R Construction Company have been allowed to amend the contract for the designing, furnishing plans, and the furnishing and installation of oil-burning equipment, including storage tanks and pumps, for the Power Plant at Long Island Hospital, Boston Harbor; and

Whereas, Said contract was amended September 23, 1947, extending the time for completion to October 15, 1947; it is

Agreed, By and between the parties hereto that said contract be further amended as follows: By substituting as the date of completion of the work "June 1, 1948," in place of "October 15, 1947."

The Temporary Mayor has approved the requests of the Superintendent of Supplies as contained in the following letters:

BOSTON, November 5, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—Under date of October 26, 1946, a contract was executed with the Lalime & Partridge Company for furnishing commercial vehicles to the Public Works Department. At the time of the opening of the bids, trade-in values were offered on the following old cars turned in for credit:

SE 91, \$554; SE 88, \$434; SE 90, \$475; S 372, \$544; total, \$2,007.

Owing to the inability of Lalime & Partridge to effect delivery of the new cars until approximately a year from the date of the original proposal, the value of these cars has depreciated considerably because of constant use and accidents, and the value at the present time of these trade-in cars is as follows:

SE 91, \$225; SE 88, \$275; SE 90, \$325; S 372, \$310; total, \$1,135.

It is the opinion of the Public Works Commissioner that the recent appraisal is fair and proper, and I would respectfully request that permission be granted to amend this contract in order to effect this adjustment.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, November 5, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—Under date of December 23, 1946, a contract was approved with the Noyes Buick Company for furnishing Buick sedans to the various city departments. Item 5 of this contract called for delivery of one 1946-47 four-door standard sedan Buick, Model 51, to the Sanitary Service at a price of \$1,947.70, net delivered. Delivery of this sedan was made on September 17, 1947, and the price of same has been advanced by \$105.73. I would request that permission be granted to amend the contract by increasing the cost of this automobile from \$1,947.70 to \$2,053.43.

Also, under date of September 23, 1947, a contract was awarded to the Noyes Buick Company for furnishing one 1946-47 four-door sedan Buick, Model 71, to the Boston Traffic Commission at a net amount of \$1,468.23. The price of this sedan has been advanced by \$116, and I request that permission be granted to amend this contract by increasing the net cost of this automobile from \$1,468.23 to \$1,584.23.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, November 6, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—Under date of January 30, 1947, a contract was awarded to the Berger Manufacturing Company for furnishing 300 steel lockers as per specifications to the Fire Department at a price of \$11.50 each. The proposal contained an escalator clause to the effect that the price was subject to adjustment to the established selling price in effect at the time of shipment.

Owing to the inability of the contractor to secure steel of any character, delivery could not be made, and the price today

has advanced approximately 75 cents per locker over the original price quoted, and the contractor refuses to proceed with the order until the contract is amended.

In view of the above, I would respectfully request that permission be granted to amend this contract so that the contractor may ship these lockers at the selling price in effect at the time of shipment with the guarantee that the maximum price would not exceed \$14.60 per locker. This maximum price of \$14.60 per locker is considerably under any price that we can secure from other sources.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

AMENDED DAMAGES.

The Temporary Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That the order of the Street Commissioners and Mayor of June 23, 1947, determining damages caused by the making of the public improvement consisting of the taking of 8,037 square feet of land and building on Tremont street for playground purposes, under the order of the Street Commissioners and Mayor of June 23, 1947, be, and the same hereby is, amended, by striking from said order the amount \$1 awarded to William K. and Mary G. White in said order, and inserting in place thereof the amount \$6,250; that the amount \$6,250 be, and the same hereby is, awarded to William K. and Mary G. White for the damages so sustained.

DAMAGES SUSTAINED.

The Temporary Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That this Board determines that the undermentioned sustain damages in their estates by the taking in fee for Fire Department purposes of land on Hanover and Charter streets, Boston Proper district, under the order of the Board of November 13, 1947, in the amounts hereinafter respectively set against them; and awards said amounts therefor.

City of Boston Real Estate Commission, 3,635 square feet, \$1.

City of Boston Real Estate Commission, 3,412 square feet, \$1.

City of Boston Real Estate Commission, 430 square feet, \$1.

EXTENSION OF CONTRACTS.

DEPARTMENT OF SCHOOL BUILDINGS.

Kenney Brothers, Inc., have been granted an extension of time for completion of the contract for furnishing and delivering miscellaneous furniture at various schools, contract approved June 23, 1947. Completion date to be extended from October 23, 1947, to December 31, 1947. This extension is requested for the reason that—difficulty in securing satisfactory lumber.

PENAL INSTITUTIONS DEPARTMENT.

H. M. Lobdell Electric Company have been granted an extension of time for completion of the contract for electrical work. This extension is requested for the reason that scarcity of materials—particu-

larly steel conduit, panel boards, pipe fittings and switchboard has delayed work beyond control.

PUBLIC WORKS DEPARTMENT.

Powers and Mehegan Company have been granted an extension of time for completion of the contract for furnishing and installing oil-burning equipment, 624 Albany street, Municipal Garage, approved October 22, 1947. Completion date to be extended from November 7, 1947, until December 15, 1947. This extension is requested for the reason that the contractor was delayed in commencing the work due to nondelivery of essential material.

TRANSFERS OF APPROPRIATIONS.

The Temporary Mayor has approved the following requests for transfers of appropriations:

AUDITING DEPARTMENT.

From A-1, Permanent Employees, \$100, to A-3, Unassigned, \$100.

CITY PLANNING BOARD.

From B-4, Transportation of Persons, \$60; B-37, Photographic and Blueprinting, \$140; B-39, General Repairs, \$40; C-9, Office Equipment, \$90; D-8, Laundry, Cleaning, Toilet, \$5; D-16, Miscellaneous Supplies, \$35, to B-1, Printing and Binding, \$370.

COURT HOUSE COMMISSION.

On October 2, 1947, \$3,345 was allocated from the departmental equipment loan for the purchase of electrical equipment for the Registry of Deeds. This amount is inadequate. The lowest estimate of cost received for this equipment is \$4,206.

Inasmuch as this equipment is necessary to supplant inadequate lighting for the Registry of Deeds, the Commission requests an additional \$861 to cover the present cost.

HOSPITAL DEPARTMENT.

Sanatorium Division.

From A-1, Permanent Employees, \$6,000, to A-3, Unassigned, \$6,000.

From A-1, Permanent Employees, \$2,350, to C-7, Office, \$75; C-13, Tools, \$350; C-16, Wearing Apparel, \$25; D-16, Miscellaneous, \$100; E-1, Building, \$300; E-13, Miscellaneous, \$1,500.

From Park Department Equipment Loan, Motor Vehicles, \$2,475, to Park Department Equipment Loan, Marine Equipment, \$2,475.

Under date of October 21 a letter was forwarded covering purchase of 15 life-boats. In this letter to the Superintendent of Supplies, it was stated that it had been 15 years since the department purchased any boats and that during the past few years it had cost approximately \$1,500 a year to keep the boats in repair.

It has been possible to obtain an exceptionally low price of \$2,475 on 15 new boats. It is advisable to make arrangements for the purchase of these boats at this time because it is necessary for the shipyard people to obtain the necessary lumber and have it properly seasoned in time to permit them to work on the boats during the winter months and make delivery of them next June.

It is requested that this transfer of funds be made to cover the purchase of the boats.

FIRE DEPARTMENT ORDERS.

General Order No. 72.

I. RETIREMENT.

The following retirement, which will become effective at 8 a. m., Monday, December 1, 1947, is hereby announced: Supervisor of Construction John J. Lanigan, Fire Alarm Division.

Supervisor Lanigan was appointed to the Fire Department March 29, 1926, and was promoted to the position of supervisor of construction July 2, 1943. He leaves the department with the best wishes of his associates.

II. CHANGE IN SPECIAL SIGNALS FOR ISLANDS IN BOSTON HARBOR.

Effective at 8 a. m., December 1, 1947, the following Phantom Boxes are established for islands in Boston Harbor:

631, Deer Island.
7611, Long Island.
7612, Rainsford Island.
7613, Gallups Island.
7614, Georges Island.
7615, Lovell's Island.
7616, Spectacle Island.
7617, Thompson's Island.

These boxes will be transmitted three (3) rounds on the tappers and two (2) rounds on the gongs.

The above boxes cancel and supersede the present special signals for islands in Boston Harbor consisting of a preliminary signal of thirteen (13) blows, followed by the special signal number denoting the particular island.

Company commanders shall make the necessary changes on cards now in the assignment boxes for the above locations.

III. CHANGE IN DESIGNATION OF FIRE ALARM BOXES.

Due to change in street name from Wright road to Keystone street, West Roxbury, the location of Fire Alarm Box 2675 should be changed to read as follows:

2675, North avenue and Keystone street.

The designation of the following fire alarm boxes should be changed to read as indicated below:

1322, Washington and Merrimac streets, changed to Haymarket square, at Washington street

12-1471, Keith-Albee, Boston Theatre, Washington and Essex streets, changed

to RKO-Boston Theatre, Washington and Essex streets.

12-1593, Boston Technical School, Belvidere street, changed to Boston Technical High School, Belvidere street.

2133, Dudley street, opposite Adams, changed to Dudley and Adams streets.

2436, Rockview street and Parley Vale, changed to Rockview street and Parley avenue.

3845, Milton and Readville streets, changed to West Milton and Readville streets.

6121, 6122, 6124, Boston Airport, changed to Logan Airport.

6135, Marginal street, opposite Clyde, changed to Marginal and Clyde streets.

Company commanders shall make the above changes on the assignment cards.

IV. G. A. C. ASSIGNMENTS.

The following signal numbers shall be added to the running cards of the G. A. C. in this department:

Signal 328, Smith Patterson Company, Inc., 480 Washington street, Boston. (Sprinkler.) Apparatus to respond: Engine 7, Ladder 17, District Chief 5, nearest box 1461.

Signal 329, Jordan Marsh Company, 73 and 75 Chauncy street, Boston. (Sprinkler.) Apparatus to respond: Engine 7, Ladder 17, District Chief 5, nearest box, 1463.

V. COMMENDATIONS.

Provisional Fireman George E. Lee of Ladder Company 2 is hereby commended for extinguishing a fire in a Metropolitan Transit Authority bus on E street, South Boston, November 20, 1947, while off duty.

The following-named officers and members are hereby commended for responding to and working at fire, Box 4112, four alarms, on November 21, 1947, while off duty:

Lieut. Andrew J. McElaney, Engine Company 25.

Lieut. John J. Lowney, Rescue Company 1.

Lieut. Kenneth C. Arnold, Rescue Company 3.

Hoseman John J. Creedon, Engine Company 32.

Hoseman Hubert M. Mellyn, Engine Company 52.

Hoseman Joseph A. Houghton, Rescue Company 3.

Provisional Fireman Joseph P. Murray, Engine Company 32.

Provisional Fireman Thomas E. Donlan, Ladder Company 29.

VI. APPRECIATION.

The Fire Commissioner is pleased to publish the following letters received in his office:

"CITY OF BIDDEFORD, MAINE,
November 15, 1947.

MR. RUSSELL CODMAN, JR., *Fire Commissioner*, Boston, Mass.

DEAR MR. CODMAN,—I should have written you before to express the appreciation of the citizens of Biddeford for the wonderful job that your district chief, Mr. John J. Crehan, did during our forest fires.

I am, of course, not a judge of efficiency in fire fighting, but this I do know, that his work was very successful.

During his stay in our city everything was done insofar as possible under the

circumstances to make it agreeable for him who traveled so many miles to come to our assistance.

Sincerely yours,
LOUIS B. LAUSIER, *Mayor.*"

"OFFICE OF FIRE DEPARTMENT,
Biddeford, Maine,
November 24, 1947.

MR. RUSSELL CODMAN, JR., *Fire Commissioner*, Boston, Mass.

DEAR SIR,—The City of Biddeford and members of the Fire Department wish to thank you for your kind assistance in sending Engine 39 and its crew of men under the leadership of Chief John J. Crehan and Lieutenant Robert Kenneally. These men did wonders under circumstances that they had never accounted in their field of fire fighting. Thanking you again, I remain

Very truly yours,
FRANK CANTARA, *Chief.*"

Chief of Department.

General Order No. 73.

I. OPERATION OF FIRE DEPARTMENT RADIO SYSTEM.

In order to secure more effective use of the Fire Department Radio System, a standard procedure and rules governing the operation of the Fire Department Radio System are hereby announced:

The Boston Fire Department Radio System is licensed as "Municipal Fire," with the call letters WEY assigned to the main transmitter station at Fire Alarm Headquarters.

The operation of the Radio System is governed by the Rules and Regulations of the Federal Communications Commission.

The Radio System shall be used only for the transmission of official business.

A radio log and other records shall be kept in accordance with requirements of the Federal Communications Commission.

A radio test will be made twice daily, at 9 a. m. and 7 p. m., with fireboats and such other units as designated. Operators on boats and for these units must be ready on time for these tests.

If the Fire Alarm Office is unable to establish direct communication with a particular unit, another unit may be called upon to act as a relay point to insure communications between the office and the unit.

A radio operator shall be present in quarters or on the boat at all times ready for duty except when a boat is out of commission.

A radio watch shall be maintained at all times when a boat is away from dock or not connected by wire with the Fire Alarm Office.

The Fire Alarm Office shall be called by radio when a boat leaves or returns to quarters.

During the time watches are being maintained, the Fire Alarm Office should call the boat or boats that are out, periodically, to insure communication.

For keeping required records, a recorder is connected to the radio transmitter at Fire Alarm Headquarters, so that all messages transmitted and received over the radio are automatically recorded.

Orders for multiple alarms and "All Out" will usually be accepted over the radio. The Fire Alarm Office may request confirmation of orders by telegraph from the fire alarm box.

When a fireboat or mobile unit calls the Fire Alarm Office (except for "test") they shall not give any message until the call is answered by the office. This is necessary in order that the message can be recorded.

Upon receiving a call from the Fire Alarm Office, the fireboat or mobile unit shall immediately acknowledge the call.

In general, all messages shall be repeated by the Fire Alarm Office, fireboats, and mobile units.

Designated letters and numbers shall be used in calling or answering radio communications. Personal names should not be used except to identify the person giving an order. The Fire Alarm Office may request the name or telegraph signature of the person giving an order.

For using the transmitter, the operator will push and hold the microphone button for about two to four seconds before talking. This allows time for the transmitter carrier to open the squeal on the receivers. During the transmitting period, the receiver is cut off, so, when the message has been given, release the microphone button in order to receive.

In using the radio, talk into the microphone at normal voice. Do Not Shout. Talk slowly and enunciate clearly. Shouting or talking fast may make it necessary to repeat the message, thereby causing a delay.

When mobile units are on the road, the radio should be kept turned on in order to receive alarms and messages and so that the transmitter can be put into operation immediately by merely pushing the button on the microphone.

While starting the motor, the radio in the mobile unit should be turned off. The starting motor draws a heavy current which may cause the battery voltage to drop. With the low battery voltage, the contacts of the radio receiver vibrator may freeze and the vibrator become inoperative.

If no answer is received after calling the office twice, the mobile unit should give the message and then call the office by telephone or telegraph. The failure to receive an answer to a call by a mobile unit may be due to its location, or trouble with the radio equipment either in the mobile unit or at the office.

When mobile units are on the road and receive an alarm to which such units are assigned to respond, they shall, immediately after the transmission of the alarm, notify the Fire Alarm Office that the alarm was received.

When the radio is on, the motor of a mobile unit shall be kept running and accelerated to prevent excessive battery discharge, especially during periods of using the transmitter.

When an operator shuts down the motor and leaves a mobile unit, the radio switch must be turned off to prevent discharging the battery.

The Fire Alarm Office shall be notified when a mobile unit goes off the air and again when the unit is back on the air. An operator must not leave the mobile unit while on the air until properly relieved.

To prevent misunderstanding in case of interference with other radio stations, mobile units will identify the station called as WEY.

The Fire Alarm Office will sign off at the end of the communication by giving the station call letters and time—after the acknowledgment of the message by the mobile unit. A communication may consist of one or more transmissions by both the office and the mobile unit.

The operator of mobile units will make sure that the radio equipment is operating properly to give satisfactory communication with the Fire Alarm Office. Usually alarms of fire and routine business calls will prove that the equipment is operating satisfactorily without making needless "test" calls. When the radio has not been used for a period of time, the operator should call for a "test." The Fire Alarm Office shall be notified immediately of any defect or failure in operation.

The following procedure will be used for radio communications:

For a Message:

Mobile Unit: "Car X calling WEY."

Fire Alarm Office: "Answering Car X."

For a Test:

Mobile Unit: "Car X calling for test."

Fire Alarm Office: "O.K. Car X, WEY, time."

This method of testing reduces the number of transmissions and saves time. Messages should be brief and concise, but give complete information. The use of the words "Over" and "Roger" is unnecessary and should be avoided.

By order of Fire Commissioner RUSSELL S. CODMAN, JR.

NAPEEN BOUTILIER,
Chief of Department.

PUBLICATION OF UP-TO-DATE STREET BOOKS.

The following was received:

City of Boston,

Office of the Mayor, November 24, 1947.

To the City Council.

Gentlemen,—I transmit herewith replies from the Chairman of the Board of Street Commissioners and the Superintendent of the Printing Department relative to your order of October 20, 1947, concerning the publishing of 1,000 up-to-date street books.

Respectfully yours,

J. B. HYNES,
Temporary Mayor.

City of Boston,

Printing Department, November 30, 1947.

J. Joseph Connors,

Chief Clerk, Mayor's Office.

Dear Sir,—In reply to your communication of October 22, 1947, relative to an order passed in the City Council October 20, 1947, for the printing of 1,000 up-to-date street books, I wish to say that the Printing Department will be pleased to render all assistance possible in the printing of these street books.

Very truly yours,

JOHN J. TWOMEY,
Superintendent.

City of Boston,

Board of Street Commissioners,
October 28, 1947.

J. Joseph Connors,

Chief Clerk, Mayor's Office.

Dear Sir,—Replying to your communication of October 22, 1947, together with Council order dated October 20, 1947, reading,

"Ordered, That his Honor the Mayor direct the Superintendent of Printing and the Board of Street Commissioners to publish 1,000 up-to-date street books," it would appear advisable to have said order redrawn.

The street book known as "Boston's Streets" is an official publication. To prepare this book for the printer is no small job. It requires tedious and painstaking work on the part of our employees. It will take plenty of time, and, because we have lost the services of the men experienced in this particular work, excepting one individual, it may necessitate charges for overtime work.

For guidance in the new draft, reference may be made to the order printed on one of the front pages of the 1944 book, changing the dates to conform with the date of the order.

Very truly yours,

CHARLES E. MANION,
Chairman.

SOUTH BOSTON MUNICIPAL GYMNASIUM.

The following was received:

City of Boston,

Office of the Mayor, November 24, 1947.

To the City Council.

Gentlemen,—I transmit herewith copies of replies from the Commissioner of Public Buildings and the Chairman of the Park Department relative to your order of October 6, 1947, concerning the speeding up of the work of equipping the South Boston Municipal Gymnasium.

Respectfully yours,

J. B. HYNES,
Temporary Mayor.

City of Boston,

Park Department, October 30, 1947.

J. Joseph Connors,

Chief Clerk, Office of the Mayor.

Dear Sir,—I am in receipt of your memorandum of October 8, with inclosure, order of the City

Council requesting the Commissioner of Public Buildings and the Park Commissioner to speed up the work of equipping the South Boston Municipal Gymnasium with athletic equipment and proper shower facilities so that the gymnasium will be in proper condition for use during the fast-approaching fall and winter season.

I have talked the matter over with the Commissioner of Public Buildings, who is in charge of construction of municipal buildings, including the gymnasium, and he has agreed to ask for funds in next year's budget to make certain changes in the gymnasium, particularly in providing additional shower facilities.

I have made up a list of gymnastic equipment necessary to properly operate this building. The estimated cost of such gymnastic equipment is \$3,000. In order to provide this equipment, it probably will be necessary to make a transfer of funds, or find some other means of providing money to buy this equipment.

Very truly yours,

JOHN J. MURPHY, Chairman.

—

City of Boston,
Public Buildings Department,
November 24, 1947.

J. Joseph Connors,

Chief Clerk, Office of the Mayor.

Dear Sir,—Referring to the order presented to the City Council by Councilors Scannell and Linehan, requesting that the work on the South Boston Gymnasium be expedited, I would advise as follows.

A. Piotti, who had the general contract, completed his contract on August 5, 1947. This contract had no provisions for installing shower facilities, lockers, or proper grills on windows to enable gymnasium to be used. Also there was no basketball equipment, baskets, backboards, etc. As soon as A. Piotti's interest in building ceased, contracts were let out for lockers, for installation of basketball equipment, and still another for arranging showers in shower room for the convenience of those using the gymnasium.

The contract for basketball equipment was let out to Johnson Construction Company on September 9, 1947, the contract for remodeling showers was let out to Rossano Construction Company on October 14, 1947, and the contract for grills was let out to P. J. Dinn Company on October 31.

Due to the difficulty in obtaining materials and despite our urging the contractor to rush this work and make every effort to obtain material, it looks now as though the gymnasium will not be available until December 15, 1947, at the earliest.

Respectfully yours,

JAMES E. SULLIVAN,
Superintendent of Public Buildings.

RECONSTRUCTION OF WASHINGTON STREET SIDEWALKS.

The following was received:

City of Boston,

Office of the Mayor, November 17, 1947.

To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of Public Works relative to your order of October 6, 1947, concerning the reconstruction of sidewalks along Washington street, from Forest Hills to Roslindale square.

Respectfully yours,

J. B. HYNES,
Temporary Mayor.

—

City of Boston,
Public Works Department,
November 14, 1947.

Mr. J. Joseph Connors,

Chief Clerk, Mayor's Office.

Dear Sir,—I return herewith order in City Council that the Commissioner of Public Works reconstruct the sidewalks along Washington street, from Forest Hills to Roslindale square, and this will advise you that it is too late in the season to advertise this work.

This department is now considering the reconstruction of Washington street, from Forest Hills to Roslindale square, and at the time the street is resurfaced the sidewalks will be attended to.

Very truly yours,

ROBERT P. CURLEY,
Commissioner of Public Works.

TIME SCHEDULES ON MORTON STREET BUS LINE.

The following was received:

City of Boston,

Office of the Mayor, November 17, 1947.

To the City Council.

Gentlemen,—I transmit herewith communication from the Metropolitan Transit Authority relative to your order of October 27, 1947, concerning time schedules on the Morton Street bus line.

Respectfully yours,

J. B. HYNES,
Temporary Mayor.

Metropolitan Transit Authority,
November 10, 1947.

Mr. J. Joseph Connors,

Chief Clerk, Mayor's Office.

Dear Sir,—In reply to your letter, with copy of order of the City Council relative to proposed 15-minute headway on the Morton Street-Gallivan Boulevard-Ashmont Station bus line, counts taken of passengers at the maximum load point on the line are shown in the following tabulation, together with the average number of passengers per bus on the present 10-minute headway and what the average number of passengers per bus would be on a 15-minute headway:

Inbound	Total Passengers	Average Per Bus, 10-minute Headway	Average Per Bus, 15-minute Headway
9.30 a.m.—10.00 a.m.	70	23	35
10.00 a.m.—10.30 a.m.	51	17	26
10.30 a.m.—11.00 a.m.	52	17	26
11.00 a.m.—11.30 a.m.	63	21	32
11.30 a.m.—12.00 m.	51	17	26
12.00 M.—12.30 p.m.	45	15	23
12.30 p.m.—1.00 p.m.	65	22	33
1.00 p.m.—1.30 p.m.	41	14	21
1.30 p.m.—2.00 p.m.	63	21	32

The tabulation indicates that a 15-minute headway will be adequate to meet the riding requirements on the line at the present time, but the riding will be watched and further adjustment made in the service, if necessary.

NEW STAIRWAY, JOHNSWOOD ROAD-SHERWOOD STREET.

The following was received:

City of Boston,

Office of the Mayor, November 18, 1947.

To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of Public Works, relative to your order of October 27, 1947, concerning the installing of a new stairway from Johnswood road to Sherwood street, Ward 19.

Respectfully yours,

J. B. HYNES,
Temporary Mayor.

City of Boston,

Public Works Department,
November 14, 1947.

Mr. J. Joseph Connors,

Chief Clerk, Mayor's Office.

Dear Sir,—I return herewith order in City Council that the Commissioner of Public Works install a new stairway, from Johnswood road to Sherwood street, Ward 19, and this will advise you that the existing Johnswood Road Footway is entirely adequate for pedestrian traffic between these two streets.

The present footway is in need of some minor repairs which will be attended to in the near future.

GIFT OF CHAPEL, DEER ISLAND, FROM MAXWELL B. GROSSMAN.

The following was received:

City of Boston,

Office of the Mayor, November 24, 1947.

To the City Council.

Gentlemen,—I send you herewith an order for the acceptance of a gift by Maxwell B. Grossman, Penal Institutions Commissioner, of a chapel at the House of Correction, Deer Island, where persons of the Jewish religion may worship.

The construction of this chapel has been made possible through the generosity of Colonel Grossman to meet the need of persons of the Jewish faith who, up to this time, have had no place of worship at Deer Island.

In addition to bearing the full construction cost of the chapel, Colonel Grossman is also prepared to establish a \$5,000 non-denominational trust fund, the income of which will be used to defray incidental expenses incurred by the Catholic, Protestant, or Jewish clergy in their respective chapels at the island.

In presenting this chapel to the city, Colonel Grossman is exhibiting a spirit of generosity which is deserving of the highest praise. I recommend that your Honorable Body accept this gift by the passage of the accompanying order.

Respectfully,

J. B. HYNES,
Temporary Mayor.

City of Boston,

Penal Institutions Department,
November 19, 1947.

Hon. John B. Hynes,

Temporary Mayor of Boston.

Dear Sir,—For a long time I have recognized the need for a chapel where Jewish inmates of the House of Correction, Deer Island, may worship.

I have arranged for the installation of such a chapel, at no expense of any kind to the city, in the Prison Hill Building, which now houses the Catholic and Protestant chapels. The chapel is now completed and is hereby presented to the City of Boston.

Also realizing that the maintenance of the chapel may be an added cost to the city, and knowing that a place of worship is essential to the welfare of all human beings, I intend to establish a five thousand dollar (\$5,000) nondenominational trust fund. The money from this fund will be used to defray incidental expenses incurred by the Catholic, Protestant, or Jewish clergy in their respective chapels. I intend, with your permission, to ask the City Law Department to prepare the proper legal documents for the administration of such a fund.

I respectfully ask that this chapel be named "Beth Isaac Memorial Chapel," in honor of my late parents, Rabbi Isaac Grossman and Mrs. Rebecca Grossman, and that my gift of this place of worship be accepted by the city.

Thanking you for all your cooperation in the matter and hoping to have this acted upon by the Honorable City Council, I am

Respectfully yours,
MAXWELL B. GROSSMAN,
Penal Institutions Commissioner.

Ordered, That the gift generously provided by Maxwell B. Grossman, Penal Institutions Commissioner, of a chapel in connection with the House of Correction at Deer Island, where persons of the Jewish religion may worship, is hereby accepted by the City of Boston, and the said chapel is named "Beth Isaac Memorial Chapel."

Referred to the Executive Committee.

APPROPRIATION FROM PARKMAN FUND.

The following was received:

City of Boston,
Office of the Mayor, November 24, 1947.
To the City Council.

Gentlemen,—I am in receipt of the attached communication from the Board of Park Commissioners, requesting the appropriation of \$20,000 from the income of the George F. Parkman Fund, to be expended under the direction of the Board of Park Commissioners, for the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887.

The 1947 budget estimates of the personal service requirements of the Park Department included an estimate of the total income of \$180,000 from the Parkman Fund. The budget allowances made provision for the appropriation of this income as it accrued for the purpose of defraying the cost of work actually performed on the Common and Parks in Existence on January 12, 1887.

I submit herewith an order appropriating the sum of \$20,000, the accrued income now available from the Parkman Fund, and respectfully recommend its immediate passage by your Honorable Body.

Respectfully,
J. B. HYNES,
Temporary Mayor.

City of Boston,
Park Department, November 14, 1947.
Hon. John B. Hynes,
Mayor of Boston.

Dear Sir,—By vote of the Board of Park Commissioners, you are respectfully asked to request the City Council to transfer from the income of the George F. Parkman Fund the sum of \$20,000, which is now available, to be expended under the direction of the Board of Park Commissioners, as follows:

Common and Parks in Existence on	
January 12, 1887, Maintenance and	
Improvement of.....	\$20,000

When making up the budget estimates for the year 1947, a sum equal to the total yearly income of the George F. Parkman Fund was deducted from Item A-1, Permanent Employees, with the understanding that this deduction was to be replaced by the total yearly income of said Parkman Fund for 1947, to be transferred as it accrued from time to time during the year to the regular maintenance appropriation of the Park Department.

Very respectfully yours,
JOHN J. MURPHY, Chairman.

Ordered, That the sum of twenty thousand dollars (\$20,000) be, and hereby is, appropriated from the income of the George F. Parkman Fund, to be expended under the direction of the Park Commissioners, for the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887, as follows:

Common and Parks in Existence on

MAYOR CURLEY ANNOUNCES PLAN FOR ACQUISITION, AT COST OF \$75,000, OF WHARF PROPERTY ON WHICH CITY WAS OBLIGATED BY EARLY CITIZENS TO PAY THE SUM OF \$3,600,000 OVER THE FUTURE YEARS HAD NOT HIS ACTION BEEN TAKEN—CITY TO OBTAIN SARGEANT'S WHARF AT END OF EASTERN AVENUE, WHICH WAS UNDER LEASE TO CITY FOR 999 YEARS AT A RENTAL OF \$4,000 PER YEAR—PREVIOUS EFFORTS TO BE FREED OF ONEROUS BURDEN FAILED BECAUSE OF COURT RULINGS—BOSTON NOW HAS FUNDS AVAILABLE FOR PROPOSED PURCHASE, AND MOVE FOR OUTRIGHT OWNERSHIP IS UNDER WAY.

On December 10 the Mayor issued the following statement concerning the proposed purchase of Sargeant's Wharf property at a great saving to the city:

It must be clearly evident to every individual that nearly a century ago the pledge "pro bono publico" was not in general use by the descendants of the original settlers, who were absolute in their control. The profit motive was the only thing with which they were concerned. It is unfortunate that there was no agency to check on the machinations which have cost the city such a vast sum of money through the years, and which, if they were allowed to continue, would represent an expenditure by the city of over \$3,600,000 in the years that lie ahead for a property which the city is now acquiring for \$75,000.

I have today given my approval to the request of the Institutions Commissioner for the acquisition of the property known as Sargeant's Wharf. The Motor Vessel "James Michael Curley" and the Steamship "Stephen O'Meara," which operate under the supervision of the Institutions Commissioner and ply between Long Island and the mainland, dock at the end of Eastern avenue at Sargeant's Wharf.

999-Year Lease.

The owners of this wharf in 1853 leased the wharf to the East Boston Ferry Company for a term of 999 years at a rental of \$4,000 a year. When the City of Boston took over the East Boston Ferry Company in 1870, it acquired the lease and the obligations under it, and so the city has been obliged over the years to pay \$4,000 a year rent. In 1940 the city stopped paying this rent, hoping that it could invalidate the lease. The Middlesex Superior Court, however, found against the city, and in May, 1946, the city was obliged to pay not only all back rent but also some interest thereon.

As a result, negotiations were immediately instituted with a view to seeing if the city could avoid paying the remaining \$3,600,000, which would accrue under the lease in the years to come. It is presently believed that ownership to the wharf can be secured at the present time for \$75,000. This would appear to be a most advantageous acquisition, even if the city had to borrow the money. However, there is in the Sale of City's Land Account \$75,000 available for the purpose, which the City Council has appropriated.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

NATHAN HASKELL DOLE.

ASSESSORS EFFECT SETTLEMENT ON BEHALF OF CITY WITH THE BOSTON ELEVATED RAILWAY COMPANY ON CLAIMS OF ILLEGALLY ASSESSED TAXES—MAYOR CURLEY ANNOUNCES COMPROMISE SETTLEMENT AFTER CONFERENCE PARTICIPATED IN BY ASSESSORS AND CORPORATION COUNSEL, FOLLOWING APPEALS BY TRANSPORTATION COMPANY COVERING \$41,813,200 OF REAL ESTATE FOR YEARS 1930 THROUGH 1947—ALSO SETTLE PENDING APPEALS BY ROAD OF ASSESSMENTS ON PERSONAL PROPERTY DURING PREVIOUS ADMINISTRATIONS—AMOUNTS REFUNDED FALL UNJUSTLY AND IMPROPERLY ON PRESENT ADMINISTRATION.

On December 10 Mayor James M. Curley issued the following statement:

The Board of Assessors and the Corporation Counsel for the City of Boston, with the approval of his Honor the Mayor, announced today that a compromise had been effected on the taxes of the Boston Elevated Railway Company. These appeals covered \$41,813,200 of real estate for the years 1930 through 1947 on approximately 20 parcels of property owned by the Elevated. The abatements of real estate voted by the Board of Assessors in compromise of pending appeals totaled a valuation of \$3,869,000—approximately 9 per cent of the total assessments. Many of the parcels were withdrawn from the Appellate Tax Board without any abatement whatsoever; among these was included the large South Boston power station.

The Assessors likewise effected a compromise of pending appeals of assessments upon personal property levied during the previous administrations. The Elevated officials contended that the assessments of personal property originally levied in 1942 were illegally assessed, contending that the same property has been assessed as real estate, and contending also that machinery used in the conduct of the Elevated's business was exempt from local taxation.

The annual assessments thus levied varied between \$5,250,000 in 1942 and \$9,250,000 in 1945. Despite the Elevated officials' contention that these assessments were illegal, the compromise effected by the Board of Assessors called for an annual payment by the Elevated of personal property taxes upon a valuation of \$2,250,000. Taxes on the personal property assessments as paid by the Elevated totaled \$1,851,725 for all years. The amount to be refunded because of illegality of assessment is \$1,282,700, plus interest amounting to \$100,000, making a total refund from the city to the Boston Elevated Railway Company, now known as the Metropolitan Transit Authority, of \$1,382,700 on personal property; in addition, a refund of \$175,322.45, plus interest of \$8,000, making a total on real estate of \$183,322.45, or a grand total of \$1,566,022.45.

The settlement made today is a burden improperly and wrongfully thrown upon

this administration by the unwise, heedless, and improvident policy of previous administrations, since prior to 1942 the Elevated was assessed no tax upon personal property.

MAYOR GIVES CAUSES FOR INCREASE IN NUMBER OF CITY EMPLOYEES DUE TO CHANGES IN LAWS BY LEGISLATURE.

On December 5 the Mayor issued the following statement:

According to the official records of the city, 19,708 persons were employed by the city when I took office at the beginning of 1946. On November 1 of this year, departmental pay rolls reflected a total of 21,663 employees. If during this 22-month period there had been no change in the laws and conditions relating to departmental personnel, this increase of 1,955 positions might well be open to criticism. What are the facts?

An analysis of this net increase in the number of employees reveals that 92 per cent of the increase is centered in five departments. The following table supports this statement and indicates the underlying causes for the increases in the departments listed:

FIRE, 598—Adoption of 48-hour week by referendum vote of the people.

HOSPITAL, 437—Necessary increases in nursing quotas materially depleted during the war, together with additional employees required under the 40-hour work week authorized by the Legislature.

TRANSIT, 285—Start of construction activities on extension of rapid transit facilities in East Boston authorized by the Legislature.

POLICE, 275—One day off in six for members of uniformed force authorized by the Legislature, together with restoration of quotas depleted during the war.

SCHOOLS, 203—Appointments made by School Committee over which the Mayor has no control.

Of the remaining 8 per cent of the over-all net increase, 4½ per cent is found in five departments, and is attributable to factors beyond administrative control. The following table supports this statement:

PUBLIC WELFARE, 41—Increased number of recipients of Aid to Dependent Children, Old Age Assistance, and Dependent Aid.

VETERANS' SERVICES, 27—Increased number of veterans and their dependents being aided, thus necessitating greater supervision and investigation.

PRINTING, 10—Reduction in working hours of employees made necessary under union agreements.

RETIREMENT BOARD, 7—Establishment of a second retirement system for city employees as authorized by the Legislature.

BOARD OF REAL ESTATE COMMISSIONERS, 4—Additional activities resulting from off-street parking legislation enacted by the Legislature.

Eliminating the ten departments previously mentioned leaves a total of 68 positions, or 3½ per cent of the over-all net increase, unexplained. Further analysis of these increases would undoubtedly show that the return of employees who, at the beginning of 1946, were still in the armed services, together with the additions that have been necessitated by the adoption of the 40-hour work week, were major contributing factors. In short, the increase in the number of employees which has taken place since the beginning of 1946 has been due to factors totally beyond the control of the present administration.

MAYOR CURLEY APPEALS TO CONGRESSMEN FOR RELIEF IN HEATING OIL SHORTAGE.

The following letter was on December 8 sent to members of Congress and Senate from Massachusetts:

MY DEAR CONGRESSMAN (SENATOR).—The prevailing opinion in Boston is that there is no necessity for a fuel oil shortage, provided that the Maritime Commission will make available the large number of tankers that are lying idle in ports along the Atlantic Coast and utilize the same for the delivery of oil either to the Boston Navy Yard or elsewhere for the relief of persons whose lives would be endangered, provided there is a shortage.

Trusting that you will take this matter up at once for the benefit of the people of Boston, as well as all Massachusetts, I remain

Sincerely yours,

JAMES M. CURLEY,
Mayor of Boston.

MAYOR ORDERS REPAIR OF SIDEWALKS.

At a conference held at the office of the Mayor on December 8, at which were present Corporation Counsel Joseph Scolponeti and Robert P. Curley, Commissioner of Public Works, it was decided, in view of the increasingly large number of damage suits instituted against the city for injuries claimed to be the result of defective sidewalks or crossroads, that the Public Works Commissioner install granolithic walks wherever needed throughout the city, and the Corporation Counsel defend in court every case brought against the city.

MAYOR PLEADS FOR BETTER CONDITIONS FOR UNFORTUNATE VICTIMS OF WAR.

His Honor the Mayor on December 5 issued the following statement:

The failure to grant amnesty is equivalent to condemning for life in penal institutions many unfortunate victims of the war for the following reasons:

The amount that is furnished them by the federal government when they leave a penitentiary is \$7.50 plus a return ticket home. When this money is exhausted and they are unable to get work as a result of civil service rules and regulations barring them from employment in more than 5,000,000 civil service jobs, and because private employers hesitate to put them to work because of their having served in a penitentiary, it is difficult for them to resist the temptation, caused by the urge of an empty stomach, of reverting to the use of weapons that they were taught to use in the war, in order to feed that stomach or feed their loved ones. As a result, in a very short time after being discharged from the penitentiary they are back again, and this same revolving and revolting process must continue; yet it could be ended by general amnesty.

MAYOR PLANS TO PROSECUTE LANDLORDS FAILING TO GIVE TENANTS PROPER HEAT.

A conference was held on December 8 in the office of the Mayor, City Hall, School street, at which were present Dr. John H. Cauley, Chairman of the Health Board; James Kelleher, representing the Law Department of the city; Wilfred Gaudreau, attorney, Health Department; Joseph A. Cahalan, Deputy Commissioner of Housing; and Martin Hanley of the Law Department.

Due to the large number of communications received by the Health Department relative to the failure of property owners to supply sufficient heat to tenants, it was deemed advisable to take most drastic measures to conserve the health of the people affected.

It was decided to assign an attorney to the Health Department to cooperate with that department and to prosecute landlords who failed to comply with the law. This work will be prosecuted vigorously and at once.

It is advisable for all persons who fail to secure relief from the owner of the premises occupied by them in the matter of furnishing adequate heat to notify the City of Boston Health Department at once in writing.

OVERSEERS OF THE PUBLIC WELFARE.

The Temporary Mayor has approved the request contained in the following letter:

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR SIR,—On June 12, 1947, this department sent to the then Mayor the following communication:

"At the meeting of the Board of Overseers held on June 9, 1947, it was voted to grant to the following employees an increase in salary of \$100, effective on the step-rate dates which are indicated below, in addition to the regular step-rate increases which will become effective on that date:

Elizabeth Mahony, step-rate date, July 1, 1947, appointed assistant supervisor August 21, 1941; Thomas Collins, step-rate date, August 1, 1947, appointed assistant supervisor October 31, 1941; Eve Kneznek, step-rate date, July 1, 1947, appointed assistant supervisor August 21, 1941.

Prior to the appointment of the above persons, the starting salary of assistant supervisor, now called principal social work supervisor, was \$2,400 a year, but the then Budget Commissioner felt that instead of going immediately to that figure, these persons should receive \$100 a year increases. Accordingly, these persons are now receiving \$100 a year less than the persons who were appointed as assistant supervisors prior to them."

No action has been taken on this matter. I respectfully request your approval to these increases. These staff members have not received even the usual \$100 step-rate increase to which they are entitled.

Sincerely yours,

LOUIS P. LEONARD,
Chairman.

SUFFOLK COUNTY.

MUNICIPAL COURT.

The justices have promoted Dr. Anna E. Parker, of 28 Rockwell street, Dorchester, to medical director, at \$4,200 a year, effective December 1, 1947, *vice* C. Edouard Sandoz, whose retirement will become effective November 30, 1947.

VETERANS' RETIREMENT.

The Temporary Mayor has approved the following veterans' applications for retirement:

Stephen Colskie, 8 Wellsmere terrace, Roslindale, cemetery worker in the Cemetery Division of the Park Department.

Richard M. Mackey, 14 Dawes street, Dorchester, patrolman in the Seventeenth Division of the Police Department.

Michael McGonagle, 945 Parker street, Roxbury, chauffeur-laborer in the Highway Division of the Public Works Department.

CONTRACTS AWARDED

Upon varying dates as indicated contracts were approved for furnishing supplies, labor, etc., to the various city departments. Communications from the heads of the departments interested were as follows:

BOSTON HOUSING AUTHORITY.

Upon December 2 the Mayor approved a contract with Allied Engineering Corporation for the construction of a veterans' housing development on River street in the Mattapan district of the City of Boston. Bids were as follows:

Allied Engineering Corporation, \$314,944; Bennett-Stewart Company, Inc., \$347,581; John Bowen Company, \$334,760; J. F. Fitzgerald Construction Company, Inc., \$343,958; Jefferson Construction Company, \$327,697; Martin J. Kelly Company, Inc., \$321,678; Park Construction Company, Inc., \$322,000; J. A. Singarella Company, \$320,000; S. Volpe & Co., \$324,060.

OVERSEERS OF PUBLIC WELFARE.

Upon November 25 the Temporary Mayor approved a contract with R. Tweed & Son for painting and tinting the ceilings in Overseers of the Public Welfare buildings at 170 Hancock street, Dorchester, and 154 Maverick street, East Boston. Bids, opened November 12, were as follows:

R. Tweed & Son, \$487; Nicholas Bello, \$518; John D. Ahern Company, \$699; John J. Stuart, \$716; C. Dale Garbutt, \$730; Boston Painting & Decorating Company, \$750; John M. Kennedy, \$794; National Painting & Decorating Company, \$1,014; Aero Painting Company, \$1,211.

PARK DEPARTMENT.

Cemetery Division.

Upon November 18 the Temporary Mayor approved a contract with R. W. Balam for subsoiling, concrete liners and loaming at Fairview Cemetery, Hyde Park. Bids, opened Tuesday, November 4, were as follows:

R. W. Balam, \$5,010; Walter Reed Corporation, \$5,176; Martin J. Kelly Company, Inc., \$5,462.

PUBLIC WORKS DEPARTMENT.

Upon November 25 the Temporary Mayor approved a contract with the Charles Struzziery Company for sewerage works in Alley No. 931, Roxbury, at an estimated cost of \$18,742.50. The proposal of the lowest bidder, C. Russo Company, is rejected because the price of \$4 a yard for 140 cubic yards of Class A concrete is abnormally low. The work contemplated in the contract is to be completed within 120 days after the contract is approved by the Mayor. The following bids were received November 5:

C. Russo, Inc., \$16,396; Charles Struzziery Company, \$18,742.50; R. A. Bucella & Sons, \$18,926.

Upon December 5 the Mayor approved a contract with contractors as indicated in the following communication:

BOSTON, December 4, 1947.

HON. JAMES M. CURLEY.

Mayor of Boston.

DEAR MR. MAYOR.—On October 3, 1947, the Public Works Department, after public advertisement, received and opened bids for collecting and removing garbage and refuse in fifteen districts in the City of Boston. All bids received were rejected.

On November 14 bids were received and publicly opened, after having been readvertised, for the collecting and removing of garbage and refuse in the same fifteen districts of the city. We feel that nothing would be gained by further advertising or delaying the awarding of bids beyond this date.

Your approval, therefore, is requested to award contracts to the following-named contractors for the various districts under the following conditions:

District 1, South Boston.—Ward General Contracting Company (dump at the Mile road, furnished by the city), \$9.925 per month.

District 2, East Boston.—Edward J. McHugh & Son (furnishing his own dump), \$9.100 per month.

District 3, Charlestown.—Edward J. McHugh & Son (city furnishing a dump at the Fort Hill Station), \$3.900 a month.

District 4, Brighton.—Anthony J. Ryan, Inc. (dump at the Mile road, furnished by the city), \$19.000 a month.

District 5A, West Roxbury.—John J. Moore Company (dump furnished by the bidder), \$9.254 per month.

District 5B, Jamaica Plain.—John J. Moore Company (dump furnished by the bidder), \$8.610 per month.

District 6A, North Dorchester.—Coleman Brothers Corporation (dump furnished by the bidder), \$19.750 per month.

District 6B, Dorchester South.—Coleman Brothers Corporation (dump furnished by the bidder), \$23.281 per month.

District 7A, Elm Hill.—Coleman Brothers Corporation (dump furnished by the bidder), \$4.000 per month.

District 7C, Mission Hill.—Marinucci Brothers & Co. (Mile road dump furnished by the city), \$5.900 per month.

District 7D, Roxbury.—Marinucci Brothers & Co. (Mile road dump furnished by the city), \$10.950 per month.

District 9A, Back Bay.—Dooley Brothers, Inc. (Mile road dump furnished by the city), \$4.922 per month.

District 9B, Stuart.—Capitol Contracting Company, Inc. (Mile road dump furnished by the city), \$5.685 per month.

District 11, Hyde Park.—Mary C. Bryan (dump furnished by the bidder), \$4.116 per month.

The bids for District 7B, known as the Dudlev district, are still under consideration, and a recommendation regarding this district will be submitted at a later date.

In making these awards, I feel that the contractors above mentioned are the lowest qualified bidders, and that it is for the best interests of the City of Boston to award contracts to them.

Respectfully yours,

ROBERT P. CURLEY,
Commissioner of Public Works.

SUPPLY DEPARTMENT.

Upon November 19 the Temporary Mayor approved a contract with the Bartlett Varney Company for furnishing 100,000 pounds of poultry to the various city institutions. The total amount of contract was \$32.470.

Bids, opened November 14, were as follows:

Four-Pound Fowl, Dressed and Undrawn, Per Pound.—Bartlett Varney Company, 32.47 cents; Craig, Hapgood Company, Inc., 35.92 cents, 1 per cent discount for payment in 10 days; Swift & Co., 34.9 cents.

* Contract awarded.

Upon November 25 the Temporary Mayor approved a contract with the J. F. McDermott Company for furnishing to the Sewer Division of the Public Works Department one (1) power sewer-cleaning machine according to specifications, at a price of \$2,767 net. Bids, opened November 6, were as follows:

Charles J. McCarty Company, Stewart, single unit, double drum; net delivered, \$1,960; cash discount, 2 per cent; delivery, 30 days; single unit only, their specifications; double unit requested, no catalogue with Auditor's bid. Stewart, two unit, net delivered, \$2,725; cash discount, 2 per cent; delivery, 30 days; their specifications.

J. F. McDermott Company, flexible sewer rod, two unit, net delivered, \$2,767; cash discount, net; delivery, 4 weeks; our specifications.

Turbine Sewer Machine Sales Company, turbine, ZF-3, single unit, net delivered, \$2,804.25; cash discount, 2 per cent; delivery, 30 days; their specifications, bid submitted in duplicate, no signed statement of delivery.

* Contract awarded.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with firms, contractors and mercantile houses for furnishing labor, supplies, etc. Communications from the heads of the departments interested were as follows:

FIRE DEPARTMENT.

BOSTON, November 18, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR.—Your Honor's permission is requested to award, without public advertising, the work of installing booster pumps on the new hose wagons of Engines 4 and 26 to the Mack Motor Truck Company, 75 North Beacon street, Boston, at a cost of \$2,450, as follows:

Furnish labor and materials to install booster pump, booster tank with a top-mounted hose reel complete with 250 feet of 1-inch booster hose and fog nozzles on hose wagons of Engines 4 and 26, exactly duplicating all booster and tank equipment as furnished on four hose wagons recently delivered to Fire Department and as per letter of proposal dated November 14, 1947, at a cost of \$1,225 each.

The Mack Motor Truck Company built the two hose wagons referred to above and has in its possession the booster equipment ready for installation. In my opinion no advantage would be gained by the city through public advertising for bids, inasmuch as there would be quite a delay in completing the required installations and at present we have the two hose cars in our shop waiting to be placed in service. Also, as the Mack Company manufactured the hose wagons, they are familiar with all the details of their construction and can install the booster equipment at a lower cost than any other contractor.

All other hose cars recently delivered to the Fire Department have been

delivered with booster equipment already installed, but in the case of these two wagons the contract did not call for the booster equipment. With booster pumps and tanks installed the wagons will be able to perform much more efficiently at fires.

Respectfully yours,

RUSSELL S. CODMAN, JR.,
Fire Commissioner.

HOSPITAL DEPARTMENT.

BOSTON, November 14, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR MR. MAYOR,—We have many beds here at the hospital that are in need of repair. Recently we have been having this work done by the Bay State Appliance Company. They charge a flat rate of \$22.50 for each bed. We are of the opinion that it would be difficult and quite illogical to write specifications covering the work. It is true that it would appear that each bed had the same work done on it, because of the specific rate charge of \$22.50 each. However, we believe that perhaps no two beds are identical in their requirements for repairs.

The work performed by this company has been quite satisfactory to date. It would seem, therefore, practical to, if possible, carry on in this manner. Many of our beds have been repaired by our own mechanics. I do not believe, however, that, in view of the many years during which beds were never repaired, we can expect our local mechanics to catch up on the job completely, unless, of course, we discontinue all other types of repairs which may come under their jurisdiction.

In recent weeks, 80 beds have been sent to the Bay State Appliance Company. Since the total expenditure involved will exceed \$1,000, your approval is respectfully requested to dispense with public advertising in the award of this work.

Sincerely yours,

JAMES W. MANARY, M. D.,
Superintendent.

INSTITUTIONS DEPARTMENT.

BOSTON, November 18, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR MR. MAYOR,—It is with regret that I report that the 250-foot smoke chimney at the Long Island power plant, Long Island, Boston Harbor, has cracked to a distance of about 18 feet down the side, and that portions of the chimney in this area have fallen out. Some of this has already fallen through the laundry building. Viewed with field glasses, a large opening appears about 6 feet down from the top, and ruptures in the brick bond appear everywhere above 18 feet. It is indicated that 18 feet of the chimney rests by its own weight solely on a course of brick. A condition of grave emergency is existing. If this part of the chimney topples from a swaying or a jarring, tremendous damage and possible loss of life will occur. The chimney must be immediately repaired.

Daniel Marr & Son Company, Inc., 384 Dorchester avenue, Boston, riggers, have been contacted. They have the scaffolding and the men, and are prepared to proceed immediately with the work of removing 18 feet of the chimney and replacing the collar on its summit. It is difficult to anticipate the cost of this

work, but Mr. Marr indicates it is safe to assume that it will not exceed \$3,500. Strict account will be kept by our engineers of the time and the material used in the work for billing purposes.

As the delay necessary to public advertising would be hazardous, I am requesting your Honor to permit the Institutions Department to award the contract to Daniel Marr & Son Company, Inc., in an amount not exceeding \$3,500, without the usual procedure of public advertising, as being in the best interests of the city so to do.

Respectfully yours,

G. FRANK McDONALD,
Commissioner.

LIBRARY DEPARTMENT.

BOSTON, November 28, 1947.

HON. JAMES M. CURLEY,

Mayor of Boston.

DEAR MR. MAYOR,—Your approval is respectfully requested for entering into a contract with Ames, Child and Graves, 50 Beacon street, Boston, for architectural services in the year 1948. The cost for such services during 1948 will be in excess of \$1,000, because of the large amount of work which will be required of the architects in connection with certain reallocations of departmental space which will be made in the Central Library building for the purpose of improving library service to the public. The architects' professional services consist of necessary conferences; preparation of preliminary studies; working drawings, specifications, large-scale and full-size detail drawings; drafting of forms of proposals and contracts; and the general administration of the business and supervision of the work required by the Trustees.

In view of the fact that Ames, Child and Graves have been the consulting architects for the Library for over seven years and that their work has been satisfactory to the Trustees in every respect, the Trustees of the Public Library have voted:

"that there be entered into a contract with Messrs. Ames, Child and Graves, 50 Beacon street, Boston, for architectural services in the year 1948, in accordance with the standard provisions of the American Institute of Architects, the total fee thus charged not to exceed ten (10) per cent of the total cost of the work and not to exceed four thousand dollars (\$4,000) for the year 1948."

Inasmuch as the expected expenditure for architectural services in the year 1948 will exceed \$1,000, the sum above which there must ordinarily be public advertising for competitive bids, it is necessary to request your permission to enter into this lease without publicly advertising for bids. This is a case in which there would be no useful purpose served by such public advertising. Therefore, your permission is hereby respectfully requested to dispense with such public advertising.

Respectfully,

THE TRUSTEES OF THE PUBLIC LIBRARY
OF THE CITY OF BOSTON,
By FRANCIS B. MASTERSON,
President.

PUBLIC BUILDINGS DEPARTMENT.

BOSTON, November 18, 1947.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR,—Under a lease dated October 31, 1946, the Soldiers'

Relief Department occupies the street floor and the entire first floor of the premises at 18 Oliver street, Boston. Said lease expires on October 31, 1947.

I respectfully request your Honor's approval of the new lease with the Eighteen Oliver Street Company for a period of one year expiring October 31, 1948, in the sum of \$9,750.

As time is of the essence and the location of the property unique, advertising for bids for this contract of lease would serve no useful purpose.

I respectfully request, therefore, that your Honor grant me authority to dispense with advertising and to enter into this contract of lease.

Respectfully yours,

JAMES E. SULLIVAN,
Superintendent of Public Buildings.

SUPPLY DEPARTMENT.

BOSTON, November 17, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—On August 19, 1947, a contract with McKesson & Robbins, Inc., was signed for supplying drugs to the various city departments.

Item No. 77 of this contract called for 20,000 pulvules of Lextron Ferrous at a price of \$9.18 per 500. The proposal contained an escalator clause to the effect that the price was subject to adjustment to the established selling price in effect at time of delivery. The manufacturer now informs us that the price of this item has increased from \$9.18 per 500 to \$10.56 per 500.

Again, on Item No. 176 of this same contract, calling for 50 bottles of chloroform, U.S.P., at a price of \$2.15 per bottle, the manufacturers have also increased the price of this item to \$2.75 per bottle.

Since it is imperative that the City Hospital be supplied with these items, I would respectfully request that permission be granted me to amend this contract to effect the changes in prices as indicated above.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, November 24, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—I would respectfully request that permission be granted me to award an order to the F. N. McIntire Brass Works, 221 High street, Boston, for furnishing to the Fire Department the following:

Four only, Figure 76, 4-inch Morse extra heavy hydrant gate valves in chrome-plated finish for high pressure deluge nozzle shut-offs.

Eight only, Figure 76, 3½-inch Morse hydrant gate valves in chrome-plated finish for shut-offs on portable nozzle playpipes.

Four only, 1½-inch discharge tips complete with running board mounting plates for 2,000-gallon invincible nozzles.

Four only, 1½-inch discharge tips complete with running board mounting plates for 2,000-gallon invincible nozzles.

Four only, 2-inch discharge tips complete with running board mounting plates for 2,000-gallon invincible nozzles.

The Fire Commissioner has notified this department that these accessories are needed in order to put the new fire apparatus into immediate service, and, as the F. N. McIntire Brass Works are the manufacturers, no advantage would

accrue from a public advertisement. Total amount of order will be \$1,274.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, November 24, 1947.

HON. JOHN B. HYNES,
Temporary Mayor of Boston.

DEAR SIR,—On October 16, 1947, bids were publicly opened and read at this office on proposals for furnishing cars and trucks to the various city departments. Item No. 21 of this bid called for one (1) wrecker truck for delivery to the Fire Department, as per specifications, and the following bids were received:

General Motors Corporation, Model ACX894, \$12,049.93, alternate, Model ACX874, \$11,297.68; Mack Motor Truck Company, Model LJX, \$11,293; Reo Motors, Inc., Model G31B, \$11,866.24; White Motor Company, Model WB26A, \$8,583.90.

It will be noticed that the bid of General Motors Corporation contained an original and an alternate bid. Subsequent to the opening, General Motors Corporation notified this department that they would furnish their Model ACX894, which was the heavier machine, at the same price that they quoted on their alternate bid, namely, \$11,297.68.

The Fire Department Engineer examined all models offered by the four bidders and came to the conclusion that the proposition of the General Motors Corporation of supplying their heavier truck at the lower price was advantageous to the city, as this model is specifically best suited for the purposes intended, i.e., as a wrecker for heavy fire apparatus. The specifications of the apparatus offered by the lowest bidder are not considered adequate for this work.

In view of the above, I would respectfully request that permission be granted me to award a contract, without further advertising, to the General Motors Corporation for furnishing one (1) wrecker truck to the Fire Department, Model ACX894, at a price of \$11,297.68 delivered.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, November 25, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—On October 16, 1947, bids were publicly opened for furnishing three (3) new Packard passenger cars for delivery to the Fire Department. There were no bids received on this public opening.

Subsequent to same, this department contacted the Packard Motor Car Company of Boston in order to secure these cars for the Fire Department. We were able to secure a quotation from them as follows:

Three new 1948 Model 2211 Packard Deluxe 8-cylinder 4-door touring sedans at a total price of \$7,509; less federal tax, \$360; less three 1942 DeSoto sedans turned in as part payment; \$1,100; making a net total for the three new cars of \$6,049.

Since the Packard Motor Car Company are direct agents of the manufacturers, no advantage would accrue from a public advertisement for bids. It is therefore respectfully requested that permission be granted me to award a contract, without

public advertisement, to the Packard Motor Car Company in the amount stated above.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, November 28, 1947.

HON. JAMES M. CURLEY,

Mayor of Boston.

DEAR MR. MAYOR,—The market for surgical textiles was advanced approximately 10 per cent on November 11, 1947. This department was informed of the proposed increase prior to the effective date and immediately contacted the largest supplier of this class of merchandise, Johnson & Johnson, New Brunswick, New Jersey, who agreed to furnish practically all our requirements for surgical dressings for a period from January 1 to March 31, 1948, at the old prices. This will result in a saving to the city of approximately \$2,000.

In view of this, I would respectfully request that permission be granted me to award a contract, without public advertisement, to Johnson & Johnson, New Brunswick, New Jersey, for furnishing the following surgical dressings:

100 Cases strips (special operating room), Ray-Tec, 4 inches by 48 inches, 24-ply (1,000 to case), \$37.75 a case.

150 Cases sponges, Zobec, 4 inches by 4 inches, 2,000 to case, \$23 a case.

2,000 Bolts gauze, 20 by 12 mesh, 36 inches wide, 18-inch oval fold (10 bolts to case) 100 yards to bolt, \$4.85 a hundred yards.

360 Rolls combine dressing rolls, 8 inches by 20 yards, \$1.70 a roll.

50 Cases combine dressing rolls, 12 by 16 inches (1 gross to case), \$8.20 a case.

500 Boxes bandage rolls, 28 by 24 mesh, 36 inches wide, cut 2 inches, five rolls to box, \$4.50 a box.

500 Rolls bandage rolls, 44 by 36 mesh, 36 inches by 10 yards, uncut, \$1.49 a roll.

500 Pounds absorbent cotton, Brunswick, 1-pound rolls, 12 inches wide, 44 cents a pound.

60 Cases Bellevue sanitary napkins, 100 dozen to case, \$18.15 a case.

15 Cases lap packs, Ray-Tec, 12 by 12, 4-ply, 100 to case, \$12.15 a case.

300 Boxes gauze masks, B. C. H., with metal bands, four dozen to box, \$7.04 a box.

100 Cases cotton balls (Jumbo), extra heavy, \$7.70 a case.

50 Cases cellulose wipes, 5 inches by 6 inches, 200 sheets to box (144 boxes to case), \$10.05 a case.

Total amount of contract will be \$25,817.75.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

TRANSIT DEPARTMENT.

BOSTON, November 25, 1947.

HON. JOHN B. HYNES,

Temporary Mayor of Boston.

DEAR SIR,—On November 18, 1946, a contract with the Westinghouse Electric Corporation was approved in the estimated sum of \$241,570, covering the furnishing and installing of moving stairways at the Atlantic Avenue Station, East Boston Tunnel, after bids had been publicly invited. As the work progressed it was decided that the more efficient installation of the moving stairways required the furnishing and erection of certain special stainless steel desk exten-

sions, balustrade trim, and all stainless steel sidings, bottom plates, and access doors at the lower ends of the stairway trusses—all this work being in addition to the requirements covered by the aforementioned contract. The Westinghouse Electric Corporation is particularly suited to furnish the above-mentioned additional work at the lowest cost, especially in view of its construction of the work covered by the above-mentioned contract.

In view of the foregoing, your permission is respectfully requested to amend without further advertising the aforesaid contract, providing for the furnishing and installation of the above-mentioned extras at the additional sum of \$7,478, making the revised contract sum \$249,048.

Respectfully yours,

MALCOLM E. NICHOLS,
Chairman.

SUFFOLK COUNTY.

COURT HOUSE COMMISSION.

BOSTON, November 18, 1947.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MAYOR HYNES,—Your approval is hereby requested for the award of a contract without advertising to the Otis Elevator Company for the complete maintenance and servicing of the ten signal control passenger elevators in the Suffolk County Court House, in service continuously during Court House hours, for the year beginning January 1, 1948, and also including the required annual drop test, and the replacement of all parts; and, in addition, to include monthly supervisory inspection of three intermittently operated passenger elevators at the Court House and of two electric book lifts, including also the annual drop test for these, at a monthly charge of \$918, or \$11,016 per year.

All of the ten continuously operated signal control passenger elevators, the three other elevators used intermittently for passengers, and the two electric book lifts were manufactured and installed by the Otis Elevator Company, and the Court House Commission believes that nothing will be obtained by advertising for the foregoing service, particularly with existing and increasing difficulties in procuring mechanical parts for repair and replacement to complicated mechanism unless in stock by the manufacturer of the particular machines.

A similar contract for maintaining and servicing with the Otis Elevator Company has been in satisfactory operation at the Court House for the calendar year 1947.

Respectfully yours,

COURT HOUSE COMMISSION.

ARNO I. DREW,
Chairman.

BOSTON, November 18, 1947.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MAYOR HYNES,—Because of the satisfactory service rendered over a period of years by the Federal National Linen Service Company, Inc., of Boston, in supplying towel service to the Suffolk County Court House, the Court House Commission believes that it would be for the best interest of the City of Boston and the County of Suffolk to continue this service with the Federal National Linen Service Company, Inc., for the fiscal year of 1948, and requests your authority for awarding a contract without advertising to the Federal National Linen Service Company, Inc., for the calendar

year of 1948 on the basis of supplying 1,000 towels weekly at a monthly charge of \$150, or a total of \$1,800 per year.

The deliveries and collections of towels at the Suffolk County Court House have been made without bickering with employees as to replacements. The Federal National Linen Service Company, Inc., owns the towels, bears the losses and replacements, guarantees the suitability of the towels furnished, and undertakes to save the owner from any claims arising through the performance of the service.

Respectfully yours,

COURT HOUSE COMMISSION,
ARNO I. DREW,
Chairman.

BOSTON, November 18, 1947.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MAYOR HYNES,—Your approval is hereby requested for the award of a contract, without advertising, to the Pettingell-Andrews Company, of Boston, for 19 lights 8 feet 6 inches long and 22 lights 4 feet 6 inches long, a total of 41 lights, in the sum of \$4,206. This equipment is necessary to replace inadequate lighting in the Registry of Deeds and is designed for the use of fluorescent lighting if and when the Edison Company changes from D. C. to A. C. current.

The sample light submitted by the above concern was the most efficient and the price quoted was the most favorable.

This is a job which calls for the design and manufacture of a special type of light, and the Pettingell-Andrews Company, a responsible organization, is eminently equipped to handle this particular task.

Funds have been allotted from the Departmental Equipment Loan for this work.

Very truly yours,

COURT HOUSE COMMISSION,
ARNO I. DREW,
Chairman.

BOSTON, November 18, 1947.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MAYOR HYNES,—Because of the satisfactory service rendered over a period of years by the W. C. Holmes Cleaning Company of Boston in supplying window cleaning service to the Suffolk County Court House, the Court House Commission believes that it would be for the best interest of the City of Boston and Suffolk County to continue this service with the W. C. Holmes Cleaning Company, and requests your authority for awarding the contract, without advertising, to the W. C. Holmes Cleaning Company for the calendar year of 1948, on the basis of cleaning about 1,700 windows and transoms four times a year for the sum of \$2,600.

The aforesaid company carries the required Public Liability and Workmen's Compensation with the Employers Liability Assurance Company, Limited, of Boston.

The W. C. Holmes Cleaning Company has the necessary equipment and the know-how to perform this service with the least possible disturbance to daily functions at the Court House.

Respectfully yours,

COURT HOUSE COMMISSION,
ARNO I. DREW, Chairman.

SUFFOLK COUNTY JAIL.

BOSTON, November 25, 1947.

HON. JOHN B. HYNES,

Office of the Mayor.

DEAR MR. MAYOR,—The oversized windows at the County Jail (approximately 45 feet high and 8 feet wide, with each opening consisting of eight sets of double windows) are badly in need of repair. It will be necessary to install new parting beads on 33 windows and new staff beads where necessary, so that the windows will be as tight as possible. New sash will have to be installed where the sash has rotted, and circular windows at the top of the openings will have to be replaced where the wood has rotted. It will also be necessary to calk around all window openings between the wood frame and stone with a waterproof compound. Those windows that do not need new staff beads will require the present staff beads to be tightened to the window sash.

The staging necessary to do this work is to be erected by Suffolk County Jail, and the jail will also do all the necessary painting.

It is imperative that this work be completed as quickly as possible, in order to guard against the loss of heat and the possibility of the windows' being blown out by a storm with the consequent danger to the health of the inmates.

The records of the jail fail to disclose any repairs on these windows since the building has been erected. Consequently, it seems that this contemplated repair is the first work done on these windows since the jail was built almost 100 years ago.

Because of the nature of this work it is impossible to draw specifications in order to place it on bid. Therefore, I propose to accept the offer of Daniel Marr & Son Company to do this work for a sum not in excess of \$5,000. Their estimate for labor and material is \$4,989. The contractor will furnish all necessary labor, materials, and equipment except the staging mentioned above which is the property of the County Jail. The contractor's estimate is based on straight time at current labor rates with insurance covering Workmen's Compensation and Public Liability. Payment, therefore, under this contract is to be made in accordance with the established schedule of departmental allowance in use in the Department of School Buildings in the City of Boston at the time the work is performed. Materials will be billed by the contractor at actual cost plus 10 per cent.

Because of the circumstances surrounding this necessary repair work, I respectfully request your permission to award this contract to Daniel Marr & Son Company as general contractor, without advertising for bids.

Respectfully yours,

FREDERICK R. SULLIVAN,
Sheriff.

Re: 20 Houses, River Street, Mattapan.
Attention: Mr. John F. Millerick.

GENTLEMEN,—We have been reconsidering the depressed curbing, and will allow for the item for the sum of \$200, which is more than we figured on this item.

We feel it would be worth some concession, and also expedite the job if this item was omitted.

Very truly yours,

CONSTRUCTION UNITS, INC.,
by CHARLES A. MOGAVERO.

Construction Units, Inc., have been ordered to make changes as follows in the contract for the general construction of 19 two-family houses at River street, Mattapan.

The total amount of \$485 will be added therefor, making the account as follows: Contract price, \$5,000; total additions, \$485; amount of contract, \$5,485.

EXTENSION OF CONTRACTS.

HOSPITAL DEPARTMENT.

James H. Ritchie & Associates have been granted an extension of time for completion of contract for architectural and engineering services in connection with the new Nurses' Home, Boston City Hospital, from September 1, 1947, to December 1, 1947. This extension is requested because of delay of Electrical Division in making a decision regarding services.

PUBLIC WORKS DEPARTMENT.

Stearns, Perry & Smith have been granted an extension of time for completion of contract for repairing electric pier and navigation lights at various bridges, to December 15, 1947. This extension is requested for the reason that the contractor was delayed in receiving necessary materials and also in obtaining final approval of the work from the United States Coast Guard.

J. A. Singarella Company has been granted an extension of time for completion of contract for repairs to Charlesgate West Bridge, over Ipswich street, to December 11, 1947. This extension is requested for the reason that the con-

tractor was delayed through difficulty in obtaining steel and iron workers to do the work under this contract.

Dooley Brothers, Inc., have been granted an extension of time for completion of contract for the removal and disposal of surplus material at 1567 Columbus avenue, Roxbury, approved by the Mayor June 27, 1947, from July 30, 1947, until September 15, 1947. This extension is requested for the reason that there was a delay in grading for the final completion due to operations at the site by the Boston Elevated.

AMENDED DAMAGES.

The Temporary Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That the order of the Street Commissioners and Mayor of December 12, 1945, as amended, determining damages caused by the making of the public improvement consisting of the laying out of Pinewood road, be, and the same hereby is, amended, by adding to said order the amount \$45 as an award to Peter A. Murphy and Edith M. Murphy, husband and wife as tenants by the entirety; that the amount \$45 be, and the same hereby is, awarded to Peter A. Murphy and Edith M. Company commanders will make this change on assignment card for Box 2382.

By order of Fire Commissioner
RUSSELL S. CODMAN, JR.

NAPEEN BOUTILIER,
Chief of Department.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the laying out and construction of Ashmont park, Dorchester district, as a highway, from Ashmont street northwesterly for a distance of approximately 225 feet, bounded and described as follows:

A highway named Ashmont park is hereby laid out, from Ashmont street northwesterly for a distance of approximately 225 feet, and ordered constructed.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for

street purposes is hereby taken, is bounded and described as follows:

Southeasterly by Ashmont street, twenty-four and 2-100 feet; southwesterly by the southwesterly line of said Ashmont park as hereby laid out, two hundred twenty-one and 85-100 feet; northwesterly by the northwesterly line of said Ashmont park as hereby laid out, twenty-four feet, and northeasterly by the northeasterly line of said Ashmont park as hereby laid out, two hundred twenty-two and 70-100 feet.

Trees or structures standing upon or affixed to the aforesaid land shall be removed therefrom within sixty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on the north-easterly and southwesterly sides of Ashmont park as laid out under this order, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots in the amount hereinafter respectively set against them; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Ashmont Park, Dorchester, October 8, 1947, Thomas F. McGovern, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the laying out and construction of Oleander street, Dorchester district, as a highway, between Alexander street and Magnolia street, bounded and described as follows:

A highway named Oleander street is hereby laid out, between Alexander street and Magnolia street, and ordered constructed.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Northerly by Alexander street, forty and 12-100 feet; easterly by the easterly line of said Oleander street as hereby laid out, one hundred fifty-eight and 26-100 feet; southerly by Magnolia street, forty-one and 36-100 feet, and westerly by the westerly line of said Oleander street as hereby laid out, one hundred forty-four and 66-100 feet.

Trees or structures standing upon or affixed to the aforescribed land shall be removed therefrom within sixty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on both sides of Oleander street, between Alexander street and Magnolia street, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots in the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on the plan hereinbefore mentioned and on file in the office of said department.

The meeting was opened with the salute to the Flag.

NOTICE FROM MAYOR CURLEY.

The following was received:

City of Boston,
Office of the Mayor, November 28, 1947.
To the Honorable City Council and the City Clerk of Boston.

Gentlemen,—You are hereby notified that on Friday, November 28, 1947, at 9.55 a. m., I returned to active duties at City Hall, thereby terminating the period specified in chapter 580 of the Acts of 1947; and beginning with the said date I have resumed the office of Mayor for the remainder of the term for which I was elected.

Respectfully,

JAMES M. CURLEY, Mayor.

Placed on file.

WITHDRAWAL OF JOHN C. CONLEY.

The following was received:

City of Boston,
Office of the Mayor, December 1, 1947.
To the City Council.

Gentlemen,—I am submitting this day the withdrawal of John C. Conley of 1163 Boylston street, Boston, from all further consideration for membership on the Boston Housing Authority.

Respectfully,

JAMES M. CURLEY, Mayor.

1163 Boylston Street,
Boston, Mass.

December 1, 1947.

Hon. James M. Curley,
Mayor of Boston.

Dear Sir,—As of this date I am withdrawing my name from all further consideration for membership on the Boston Housing Authority.

Very respectfully,

JOHN C. CONLEY.

Placed on file.

APPOINTMENT OF JOSEPH J. BENKERT.

The following was received:

City of Boston,
Office of the Mayor, December 1, 1947.
To the City Council.

Gentlemen,—Under the provisions of section 26M of the Housing Authority of the Commonwealth (as asserted in chapter 121 of the General Laws and as amended by section 1 of chapter 484 of the Acts of 1938), I hereby appoint Joseph J. Benkert of 3 Paula road, Dorchester, to be a member of the Boston Housing Authority for the term expiring January 8, 1948, *vice* Eva Whiting White, resigned.

Respectfully,

JAMES M. CURLEY, Mayor.

Ordered, That the appointment by his Honor, the Mayor, of Joseph J. Benkert to be a member of the Boston Housing Authority for the term expiring January 8, 1948, be, and hereby is, confirmed and approved.

Referred to Committee on Constables and Confirmations.

APPOINTMENT OF CONSTABLE.

The following was received:

City of Boston,
Office of the Mayor, December 1, 1947.
To the City Council.

Gentlemen,—Subject to the confirmation of your Honorable Body, I appoint Abraham Bornstein of 625 Warren street, Boston, Mass., to the position of Constable, for the term ending April 30, 1948, authorized to serve civil process upon filing of bond.

Respectfully,

JAMES M. CURLEY, Mayor.

Referred to Committee on Constables and Confirmations.

APPOINTMENT OF JOSEPH F. COUGHLIN.

The following was received:

City of Boston,
Office of the Mayor, November 26, 1947.
Mr. Walter J. Malloy,
Assistant City Clerk.

Dear Sir,—You are hereby notified that I have this day appointed Joseph F. Coughlin to be Chief Deputy Sealer of Weights and Measures for the City of Boston at an annual salary of \$3,200.

Respectfully,

J. B. HYNES,
Temporary Mayor.

Placed on file.

ACQUISITION OF PARKING METERS.

The following was received:

City of Boston,
Office of the Mayor, December 1, 1947.
To the Honorable City Council.

Gentlemen,—I am advised by the Boston Traffic Commission that the installation of parking meters in certain areas of the city will greatly contribute to the alleviation of the present congestion of traffic in the City of Boston. In my opinion, the city should in purchasing and installing such meters, take advantage of the provisions of the Statutes of 1947, chapter 442, which permits the acquisition of such meters without appropriation by or cost to the city. Accordingly, I recommend that your Honorable Body pass the attached order which, pursuant to the legislation I have mentioned, will authorize the purchase by the Traffic Commission of not more than 5,000 parking meters, under agreements which will provide that payment of the purchase price is to be made over a period of five years out of receipts from the said meters, without appropriation by the city.

Very truly yours,

JAMES M. CURLEY, Mayor.

Ordered, That pursuant to General Laws, chapter 40, section 22A, as inserted by Statutes of 1947, chapter 442, the Boston Traffic Commission be, and hereby is authorized to enter, from time to time, into one or more agreements for the acquisition and installation of not more than five thousand (5,000) parking meters in the aggregate, such agreements to provide that payments thereunder to the vendors of said parking meters be made over a period not exceeding five (5) years, without appropriation, from fees received for the use of such parking meters.

Referred to the Executive Committee.

ADDITIONAL APPROPRIATION FOR PUBLIC WELFARE DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, December 1, 1947.
To the City Council.

Gentlemen,—I am in receipt of the attached communication from the chairman of the Board of Overseers of the Public Welfare, in which he states that an additional appropriation of \$250,000 will be required for the balance of the year, in the relief items of the Welfare Department. This sum of \$250,000 is divided as follows:

General Relief.....	\$100,000
Aid to Dependent Children.....	75,000
Old Age Assistance.....	75,000
Total.....	\$250,000

This additional appropriation is necessary because of an increase in the case load and the increase in the State mandatory budget for Old Age Assistance and Aid to Dependent Children cases.

The \$250,000 requested can be secured from surplus revenue, and I am forwarding herewith an order appropriating this sum from surplus revenue, and recommend consideration and adoption by your Honorable Body.

Respectfully,

JAMES M. CURLEY, Mayor.

Ordered, That the sum of \$250,000 be, and the same hereby is, appropriated from surplus revenue, to be expended under the direction of the Board of Overseers of the Public Welfare, for the following purposes:

F. SPECIAL ITEMS.	
9. Dependent Aid.....	\$100,000
10. Aid to Dependent Children.....	75,000
14. Old Age Assistance.....	75,000
	\$250,000

Referred to the Executive Committee.

\$50,000,000 WATER-SUPPLY PROJECT IN CALIFORNIA.

The city of San Jose has entered into contract with the Water Properties Company, Ltd., of San Francisco, to provide the city water from the head waters of the American river in the vicinity of Lake Tahoe. The agreement is for thirty years, during which time the municipality will acquire title to the local distribution system and receive a proportionate share of the production and transmission systems.

AIRCRAFT MATERIAL PRODUCTION 41 PER CENT OF TOTAL AUTOMOTIVE WAR JOB.

Behind current attempts to knock Germany out of the war by means of airpower, stands the teamwork of the automotive industry, which has done much to get bombers in the air over Hitler's domain.

The motor industry, starting as a scrub team in the aircraft field a year before Pearl Harbor has since attained major league stature.

In the two years since December 7, 1941, the industry's output of bombers and fighters has constantly soared. Measured in dollar volume, it rose from \$400,000,000 annual rate of production on the day of the Jap's assault to \$4,300,000,000 on the second anniversary of that "day of infamy."

The same upward spiral took place in deliveries of all forms of war materials by automotive plants. When Pearl Harbor news struck, they had reached an annual production rate of \$1,777,000,000 for all forms of military requirements: aircraft, military vehicles, tanks, guns, ammunition, marine engines and other equipment. Today the annual production rate tops the \$10,000,000,000 mark.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR WIDENING AND DEEPENING SAWMILL BROOK IN PRIVATE LAND BETWEEN NEWTON LINE AND BROOKLINE LINE, WEST ROXBURY.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for widening and deepening Sawmill Brook in private land between Newton line and Brookline line, West Roxbury. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Widening and Deepening Sawmill Brook in Private Land Between Newton Line and Brookline Line, West Roxbury," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of MONDAY, DECEMBER 29, 1947, with a certified check for ONE HUNDRED AND FIFTY (150) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

The amount of work to be done is approximately as follows: Six thousand (6,000) sheets per month; fifty-five hundred (5,500) pillow slips per month; two thousand (2,000) towels per month; one hundred (100) bedspreads per month; blankets, red, gray and blue, one thousand (1,000) annually. Estimates must be submitted on a price per piece basis only. Proposals submitted on any other basis will not be considered. Proposals will be received at the office of the Fire Commissioner, 60 Bristol street, Boston, until 12 m., December 19, 1947, at which time and place they will be publicly opened and read. Proposals must be sealed and marked "Proposal for Laundry Work," and must be made in duplicate, one to be deposited with the City Auditor, City Hall, previous to the time stated for the opening of the bids; the other, containing a certified check for three hundred (300) dollars, made payable to the City of Boston, is to be deposited at the office of the Fire Commissioner, said check to be the property of the city if the accepted proposal is not carried out. A bond of an approved surety company doing business in the Commonwealth of Massachusetts will be required for the faithful performance of the contract by the successful bidder in the sum of 40 per cent of the estimated total amount of the contract. The contract is made subject to appropriations to meet payments thereunder. The Fire Commissioner reserves the right to reject any and all proposals and to award the contract as he deems best.

(Dec. 13.)

REPORT OF FREDERICK J. GILLIS, ASSISTANT SUPERINTENDENT, ON ATTENDANCE AT 35TH NATIONAL SAFETY CONGRESS IN CHICAGO, OCTOBER 6 TO 10, 1947, INCLUSIVE.

The following is the report of Frederick J. Gillis, Assistant Superintendent, on attendance at the 35th National Safety Congress and Exposition held in Chicago, October 6 to 10, 1947:

The 35th National Safety Congress and Exposition was held in Chicago, October 6 to 10, 1947, under the auspices of the National Safety Council.

The theme of the 1947 Safety Congress was "Be Careful—The Life You Save May Be Your Own." The goal of all interested in safety is to make safety everyone's business, to enlist the active support of every individual and every group. For accidents do not "just grow," they are caused. One way to eliminate accidents is through safety education in the schools.

Safety in industry received particular attention, for mechanization, though it has increased production, has created new hazards to workers.

Companies realized that to stop accidents they would have to train their workers in how to do their work the safe way, and then persuade them always to do it that way. To that end, the companies formed safety committees composed of, or including, workers to study the accident record of the plant or department, to study the unsafe equipment or unsafe practices involved, and to make personal inspections to discover such unsafe conditions. Thus workers got a firsthand knowledge of how and why accidents were occurring and became much more sympathetic with the measures adopted to prevent them.

With the rapid growth of labor unions in the United States, the unions in more and more industries have taken an active interest not only in wages and hours but also in working conditions, including safety. In a growing number of cases, unions have demanded safer working conditions and have insisted that such clauses be included in the contracts between the union and the employers.

There was no opposition to the suggestion that courses in correct driving methods be made a part of the regular high school curriculum. This is an attempt to attack the problem of the nation's growing fatality toll at the roots. The course in safe driving would include the mechanics of an automobile, fundamentals and responsibilities of driving, traffic rules, the cost of accidents and, if possible, actual instruction in driving on the highway. This program of instruction is being pressed as a long range answer to the question of how to cut motor vehicle casualties.

National Safety Council statistics show that in 1946 the fatality rate in the 15-24 age group was 33.8 per 100,000 population. It was exceeded only by the rate among persons 65 or older—and a considerable number of the elderly victims were pedestrians.

Youthful drivers have a sorry record, because they have a tendency to speed, to show off and to overload cars. They lack the experience, knowledge and "intelligent fear" of their elders.

The question of safety in the curriculum through legislation caused heated

discussion. Some states have legislation requiring a course in safety in the school curriculum. In general, the school personnel felt that such legislation was not necessary and that coordination among organizations engaged in safety work and trained personnel on the teaching staff would bring about the results desired. Certain organizations seeking to expand their activities or secure an entrance into the schools seemed to favor such legislation. All agreed, since the legislation was indefinite about the time and place of safety in the curriculum and generally silent regarding content, that even the present safety course legislation left much to be desired.

All phases of school safety received attention in the several sessions.

The statistics of students, Grade I-VIII, killed and injured in the year 1946-47 show the need of safety training:

MEMBERS OF CONGRESS PLEDGE MAYOR CURLEY AID IN FIGHT TO FREE MILITARY PRISONERS.

The following letters were on December 11 received from Members of Congress, which are in answer to Mayor Curley's letters to all the Members of Congress on behalf of the military prisoners in Federal and military prisons:

December 9, 1947.

DEAR MR. MAYOR,—I appreciate very much your thoughtfulness in sending me a copy of your recent letter to the President in behalf of military prisoners.

Your comments certainly offer food for thought because I have in my own files many cases of deserving boys who through minor infractions of the military regulations are presently confined in our military prisons with little or no hope of early clemency so that they may rejoin their families.

Please be assured this matter will continue to have my sympathetic consideration.

With usual good wishes, I am

Sincerely yours,

PHILIP J. PHILBIN.

December 9, 1947.

MY DEAR MAYOR CURLEY,—I wish to acknowledge receipt of your letter of December 3, inclosing copy of a letter which you have written to the President on the subject of amnesty for men who served in the military service and were convicted of various offenses.

I am glad to have your letter, and undoubtedly many of these men may well be considered for executive amnesty.

Very sincerely yours,

CHAPMAN REVERCOMB.

December 9, 1947.

DEAR MAYOR CURLEY,—I wish to acknowledge and thank you for your letter, inclosing copy of the one to President Truman, in reference to a pardon for the men who entered the service and are now confined in military or Federal prisons.

I shall be glad to convey your wishes in this connection to the President in the hope of being able to help out along the lines mentioned.

With kindest personal regards,

Sincerely yours,

GEORGE H. FALLON.

The following list is composed of various Senators and Representatives in Congress who have acknowledged the Mayor's letters with reference to the above:

Representatives in Congress: Angier L. Goodwin, Adam Clayton Powell, Jr., Prince H. Preston, Albert L. Reeves, Jr., Homer R. Jones, Wesley A. D'Ewart, John H. Folger, Harold D. Donohoe, Joseph W. AIM TO MAKE CHRISTMAS HOLIDAY SEASON ACCIDENT-FREE.

Mayor James M. Curley on December 12 called upon the people of Boston to cooperate with the National Safety Council and 130 other national organizations to make this year's Christmas holiday accident-free.

"Christmas is the time for happiness, and we must make sure that sadness and grief will not mar our celebration," he said. "It is each person's job to make certain that his holiday season and that of his family is a happy, joyous one—and a safe one."

"It is an easy job for us to do, if we will but make the effort. All it takes is a little extra caution and a little extra courtesy on the street, in your home, and at play. Accidents are not hard to prevent; it is merely difficult to set your mind to it."

"Let's all of us in Boston work together to make this a joyous holiday celebration. Remember that Christmastime is not only the season to be merry—it is the season to be wary, as well."

REPORT OF JAMES T. MULROY, DIRECTOR, EXTENDED USE OF THE PUBLIC SCHOOLS, ON ATTENDANCE AT 29TH NATIONAL RECREATION CONGRESS IN NEW YORK CITY, OCTOBER 13 TO 17, 1947, INCLUSIVE.

The following is the report of James T. Mulroy, Director of Extended Use of the Public Schools, on his attendance at the 29th National Recreation Congress, held in New York City, October 13 to 17, 1947:

To the School Committee of the City of Boston.

The Recreation Congress was a cooperative gathering of all those interested in recreation for young and old. Over 1,200 delegates from all states in the Union and from Hawaii attended, representing universities, colleges, public and private schools, school centers, community centers, park and recreation commissions, C. Y. O., Y. M. C. A., Boy Scouts, Girl Scouts, Red Cross, and neighborhood houses. Recreation leaders, professional and volunteer, came together to exchange information and prepare themselves for greater and better service. For five days, in group meetings, in demonstrations, in conferences, in workshops, and in other ways, leaders were afforded frequent, ample opportunity to give and receive ideas. Discussion of practical problems being faced in local communities by workers, boards, and commissions, and tried methods of solving them were emphasized in the panel meetings. General sessions featured nationally known speakers.

Howard Braucher, President of the National Recreation Association, presided at the general opening session, Monday evening, October 13, in the Grand Ballroom of the Hotel New Yorker. There were two main addresses: "Expanding Recreation Services Today for Richer Living in America Tomorrow," by Walter S. Mack, a nationally known manufacturer, and "Teamwork for a Healthy World," by Rev. Henry S. Leiper. At the other general evening sessions during the week, the speakers and topics were as follows: Professor William F. Russell, Dean, Teachers College, Columbia University—"Recreation and the Atomic Age"; Robert Moses, Chief Executive, City and State Park Systems of New York—"Parks and Recreation in New York"; Oscar I. Chapman, Undersecretary, United States Department of the Interior—"The Federal Government and Recreation Services for All the People."

Forenoons and afternoons, the Congress divided itself into discussion panel groups, carried on simultaneously in the many parlors of the hotel. Delegates chose the topics, and, with the guidance of a chairman, questions were asked and all present given an opportunity to contribute from their experience ideas and information on the subject under discussion. At each meeting discussion leaders were appointed to open up different phases of the subject under consideration; a summarizer recorded the gist of the discussion and findings and reported them to the entire Congress at general meetings held in the ballroom in the late forenoon each day. Some of the topics of these discussion groups, with names of speakers, follow: R. Walter

Cammock, Superintendent of Recreation, Mt. Vernon, New York, "Personnel Standards and Problems"; Charles F. Weekworth, Director of Recreation, Springfield College, Springfield, Massachusetts, "Graduate and Undergraduate Training for Recreation Personnel"; V. K. Brown, Director, Chicago Park District, Chicago, Illinois, "Motion Pictures in Recreation"; Eugene L. Barnwell, Director, Alexandria, Virginia, "Music in Recreation Program"; E. T. McGowan, Director, Detroit, Michigan, "Teen-Age Centers"; Steffi Nossen, Director, Larchmont, New York, "Modern Dance in Recreation"; Mrs. Lillian Schwartz, Supervisor, Dallas, Texas, "Recreation for Older People"; N. L. Engelhardt, Associate Superintendent of Schools, New York, "Planning School Buildings for Community Recreation"; Kathryn Douglas, Supervisor, "Arts and Crafts in Recreation"; Agnes Haaga, Director, Seattle, Washington, "Drama in Recreation"; James C. Lewis, Superintendent, Lincoln, Nebraska, "Clubs in the Community Center Program"; John N. Nichols, Superintendent, Grand Rapids, Michigan, "Gym Games, Basketball, etc."

Worthy of special mention are the following—general singing directed by Harry Wilson, professor of music education, Teachers College, Columbia University; Teachers' College Choir, Columbia University; Brooklyn Dodgers' "Knothole Four," New York City Champions; Airlines Chorus of LaGuardia Field; demonstration of marionette and magic show, New York City Park Department; and a tour (ten buses) of New York City public recreation facilities, school buildings, municipal buildings, swimming pools, playgrounds, baseball and football fields, with motorcycle escort and one of the city's official cars carrying park and school commissioners, superintendents, and directors.

The general tone of the convention was that the nation, states, and municipalities should provide more and more indoor and outdoor opportunities for the growing leisure of children and adults.

Upon the conclusion of the Congress, all delegates departed for their home states, cities, and towns with renewed inspiration, zeal, and enthusiasm, thankful for the opportunity of attending. We left New York City more convinced than ever that Boston, a pioneer in the wider use of the school plant, is still in the forefront of cities of comparable size with its comprehensive program of informal education and recreation and use of school-house accommodations after school hours by educational, social, civic, philanthropic, and benevolent organizations, due to our progressive, social-minded school committee and board of super-

intendents. Also, we departed from New York City resolved to increase our endeavors and improve and expand the community use of school buildings after school hours by Boston citizens, youths, and adults.

Respectfully yours,
JAMES T. MULROY, *Director.*

Commissioner of Public Works.

\$3,000,000 FOR LOW-RENT HOUSING.

His Honor the Mayor is in receipt of the approval of the Emergency Finance Board of the Commonwealth of Massachusetts, authorizing the City of Boston to borrow up to \$3,000,000 as its share of the cost of completing the low-rent housing development on the so-called South End or Cathedral site, in cooperation with the Public Housing Administration of the federal government.

The bid on the construction of this project will determine what part of this \$3,000,000 will have to be expended as the city's share of the construction cost. It is estimated that the City of Boston will eventually contribute approximately 40 per cent of the total cost and the federal government 60 per cent of the total cost of the construction of the project.

NOTABLE PAINTINGS IN PUBLIC LIBRARY TO BE ILLUMINATED.

The Mayor, on December 11, approved the following contract, which reads as follows:

DEAR MR. MAYOR,—Your approval is respectfully requested of the award of a contract, without public advertising, to Rambusch Decorating Company, 2 West 45th street, New York City, for the furnishing and installing of certain lights to provide adequate illumination for the world-famous mural paintings by Edwin A. Abbey on "The Quest of the Holy Grail" which are in the Central Library Building in Copley square.

The inadequacy of the lighting for these paintings has troubled us for a long time and has been a constant source of complaints. Under the direct supervision of our consulting architects we have therefore had several engineering studies made for achieving adequate lighting and have had several outstanding artists view the results of these studies. All concerned

have come to the conclusion that the best all-round lighting results will be produced by the scheme of the Rambusch Decorating Company.

Upon the advice of the Director, the trustees have therefore voted as follows:

Voted, That there be awarded to Rambusch Decorating Company, 2 West 45th street, New York City, a contract for the designing, manufacture, and installation of certain lighting equipment together with the necessary electric wiring work, in the Abbey Room of the Central Library Building, Boston, as specified in the terms of the contract, in an amount not to exceed eight thousand dollars (\$8,000).

This is a highly specialized type of work for which competitive bidding by public advertising cannot bring satisfactory results. Your approval of the award of this contract, without public advertising, is therefore respectfully requested.

Respectfully,

THE TRUSTEES OF THE PUBLIC LIBRARY
OF THE CITY OF BOSTON.
by FRANCIS B. MASTERSON, President.

CONGRESSMEN PLEDGE AID TO MAYOR IN FIGHT FOR FUEL RELIEF.

The following letters have been received by his Honor the Mayor in reply to his letter regarding the fuel oil situation:

MY DEAR MAYOR.—I wish to acknowledge your letter of December 8 with reference to fuel shortages in New England.

The subject has been the cause of much concern to the New England Congressional delegation, of which I called a meeting last week. I appointed four subcommittees of the delegation to explore different phases of the problem, and these committees are actively at work in an endeavor to bring about an adequate supply.

With kindest regards, I am,

Sincerely yours,

JOSEPH W. MARTIN, JR.,

Speaker of the House of Representatives.

DEAR MAYOR CURLEY.—I have your letter of December 8, and you undoubtedly know that Speaker Martin has appointed committees of the New England delegation to inquire into the fuel situation as it affects New England.

I am on the committee to work with the Maritime Commission to investigate the availability of tankers, and you may rest assured that I shall exert my efforts, in cooperation with my colleagues, to see to it that enough tankers are provided to avert the threatened fuel shortage in our section of the country.

With kind personal regards.

Sincerely yours,

HAROLD D. DONOHUE, M. C.

DEAR MAYOR CURLEY.—Thank you for your letter regarding the fuel oil shortage, and I am glad to advise you that the entire New England delegation is very much alive to the urgency of this situation and has divided itself into committees to attack this problem from four or five different angles, including the one which you mention, namely, the making available of tankers now idle in ports along the Atlantic Coast.

Sincerely yours,

ANGIER L. GOODWIN.

MY DEAR MAYOR.—This is to acknowledge your letter of the eighth with reference to your concern in the fuel oil shortage.

I can assure you that this is a matter of vital concern to every member of the Massachusetts and New England delegation, and you may be certain that we are leaving no stone unturned to assure the people and industries of those areas their share of supplies. The Speaker, Joe Martin, has already called a special meeting of the New England delegation in Congress, and committees are already at work on the problem. I am giving the problem my personal attention.

With every good wish, I am

Sincerely yours,

GEORGE J. BATES.

Replies have also been received from: Henry Cabot Lodge, Jr., United States Senator, and Christian A. Herter, of the United States House of Representatives.

VETERANS' HOUSES READY FOR OCCUPANCY.

The Boston Housing Authority announced on December 11 that the first four apartments of the City of Boston Veterans' Housing Program, inaugurated under Mayor James M. Curley, are now ready and will be occupied before Christmas. It is the intention of the Authority to rent these units to those veterans, inhabitants of the City of Boston, who have been found to be the most needy in the city and fulfill the requirements established by the Boston Housing Authority. Reasonable rents will be charged for the accommodations. The law permits the city to disregard unusual factors, due to the present housing shortage, in determining the rents to be charged.

The City of Boston has appropriated twenty million dollars to provide housing for veterans of Boston. The Boston Housing Authority is the statutory agent of the city in implementing the appropriation. The city presently has under contract for construction 579 apartments. These contracts have been awarded over a period of seven months and are in various stages of completion. The subject, four apartments, are of the first contract awarded. Lack of gas stoves and other material has impeded completion of the other units under this contract. Bids have been received for 116 additional units and it is anticipated that early awards will be made.

This program is made available by funds appropriated by the City of Boston and made available to the Boston Housing Authority. The city may issue its bonds for periods up to twenty years to pay for the construction. The sale of the buildings, which is required by law to be made by May of 1952, is expected to return to the city the major portion of the investment.

ANCIENT AND HONORABLE ARTILLERY COMPANY PLEASED WITH WORK ON FANEUIL HALL HOME.

His Honor, Mayor James M. Curley, has received the following letter from Mr. Fred E. Pereira of the Ancient and Honorable Artillery Company of Massachusetts:

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—The officers and members wish to thank you for the splendid job you caused to be done on our armory. People from all over the world have visited us since the work has been completed and all have remarked what a beautiful shrine we have and the excellent condition of the building.

All of us know that without your aid the company would not have had this "home" had it not been for you.

It would be nice if you and your Commissioner of Public Buildings could visit the armory and see for yourselves the positively beautiful job that Mr. Graham has done.

Personally, I have been a member for nearly twenty years and never in all that time has Faneuil Hall looked so good.

Let me in the name of all the officers and members thank you for your kindness and wish you a very Merry Christmas and a Happy New Year.

Very sincerely yours,

FRED H. PEREIRA.

to supervisor, operating room, Sanatorium Division, at \$2,450 a year and full maintenance.

The Mayor has approved the following leaves of absence:

HOSPITAL DEPARTMENT.

Helena Coughlin, 280 South street, Jamaica Plain, clerk-typist, part time, \$17.76 a week.

INSTITUTIONS DEPARTMENT.

Mary A. Brown, Long Island Hospital, graduate nurse, \$2,000 a year and maintenance at Long Island Hospital.

SALARY ADJUSTMENTS.

The Mayor has approved the request contained in the following communication from the Fire Commissioner:

BOSTON, December 2, 1947.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR.—Subject to your Honor's approval I will make the following adjustments in connection with my letter of November 25, 1947, addressed to Temporary Mayor John B. Hynes, and approved by him on November 26, 1947, recommending salary increases for officers and firemen in this department:

One district chief (supervisor of drills), \$4,900 to \$5,340, should read: One district chief (supervisor of drills), \$4,900 to \$5,300.

One fireman (first engineer, fireboat), \$2,600 to \$2,900, should read: One fireman (first engineer, fireboat), \$2,600 to \$3,100.

Seven hundred and fifty firemen, \$2,700 to \$3,000, should read: Seven hundred and forty-eight firemen, \$2,700 to \$3,000; one fireman (aide to supervisor of drills), \$2,900 to \$3,200; one fireman (aide to deputy chief), \$2,900 to \$3,200.

District Chief John J. Crehan, who is supervisor of drills, is now receiving the salary of a deputy chief, namely, \$4,900, and should receive an increase in pay to \$5,390 a year instead of \$5,340 a year, effective December 10, 1947, to maintain his salary at the rate granted to deputy chiefs in the Fire Department.

Fireman (first engineer) James J. Murphy of Fireboat, Engine 44, is now receiving \$2,600 a year and as the new pay rate schedule calls for first engineers to receive \$400 more than regular firemen, his salary should be increased to \$3,100 a year, effective December 10, 1947. First Engineer Murphy has served in the department since April 10, 1946, and as a regular fireman his pay would be increased to \$2,700, effective December 10, but with the additional \$400 granted to first engineers, his salary should be increased to \$3,100 on December 10, 1947.

Effective December 5, 1947, Fireman Alexander W. Wilson will be assigned as ladderman-aide to supervisor of drills with an increase in salary from \$2,700 to \$2,900 a year. On December 10, 1947, his salary will be increased from \$2,900 to \$3,200, which is the same salary to be granted to aides to deputy chiefs, medical examiner, etc., in the Fire Department on that date.

On December 1, 1947, your Honor approved the promotion of Fireman John F. Crendon to hoseman-aide to

deputy chief, to be effective November 19, 1947, with an increase in salary from \$2,700 to \$2,900 a year. On December 10, 1947, his salary will be increased from \$2,900 to \$3,200, which will be the salary of all aides to deputy chiefs on that date.

Respectfully yours,

RUSSELL S. CODMAN, JR.,
Fire Commissioner.

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

HOSPITAL DEPARTMENT.

Upon December 3 the Mayor approved a contract with the Rossano Construction Co., Inc., for installation of sterilizing equipment, Boston City Hospital. Bids, opened Friday, November 21, were as follows:

James S. Kelliher, \$48,471; J. A. Singarella Company, \$47,287; Peabody Construction Company, \$46,360; M. Solimando, \$42,121; Rossano Construction Company, Inc., \$42,009.

INSTITUTIONS DEPARTMENT.

Upon December 3 the Mayor approved a contract with the M. & R. Construction Company for the repair of from one to six combustion chambers and boiler settings and the replacing of lining for from one to six boilers in the power plant at the Long Island Hospital, Boston Harbor. The following bids were received:

M. & R. Construction Company, \$4,900 each; D. Antonellis, \$7,073.17 each; J. F. Stack, \$7,425 each; N. E. Boiler Setting Company \$3,433.33 each.

The bid of the N. E. Boiler Setting Company cannot be considered due to the fact that it disregarded the specifications prepared by the department's engineer and submitted their own specifications as a substitute with its bid. All other bidders having submitted their bids according to our specifications, it is deemed that the bid of the N. E. Boiler Setting Company is not responsive.

The M. & R. Construction Company now becomes the lowest qualified bidder. It has the equipment and the men, are financially sound, and are prepared to proceed with the work without inconvenience to our power plant.

Upon December 3 the Mayor approved a contract with J. A. Singarella Com-

pany for the construction of new sewer line from Nurses' Home, Long Island Hospital, to tidewater. The following bids were received:

J. A. Singarella Company, \$16,837; Construction Units, Inc., \$19,000; J. D'Amico, \$25,000.

OVERSEERS OF PUBLIC WELFARE.

Upon December 9 the Mayor approved a contract with Nicholas Bello for painting the interiors of Overseers of the Public Welfare buildings at 170 Hancock street, Dorchester, and 154 Maverick street, East Boston. Bids, opened November 26, were as follows:

Nicholas Bello, \$2,334; John M. Kennedy, \$2,390; M. L. McDonald Company, \$3,290; John Stuart, \$3,384; R. Tweed & Son, \$3,477; John D. Ahern, \$4,220; C. & N. Contractors, \$7,777.

Upon December 9 the Mayor approved a contract with the Kabot Painting Company for painting interior of Central Office Administration Building at 43 Hawkins street, Boston. Bids, opened December 1, were as follows:

Kabot Painting Company, \$3,900; Patrick J. Sullivan, \$5,040; Nicholas Bello, \$7,200; R. Tweed & Son, \$7,887; John M. Kennedy, \$8,399.

PUBLIC WORKS DEPARTMENT.

Upon December 9 the Mayor approved a contract with W. H. Ellis & Son Company for repairing fender piers at Chelsea North Bridge, at an estimated cost of \$23,585. The work is to commence on a date to be specified in a written order from the commissioner and shall be fully completed within three months from that date. The following bids were received December 4:

W. H. Ellis & Son Company, \$23,585; James B. Rendle Company, \$24,742.50; Bradford Saunders Corporation, \$25,210; Roy B. Rendle & Co., Inc., \$25,775; John P. Cavanagh, \$30,975; Rev-Lyn Contracting Company, \$31,667.50; The Crandall Engineering Company, \$33,485.

SUPPLY DEPARTMENT.

Upon December 4 the Mayor approved a contract with the E. M. Parker Company as requested in the following letter:

BOSTON, December 2, 1947.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—On November 21, 1947, proposals for furnishing X-ray films to the T. B. Division of the Health Department were publicly opened in this office. Following is tabulation of bids received.

It is respectfully requested that permission be granted me to award an order to the E. M. Parker Company, 25 Huntington avenue, Boston.

Total amount of order will be \$1,300.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

Bids were as follows:

100 Rolls 70 mm. Green Sensitive X-Ray Films, Per Roll.—Picker X-Ray Corporation, \$13; Kelley-Koett Manufacturing Company, \$13; E. M. Parker Company, \$13.*

Cash Discount.—Picker X-Ray Corporation, net; E. M. Parker Company, net.

Remarks.—Picker X-Ray Corporation, arrived late at Auditor's, not opened.

* Contract awarded.

Upon December 8 the Mayor approved a contract with John Greenberg, Inc., in accordance with the following request from the Superintendent of Supplies:

BOSTON, December 5, 1947.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—On November 21, 1947, bids were publicly opened and read at this office on proposals for furnishing 1,000 sponges, as per specifications, to the Fire Department.

All samples delivered by the various bidders have been examined by representatives from the Fire Department and this department. The Fire Commissioner has recommended that the award be divided between the Diemont-Levy Company who submitted the higher quality sample at the highest price and John Greenberg, Inc., who submitted the lowest priced sample.

In view of the above, I would respectfully request that permission be granted me to award an order to John Greenberg, Inc., for furnishing 500 sponges at a price of \$138 per 100, and also an order to Diemont-Levy Company for 500 sponges at a price of \$217 per 100.

It is the intention of the Fire Commissioner to find out from actual usage which is the better purchase for the city.

Total amounts of awards: Diemont-Levy Company, \$1,085; John Greenberg, Inc., \$690.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

Bids were as follows:

1,000 Mediterranean Wool Sponges, Forms 7 to 8's, Per C.—American Sponge and Chamois Company, \$141; Strongwool, \$139; Soft Wool; F. W. Fowler Company, \$155; Heaney Manufacturing Company, \$147; Greenberg, Inc., \$189; alternate, \$138, Form B (500),* \$158, Form A; Diemont-Levy Company, \$217 (500).*

Total Amount of Bid.—American Sponge and Chamois Company, \$1,410; Strongwool, \$1,390; Soft Wool; F. W. Fowler Company, \$1,550; Heaney Manufacturing Company, \$1,470; Greenberg, Inc., \$1,890; alternate, \$1,380, Form B (500), \$1,580, Form A; Diemont-Levy Company, \$2,170.

Cash Discount.—American Sponge and Chamois Company, 2 per cent, 10 days; F. W. Fowler Company, 2 per cent, 10 days (not on Auditor's copy); Heaney Manufacturing Company, 2 per cent, 10 days; Greenberg, Inc., 2 per cent, 10 days; Diemont-Levy Company, 2 per cent, 10 days.

* Contract awarded.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with contractors, mercantile houses, etc., for furnishing labor, supplies, etc. Communications from the heads of the various departments were as follows:

wish to state that the price of 11.175 cents per gallon offered by the Boston Ice Company is less than the posted price of this commodity.

In view of the limited supply of this commodity and a definite impending scarcity, I feel that such an award is for the best interests of the city since it will assure the city of delivery by a qualified supplier who has performed to our complete satisfaction in the past.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, December 2, 1947.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—On October 16, 1947, bids were publicly opened for the purchase of one (1) Buick sedan, 5-pas-

senger, Model 51. No bids were received at this opening.

This department has contacted Noyes Buick Company, and they have now quoted us the following price:

One (1) Buick, Model 51 sedan, black, fully equipped, spare tire, heater, defroster, windshield wiper, etc., \$2,154.53; less federal tax, \$95.85—\$2,058.68; less an allowance on one (1) Studebaker 1940 sedan, offered in trade, \$400, making a net total of \$1,658.68.

Since Noyes Buick Company are direct agents of the manufacturer, I would respectfully request that permission be granted me to award a contract, without public advertisement, to the Noyes Buick Company, 1055 Commonwealth avenue, at the price noted above.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, December 3, 1947.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—On October 24, 1946, a contract was awarded to the Eagle Electric Supply Company for furnishing electric cable, as per specifications, in the sum of \$14,813.77.

At the time the contract was signed the Office of Price Administration controlled the setting price, and the contract sum was the O. P. A. price. Due to the difficulty in obtaining this equipment, delivery could not be made at once. Delivery can now be made immediately.

Upon the removal of O. P. A. controls the prices of the items had increased in accordance with the following schedule:

Item No. 1, from 45.1 cents to 62.5 cents per foot, \$1,242; Item No. 2, from 36.4 cents to 38 cents per foot, \$1,140; Item No. 3, from 35.4 cents to 38.6 cents per foot, \$193; Item No. 4, from 41.2 cents to 45.1 cents per foot, \$451; Item No. 5, from \$2.814 to \$2.907 per foot, \$12,476.84; total, \$15,502.84.

The foregoing proposed prices are in accordance with the manufacturer's established list prices. In view of this rise in prices, the dealer in question feels that the original contract works undue hardship upon him and has accordingly informed the city that he will not undertake to deliver the material unless the original contract is cancelled and a new contract written at the prevailing list prices in the total sum of \$15,502.84, which is an increase of \$689.07. If the city tried to buy these required items elsewhere it would have to wait a considerable time before delivery could be made and would also have to pay the increased manufacturer's established list price.

In view of the urgent need of the above-listed material, I deem it to be in the best interests of the city to cancel the above-mentioned contract dated October 24, 1946, and respectfully request permission to dispense with public advertisement and award a new contract to the Eagle Electric Supply Company for the immediate delivery of the items listed. This procedure has been recommended by the Law Department.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, December 5, 1947.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—On December 1, 1947, your Honor approved a request for permission to grant a contract for surgical textiles to Johnson & Johnson, New Brunswick, New Jersey.

Johnson & Johnson are manufacturers who operate through local jobbers and they have notified this department that they would prefer to handle this contract through one of their authorized agents in Boston. For this reason, I would respectfully request that the permission to award be corrected and that the contract be awarded at the same prices and conditions to their direct agent in Boston, the Thomas W. Reed Company. I feel that in this matter better deliveries can be obtained from a local dealer.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, December 8, 1947.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—The ordinary procedure in this office for the purchase of men's underwear is to secure same from the Massachusetts Prison Commission, but owing to the very definite scarcity of material necessary to make up this item the Prison Commission has been unable to make delivery.

For this reason, I would respectfully request that permission be granted me to award an order to Brown Durrell Company for furnishing to the Long Island Hospital, Institutions Department, 55½ dozen men's undershirts at a price of \$15.50 per dozen and 40 dozen men's undershirts at a price of \$15.50 per dozen. The price quoted by Brown Durrell Company is the lowest one that this office has been able to obtain, and, as the department is in urgent need of this commodity, I would respectfully request that approval be granted for this purchase. Total amount of order is \$1,480.25.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

TRANSIT DEPARTMENT.

BOSTON, December 1, 1947.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to place an order, without public advertisement, with the Massachusetts Motor Car Company, Inc., for furnishing one Dodge ½-ton truck, complete with heater and grilled guard, to the Transit Department.

This department, under a recent date, asked for bids for ½-ton new pickup truck, and the following bids were received:

Commonwealth Chevrolet Company, Chevrolet, \$1,181, approximately three weeks' delivery; Massachusetts Motor Car Company, Inc., Dodge, \$1,080.53, approximately six weeks' delivery.

The order was placed with the lowest bidder, but they were unable to furnish this ½-ton truck, so the department would like to substitute therefor a ½-ton truck complete with heater and grilled guard.

The department is in urgent need of this truck.

The total amount of the order would be \$1,264.28.

We wish to place the order with the Massachusetts Motor Car Company, Inc., who is the lowest bidder, and no advantage would be gained by advertisement.

For this reason, I respectfully request that the permission asked for above be granted.

Respectfully yours,

MALCOLM E. NICHOLS,
Chairman.

BOSTON, December 1, 1947.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—Your approval is respectfully requested to place an order, without public advertisement, with the Corcoran Motor Sales Company of Wellesley, Mass., for furnishing one new 1947 Super Deluxe Ford sedan, fully equipped, at a net cost of \$1,550.

This department, under a recent date, asked for invitation bids.

This car is needed in the department for the engineering force on account of the increase in the work.

The total amount of the order would be \$1,550.

We wish to award to the Corcoran Motor Sales Company, Inc., who is the lowest bidder, and no advantage would be gained by advertisement.

For this reason I respectfully request that the permission asked for above be granted.

Respectfully yours,

MALCOLM E. NICHOLS,
Chairman.

BOSTON, December 1, 1947.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to place an order, without public advertisement, with the Builders Equipment and Supply Company for furnishing 12 clay diggers (four weighing approximately 30 pounds each and eight heavy duty, weighing approximately 40 pounds each, with extended T handle—Thor make) for immediate delivery.

This department, under a recent date, asked for bids, and the lowest bidder was unable to make delivery.

The total amount of the order would be \$1,530.

We wish to place the order with the Builders Equipment and Supply Company, the second lowest bidder, and no advantage would be gained by advertisement.

For this reason, I respectfully request that the permission asked for above be granted.

Respectfully yours,

MALCOLM E. NICHOLS,
Chairman.

SUFFOLK COUNTY.

MUNICIPAL COURT,
SOUTH BOSTON DISTRICT.

BOSTON, December 1, 1947.

HON. JAMES M. CURLEY,
Mayor of Boston.

MY DEAR MR. MAYOR,—Under the provisions of chapter 156 of the Acts of 1939, it is requested that advertising in the *City Record* be dispensed with for the budget items of this court for 1948, as listed below for the reasons set forth.

B-4, Transportation of persons. This covers transportation of prisoners committed by this court and the travel and other expense of the four Probation Officers.

D-1, Office Supplies. This includes government postage. Balance of account includes cost of all printing, docket sheets, forms, office supplies, advance sheets Legislature.

Yours respectfully,

JOHN E. FLAHERTY,
Clerk of Court.

BOSTON, December 1, 1947.

HON. JAMES M. CURLEY,
Mayor of Boston.

MY DEAR MR. MAYOR,—In accordance with chapter 156 of the Acts of 1939, I write to ask if you will grant me the written authority to dispense with advertising in the *City Record* proposals for bids for the transportation of prisoners to and from the South Boston Municipal Court for the year 1948.

The reasons for not inviting bids are as follows:

1. The physical condition of some prisoners, both men and women, demands responsibility of operator as well as immediate transportation.

2. This work has been done satisfactorily for several years by present operator, who is available for the year 1948.

3. Prices charged and to be charged are reasonable.

4. Although impossible to estimate exactly, average cost per year is about \$1,300. I have at hand cost for year 1947 to date, which amounts to \$1,300.

The proposed charges for transportation are as follows:

One prisoner to or from the Jail, \$2; two prisoners to or from the Jail, \$3.50; three prisoners to or from the Jail, \$3.50; four prisoners to or from the Jail, \$4; five prisoners to or from the Jail, \$4.50; trips to House of Correction (via Sumner Tunnel and Winthrop) \$5, plus Tunnel fares.

One trip can accommodate five prisoners.

Yours respectfully,

LEO H. LEARY,
Justice.

AMENDMENTS TO CONTRACTS.

INSTITUTIONS DEPARTMENT.

The Peabody Construction Company has been allowed to amend the contract for the building of a shaft and furnishing and installing a passenger elevator in Nurses' Home, Long Island Hospital, Boston Harbor, by substituting as the date of completion of the work "March 1, 1948," in place of "November 15, 1947."

The Portland Elevator Company, sub-bidder, is delaying completion in not supplying the elevator car and equipment. It explains to the Peabody Construction Company that the delay is being had for the reason that it is experiencing difficulty in obtaining the direct current motor.

PUBLIC BUILDINGS DEPARTMENT.

William Stanley Parker and Sturgis Associates, Inc., architects, have been allowed to amend the contract to perform professional services in connection with the construction of a proposed gymnasium and the alteration and repairs of a municipal building in South Boston; and

Whereas, On January 4, 1946, Mayor John E. Kerrigan approved a contract between the A. Piotti Company and the city for the erection and completion of a new gymnasium and alterations and repairs to the municipal building in South Boston; and

Whereas, The amount of the contract as above referred to is \$90,983.33; and

Whereas, The cost of the proposed gymnasium and the alterations of the municipal building as set forth in the contract of December 16, 1941, above referred to is \$50,000; and

Whereas, There exists some doubt as to the basis for the computation of the architects' fee under the said contract of December 16, 1941;

Witnesseth, That the parties hereto, in consideration of the mutual agreements herein made, agree with each other as follows:

Section 1 (a) and 2 (h) of the said contract of December 16, 1941, be further amended, by striking out the figure \$50,000, and substituting the figure \$90,983.33.

This agreement is in addition to the amendments executed on July 1, 1946, and October 15, 1946, by the parties hereto.

EXTRA WORK UNDER CONTRACT.

PUBLIC WORKS DEPARTMENT.

Powers & Mehegan Company have been directed to perform the following extra work under the contract for furnishing and installing oil burning equip-

ment at 621 Albany street (municipal garage), dated October 22, 1947. Items ordered: Install a steel pan under the heating boiler; pan to be 16 inches deep, full length of boiler and extend 30 inches outside front of boiler, installation to be 12 inches below and 4 inches above the floor. Price to be paid, including all labor and material required to excavate, weld pan in place and build curbing, the sum of \$250. Estimated cost of extra work, \$250.

A. Orlando, Inc., has been directed to perform the following extra work under the contract for alterations, repairs, etc., to buildings and pier at the South Ferry, East Boston, dated September 9, 1947. Items ordered: Build a concrete block vault on a concrete floor with a concrete roof filled with sand to encase the present 1,000-gallon fuel oil tank. This work to be to the complete satisfaction of this department and the Fire Department, City of Boston, and will be paid for on the basis of actual cost of labor and materials plus 15 per cent overhead on labor only. Estimated cost of extra work, \$500.

AMENDED DAMAGES.

The Mayor has approved the following (substitute order) vote of the Board of Street Commissioners:

Voted, That the order of the Street Commissioners and Mayor of June 23, 1947, determining damages caused by the making of the public improvement consisting of the taking of 8,037 square feet of land and building at 1493 Tremont street for playground purposes under the order of the Street Commissioners and Mayor, be, and the same hereby is, amended, by striking from said order the amount \$1 awarded to William K. and Mary G. White in said order and inserting in place thereof the amount \$6,250; that the amount \$6,250 be, and the same hereby is, awarded to William K. and Mary G. White, husband and wife as tenants by the entirety, for the damages so sustained.

ADDITIONS TO CONTRACT.

FIRE DEPARTMENT.

The following additions to the contract of the Boston Marine Works, Inc., has been approved for repairs to fireboat, "Matthew J. Boyle," Engine Company 44:

Addition No. 1.

Furnish labor and material to disconnect high pressure cross-head on main engine, realign to guide and refit bearings, \$200. Original contract, \$3,265; total contract with addition, \$3,465.

In disassembling the main population engine a condition was found on the high pressure cross-head bearings which requires a marine machine shop job. This work could not be foreseen until the engine had been opened. Although the foregoing is in addition to the work contemplated in the original contract it is incidental thereto.

Addition No. 2.

Furnish labor and materials to renew umbrella of smoke stack and 12-inch band on inner stack, \$475. Original contract, \$3,265; Addition No. 1, dated November 20, 1947, \$200; total contract with all additions, \$3,940.

The foregoing work could not be anticipated at the time of the original contract as the umbrella had to be

removed in preparation of replacing alignment. The additional work mentioned above has been ordered by the Marine Inspection Bureau of the United States Coast Guard and must be done before that Bureau will allow the boat to be placed in service. Although the foregoing work is in addition to that contemplated in the original contract, it is incidental thereto.

EXTENSION OF CONTRACTS.

INSTITUTIONS DEPARTMENT.

John M. Gray Company has been granted an extension of time for completion of the contract for architect's services in connection with New Chronic Hospital Building, from November 15, 1947, to March 1, 1948. This extension is requested for the reason that it is deemed advisable to postpone completion of the working plans for the New Chronic Hospital at Long Island, Boston Harbor, in order that the city may be in a position to conform with whatever final changes the State Department of Public Health may require to make the City of Boston eligible to whatever funds the Federal Government allots for the purpose of aiding municipalities in the construction of hospitals. The State Department of Public Health in this instance is the approving agent for the Federal Government on plans, specifications, and need.

PARK DEPARTMENT.

M. Solimando has been granted an extension of time until February 18, 1948, for the completion of the contract for alterations and additions to the Lion House, Franklin Park.

William P. Herlihy has been granted an extension of time until December 15, 1947, for the completion of the contract for excavating and loaming at Evergreen Cemetery, Brighton.

PUBLIC WORKS DEPARTMENT.

S. J. Tomasello Corporation has been granted an extension of time for completion of the contract for laying sheet asphalt pavement in Silver street and West First street, from November 1, 1947, to December 1, 1947. This extension is requested for the reason that the contractor was delayed by operations of the New York, New Haven & Hartford Railroad in resetting tracks in West First street.

Joseph Botti & Son have been granted an extension of time for completion of the contract for earth excavation and refilling to allow Water Division employees to install, regulate or repair Water Division structures, also for the installation of wooden boxes and establishing post hydrants in the West Roxbury (Water Division) district, including Hyde Park, from December 31, 1947, to March 31, 1948. This extension is requested for the reason that there is considerable work to be performed under this contract, and it will be greatly to the city's advantage to continue this type of contract during the winter months.

John Deveney Company has been granted an extension of time for completion of the contract for laying sheet asphalt pavement and sewerage works in Columbus avenue, Ward 11, from Centre street to Washington street, from October 15, 1947, to November 15, 1947. This extension is requested for the reason that the contractor was delayed by operations of the Boston Elevated Railway who did not complete their work until October 9, 1947.

SUPPLY DEPARTMENT.

The Hersey Manufacturing Company has been granted permission to extend the termination date of the contract from December 31, 1947, to April 1, 1948. This extension is asked for due to the fact that the contractor has been unable to secure the necessary material to complete this contract by December 31, 1947.

The Mechanics Iron Foundry Company has been granted an extension of the completion date of the contract dated August 11, 1947, for furnishing and delivering iron castings (gates and hydrants), from December 31, 1947, to May 1, 1948. This extension is requested because the contractor is experiencing great difficulty in securing the scrap iron which is used in the manufacture of these castings.

CHANGES IN CONTRACT.

DEPARTMENT OF SCHOOL BUILDINGS.

P. J. Cantwell & Son have been ordered to make the following changes in the contract for the Theodore Roosevelt School:

Wash down and paint the dado in cafeteria and corridors in basement where shelving has been removed: Labor, 24 hours, painter at \$2.50, \$60; material, \$15—\$75. Patch plaster walls and ceilings in Rooms 107, 108, 109, 110, 207, 209, 210, principal's office and new teachers' room: Labor, 40 hours, plasterer at \$3, \$120; materials, cleaning, etc., \$20—\$140. In openings between Rooms 209 and 210 and 201 and 202 where steel beam occurs remove concrete and erect new steps, alter trim and doors to meet condition: Carpenter, 32 hours at \$2.55, \$81.60; laborer, 16 hours at \$1.90, \$30.40; material, \$8—\$120. Net addition, \$335, and the amount of \$335 will be added therefor, making the account as follows: Contract price, \$16,238; total additions, \$335; amount of contract, \$16,573.

CONTRACTS AMENDED.

SUPPLY DEPARTMENT.

The Mayor has approved the request of the Superintendent of Supplies as contained in the following letters:

BOSTON, December 5, 1947.

HON. JAMES M. CURLEY,

Mayor of Boston.

DEAR MR. MAYOR,—On November 28, 1947, your Honor approved a request from this department for permission to award a contract as follows:

Three new 1948 Model 2211 Packard DeLuxe 8-cylinder 4-door touring sedans at a total price of \$7,509, less Federal tax, \$360, less three 1942 DeSoto sedans turned in as part payment, \$1,100, making a net total for the three new cars of \$6,049.

The Fire Department did not include in their requisition to this department additional equipment and painting costs as follows:

Three special heater and defroster combinations at a price of \$76 each; three special paint jobs at a price of \$125 each; total addition, \$603.

I would respectfully request that permission be granted me to supplement the original approval given on November 28, 1947, to include the extra costs as outlined above.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, December 8, 1947.

HON. JAMES M. CURLEY,

Mayor of Boston.

DEAR MR. MAYOR,—On July 29, 1947, a contract was approved with E. F. Mahady Company for furnishing surgical supplies to the various city departments.

Item 141 of this contract called for delivery of 200 gross of surgeons' seamless rubber gloves at a price of \$33 per gross. This price was not the same price for the life of the contract but was accepted on the basis of prices prevailing at time of delivery. The price has now advanced to \$36 per gross, and I would respectfully request that permission be granted me to amend the contract by increasing the price of this item from \$33 per gross to \$36 per gross.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BUDGET AMENDMENT.

The Mayor has approved the following request of the Fire Commissioner:

BOSTON, December 3, 1947.

HON. JAMES M. CURLEY,

Mayor of Boston.

DEAR SIR,—Your Honor's approval is requested of the following amendment in the 1947 Fire Department budget:

Fourteen linemen and cable splicers at \$2,300 to \$2,900 a year, should be changed to read: Thirteen linemen and cable splicers at \$2,300 to \$2,900 a year.

One repairman at \$2,700 a year, should be changed to read: Two repairmen at \$2,700 a year.

The foregoing amendment is necessary in order that the rating of Joseph W. Flavin now employed as a lineman and cable splicer in the Fire Alarm Division of this department can be changed to that of repairman.

Under date of December 2, I have forwarded formal request to your Honor for this change in rating which has been approved by the Department of Civil Service.

Respectfully yours,

RUSSELL S. CODMAN, JR.,
Fire Commissioner.

BUILDINGS RAZED.

The Mayor has approved the request of the Building Commissioner to raze the following structures as fire menaces or nuisances:

To enter the building or other structure, or the abutting land or buildings, at 45 Albany street, Ward 3, with such

assistance as required, and vacate forthwith said unsafe or dangerous building or other structure, and to protect the public by a proper fence or otherwise as may be necessary.

To enter the building or other structure, or the abutting land or buildings, at 88 and 90 Village street, Ward 5, with such assistance as required, and vacate forthwith or remove said unsafe or dangerous building or other structure, and to protect the public by a proper fence or otherwise as may be necessary.

POLICE DEPARTMENT ORDERS.

General Order No. 970.

A Board of Merit, consisting of Superintendent Edward W. Fallon, Deputy Superintendents James F. Daley, James J. Hinchey, and James T. Sheehan, has brought to the attention of the Police Commissioner the following outstanding cases in which police officers of this department have especially distinguished themselves in the performance of their duty during the year 1947.

The Commissioner therefore makes the following awards:

THE WALTER SCOTT MEDAL FOR VALOR AND A DEPARTMENT MEDAL OF HONOR TO PATROLMAN EARL R. COUTU OF DIVISION 10.

Patrolman EARL R. COUTU of Division 10 is hereby awarded the Walter Scott Medal for Valor and a Department Medal of Honor for meritorious duty.

Patrolman COUTU, while on a day off, on the early morning of September 20, 1947, in civilian clothes, was driving his automobile along Huntington avenue; his attention was attracted by a woman screaming on the lawn of a near-by building. He observed that she was being pursued by a man who was carrying a gun. As he left his automobile he was confronted by the man, who pointed a revolver at him and pulled the trigger twice, but the revolver failed to explode. The officer grappled with the man and after a terrific struggle succeeded in placing him under arrest. The prisoner was later convicted of assault with intent to kill an officer and was sentenced to State Prison.

DEPARTMENT MEDALS OF HONOR.

Patrolman JOHN F. BRENNAN of the Traffic Division is hereby awarded a Department Medal of Honor for meritorious duty performed while he was on his vacation. On July 25, 1947, he rescued a man from drowning at Carson Beach. When taken from the water the victim was unconscious, and Patrolman BRENNAN applied artificial respiration and succeeded in saving the man's life.

Sergt. JOSEPH L. CONNORS, Patrolmen THOMAS F. HICKEY, THOMAS M. LEONARD, and Marine Fireman JAMES H. WEST, all of Division 8, are each awarded a Department Medal of Honor for meritorious duty performed on September 20, 1947. While on patrol duty in the Police Patrol Boat "McShane" in Boston Harbor they rescued from possible drowning seven persons who had jumped into the water from a motorboat after it exploded and took fire.

Sergt. MARTIN P. KELLY, Patrolmen JOHN C. CAWLEY and JOSEPH H. KELLY, of Division 15, are each awarded a Department Medal of Honor for meritorious duty performed on September 19, 1947, in connection with the capture of two desperate criminals who had escaped from State Prison where they were serving long sentences for major crimes.

Sergt. LEO W. GANNON, Patrolmen THOMAS J. REILLY and HILARY J. MCGUNIGLE, of Division 4, are each awarded a Department Medal of Honor for meritorious police duty performed on September 26, 1947, in connection with the arrest of two desperate criminals who were armed and were wanted for committing several robberies in this city.

Sergt. WILLIAM J. HOGAN, Superintendent's Office, is hereby awarded a Department Medal of Honor for meritorious police duty performed on June 3, 1947. While attempting a hazardous undertaking to obtain evidence, he fell through a skylight to the basement of a building, a distance of about 50 feet, sustaining serious injuries and necessitating the amputation of his right foot.

The presentations of the Walter Scott Medal for Valor and the Department Medals of Honor to the officers mentioned herein were made at the Concert and Ball of the Boston Police Relief Association at the Boston Garden on the evening of December 11, 1947.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 971.

Transfer of the following-named person from Superintendent's Office (armed service roll) is hereby ordered; effective Monday, December 15, 1947, at 7.45 o'clock a. m.:

Patrolman Paul J. Sullivan to Division 15.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 972.

I am pleased to publish the following letter for the information of the members of the department:

"The Commonwealth of Massachusetts, Registry of Motor Vehicles,
December 12, 1947.

DEAR COMMISSIONER SULLIVAN,—As we approach a happy holiday season and come to the end of another year of close relationship, I am taking this opportunity to thank you and the members of your force for the help and cooperation which you are giving to me and my department and to wish you and yours a Merry Christmas and a Happy and Prosperous New Year.

Sincerely yours,

RUDOLPH F. KING, Registrar."

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 973.

Acting under provisions of chapter 521. Acts of 1922, as amended, the Boston Retirement Board has approved for retirement, on account of accidental disability, the following-named police officer, a member of the Boston Retirement System, effective at the close of business, Wednesday, December 31, 1947.

Wherefore, in view of this operation of law, after December 31, 1947, the said police officer shall no longer be an active

member of this department, and it is hereby ordered that its records be so amended.

Patrolman John J. McGrath, Division 4.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 974.

The following-named persons are hereby appointed permanent patrolmen in this department, and are assigned as follows; effective Wednesday, December 17, 1947, at 7.45 o'clock a. m.:

John E. MacNeil, Division 1.
William J. Bird, Division 2.
William J. Ryan, Division 3.
James P. Dallas, Edward T. McHale, Thomas A. Scanlon, James J. Welch, Division 4.
Frank Trocki, Division 6.
Thomas Higgins, Division 7.
George T. Farley, Daniel B. Keating, Daniel P. Lovett, Division 9.
Harold F. MacDonald, Francis J. McKenna, Frank A. Vellante, Division 10.
Joseph W. Gambino, Stanley W. Jackson, Division 11.
Ralph G. Kotas, Division 13.
William C. Lyons, Division 14.
James R. Nash, Ralph E. Smith, Division 15.
Joseph E. Tracey, John Wall, Division 16.
Francis J. McDermott, Division 18.
Orlando J. Coviello, Division 19.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 975.

The following-named officer, having requested retirement under the provisions of the Statutes of 1892, chapter 353, as amended, for the reason that he is incapacitated, it is hereby

Ordered, His Honor the Mayor having approved the same, that he be retired from active service in the Police Department; effective Thursday, December 18, 1947, at 7.45 o'clock a. m.

Patrolman Albert A. Snyder, Division 11, 25 years of service.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

FIRE DEPARTMENT ORDERS.

General Order No. 75.

I. PROVISIONAL FIREMAN JOSEPH B. SULLIVAN.

It is with deep regret that the Fire Commissioner announces the death, on December 3, 1947, of Provisional Fireman Joseph B. Sullivan of Ladder Company 19 who was killed in the performance of his duty as a member of the Fire Department when ladder truck No. 19 overturned on December 3, 1947.

The funeral was held from the Higgins Funeral Parlor, 520 East Broadway, South Boston, on Saturday, December 6, 1947, at 8 a. m., followed by services at St. Margaret's Church, Dorchester avenue and Columbia road, at 9 a. m.

The chief of department made the customary detail to act as funeral escort

and the members of Ladder Company 19 were excused from duty to attend the services.

II. PROMOTIONS.

The following assignment, which became effective at 8 a. m., Wednesday, November 19, 1947, is hereby announced:

Hoseman John F. Creedon, Engine Company 28, to aide to deputy chief.

The following assignment, which became effective at 8 a. m., Wednesday, December 3, 1947, is hereby announced:

Ladderman Alexander W. Wilson, Ladder Company 25, to aide to supervisor of drills.

The following promotion, which will become effective at 8 a. m., Wednesday, December 17, 1947, is hereby announced:

Lieutenant Edward J. Welch, Engine Company 11 to captain.

III. CHARITABLE ASSOCIATION OF THE BOSTON FIRE DEPARTMENT.

VI. COMMENDATION.

Aide to Chief of Department Walter A. Sullivan is hereby commended for responding to and working at fire, Box 2741, two alarms, on November 8, 1947, while off duty.

By order of Fire Commissioner
RUSSELL S. CODMAN, JR.

NAPEEN BOUTILIER,
Chief of Department.

General Order No. 76.

I. FRANK N. VOGEL.

It is with deep regret that the Fire Commissioner announces the death, on December 11, 1947, of Hoseman Frank N. Vogel of Engine Company 54. Hoseman Frank N. Vogel was appointed to the department on January 5, 1917.

The funeral was held from his son's residence, 12 Johnson street, East Mil-

ton, at 8.30 a. m., Saturday, December 13, 1947, followed by services at St. Agatha's Church, Adams street, Milton, at 9 a. m.

The chief of department made the customary detail to act as a funeral escort.

II. TRANSFERS.

The following transfer, which became effective at 8 a. m., December 10, 1947, is hereby announced:

Hoseman Francis G. Reardon, from Engine 7 to Engine 11.

The following transfers, effective at 8 a. m., December 17, 1947, are hereby announced:

Captain Edward J. Welch, from Engine Company 11 to Engine Company 24.

Apparatus Operator Henry C. Bate-man, from Engine Company 18 to Engine Company 54.

Hoseman William J. Flynn, from Engine Company 4 to Engine Company 54.

III. LETTERS OF APPRECIATION.

The Fire Commissioner is pleased to publish the following letter, dated December 9, 1947, which he has received from Assistant Clerk Thomas J. Spring of the Municipal Court of the Roxbury District:

"MY DEAR COMMISSIONER CODMAN,—The Honorable Samuel Eisenstadt of this court has directed me to express his appreciation and commendation to you for the alert and courageous assistance on the part of Ladderman John F. Cass, Engine No. 37, and Captain Robert M. Walsh of Engine No. 14 in the case of one Dorothy MacDonald, who on the night of December 3 was viciously assaulted by one Robert L. Robertson, in the vicinity of Park Drive, Boston. Except for the quick action of these two members of your force, the woman may have suffered a brutal death. The evidence as presented to the court showed that Captain Walsh and Ladderman Cass were driving by at the time and responded heroically to the scene. In taking part in this incident, these men were entirely forgetful of their own safety and personal welfare.

The court believes that nothing in a material way can ever properly or adequately repay these gentlemen for their act of human kindness. Such action on the part of these two fire fighters is typical of the fine spirit of the members of the Boston Fire Department, but it is the court's wish that these men may be rewarded in a particular way for their act of bravery."

The Fire Commissioner is also pleased to publish the following letter, dated December 12, 1947, which he has received from the Mayor of Fitchburg, Massachusetts:

"DEAR COMMISSIONER CODMAN,—During the turmoil of our forest fires, some time ago, proper "thank you's" were neglected. However, Fitchburg does appreciate the help you gave us during those hectic days when our city was threatened.

Chief Ernest Caouette of the Fitchburg Fire Department joins me in extending to you and your department the appreciation of the City of Fitchburg.

Any time in the future when you need help, please feel free to call upon the Fitchburg Fire Department."

IV. HIGH COMMENDATIONS.

At about 5.27 p. m., December 3, 1947, the department was called to Soldiers Field road, Brighton, where an automobile had accidentally run into the Charles River.

Hoseman William J. Buckley, of Rescue Company 2, donned a Scott Air Pak mask, descended into the cold water, and located the automobile which was submerged. He attached a cable wire with hook to the under part of the car, which hastened the raising of the automobile. Ladderman Edwin C. Mahoney, of Ladder Company 14, also went into the water and attached a wrecking hook to the front part of the automobile while he was entirely submerged.

Due to the low temperature of the water, and the risk to which these firemen exposed themselves in attempting to facilitate the raising of the car which contained one occupant, the Fire Commissioner is pleased to highly commend both men and their cases are referred to the Board of Merit for further consideration.

At about 11.30 p. m., December 3, 1947, while riding in the car of District 8 in the Fenway, Captain Robert M. Walsh, who was acting district chief at the time, and Hoseman John F. Cass, of Engine Company 37, saw a man strike a woman on the head with some implement held in his hand, whereupon the woman broke away and ran to the center of the street holding her head. Captain Walsh directed Hoseman Cass to give chase to the man who had run into the park system. After considerable dodging between trees and bushes Hoseman Cass stopped the car and he and Captain Walsh continued the chase on foot. After running about one hundred feet, they caught the man, wrestled him to the ground, took a stilson wrench from his hand and held him until the arrival of police, who were summoned via radio by Fire Alarm Operator Francis C. Tapp who was a passenger in the district car. The captured man was an exconvict who had assaulted the woman with a wrench evidently in an attempt to rob her.

Because of the fact that Captain Walsh and Hoseman Cass assumed considerable risk in pursuing the man, not knowing what type of weapons he carried, the commissioner is pleased to highly commend both of them and their cases are referred to the Board of Merit for further consideration.

By order of Fire Commissioner
RUSSELL S. CODMAN, JR.

NAPEEN BOUTILIER,
Chief of Department.

PROCEEDINGS OF CITY COUNCIL.

Monday, December 8, 1947.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 p. m., President KELLY in the chair. Absent, Councilor Madden. The meeting was opened with the salute to the Flag.

VETO OF LOAN ORDER OF \$7,000,000 FOR LOW-INCOME HOUSING DEVELOPMENTS.

The following was received:

City of Boston,
Office of the Mayor, December 2, 1947.
To the City Council.
Gentlemen,—On November 24 two loan orders covering cooperation with the Public Housing Administration of the federal government under the terms of the so-called McCarthy Act were approved by your Honorable Body. One order in the sum of \$3,000,000 related to the South End or Cathedral low-income housing development and the other in the sum of \$7,000,000 embraced two sites, namely, the South End and the South Boston developments.

Under existing law, orders of this character must be approved by the Emergency Finance Board. I am advised that, under the procedure of this agency, individual orders must be limited to one site or development. In view of this fact, I have withheld approval of the \$7,000,000 order and am returning it to you without prejudice. I have approved the order relating to the South End or Cathedral project and, in the event a separate order is adopted by your Honorable Body covering the South Boston site or development, I shall be pleased to approve the same.

Respectfully,
JAMES M. CURLEY, Mayor.

Placed on file.

APPOINTMENT BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointment:

Henry J. Olsiewski, 71 Milton avenue, Dorchester, Mass., as Weigher of Coal, for term ending April 30, 1948.

Referred to Committee on Constables and Confirmations.

NAMING OF INTERSECTIONS IN MEMORY OF DECEASED VETERANS.

The following was received:

City of Boston,
Office of the Mayor, December 8, 1947.
To the City Council.
Gentlemen,—The committee appointed by me in 1946 to recommend the naming of certain intersections in the city in memory of deceased veterans has forwarded me a recommendation, as herewith attached, that three intersections in various parts of the city be named for veterans who sacrificed their lives during the period of World War II in order that liberty and freedom might exist in the world.

I understand the committee has made its recommendations after considering various proposals, and has attempted, in so far as possible, to name intersections in honor of local heroes.

I submit herewith separate orders for the naming of each intersection as recommended, and I respectfully request approval of these orders by your Honorable Body.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Board of Street Commissioners,
December 5, 1947.

Hon. James M. Curley,
Mayor of Boston.

Dear Mr. Mayor,—At a meeting held this day of the Committee to Memorialize Veterans, it was voted unanimously to designate the following intersections in honor of the following veterans of World War II who were killed in action: Amory and Green streets, Jamaica Plain, Edward F. O'Brien Square, killed in action in France, June 13, 1944.

Morton and Old Morton streets and Pleasant Hill avenue, Dorchester, Nicholas J. Driscoll Square, killed in the Battle of Saint-Lo, July 29, 1944.

Norton and Bowdoin streets, Dorchester, John Francis Armstrong Square, killed in action in the Pacific area, near Okinawa, by Japanese suicide plane, May 13, 1945.

Notice of the above vote has been forwarded to the City Council for approval.

Sincerely yours,
L. W. COSTELLO, Secretary.

Placed on file.

Ordered, That the space at the junction of Amory and Green streets, Jamaica Plain, be named Edward F. O'Brien Square, in honor of Edward F. O'Brien, late veteran of World War II.

Ordered, That the space at the junction of Norton and Bowdoin streets, Dorchester, be named John Francis Armstrong Square, in honor of John Francis Armstrong, late veteran of World War II.

Ordered, That the space at the junction of Morton and Old Morton streets and Pleasant Hill avenue, Dorchester, be named Nicholas J. Driscoll Square, in honor of Nicholas J. Driscoll, late veteran of World War II.

Referred to the Executive Committee.

RENAMING OF WORCESTER SQUARE.

The following was received:

City of Boston,
Office of the Mayor, December 8, 1947.
To the City Council.
Gentlemen,—I transmit herewith communication from the Committee in Charge of Naming Squares, relative to your order of September 29, 1947, concerning the renaming of Worcester square, in the South End of Boston, in honor of the late William Thomas Jones, carpenter's mate, 3rd class, United States Navy.

Respectfully yours,
JAMES M. CURLEY, Mayor.

City of Boston
Board of Street Commissioners,
December 5, 1947.

J. Joseph Connors,

Chief Clerk, Mayor's Office.

Dear Sir,—With reference to your communication of October 1, 1947, inclosing Council order, dated September 29, 1947, I beg to advise that at a meeting held this day of the Committee to Memorialize Veterans it was voted to reject the request of the City Council to rename Worcester square in honor of the late William Thomas Jones, U. S. N., who was killed in action during the invasion of Salerno Beach, Italy, on September 9, 1943.

The committee was reluctant to act favorably in the matter because of the fact that all the streets and important squares in the vicinity have been named after cities of the Commonwealth, including Springfield, Brookline, Newton, etc., in accordance with a plan mapped out many years ago.

However, the committee would be glad to act favorably on the naming of a junction or intersection in the vicinity in honor of the above-named veteran, if said junction or intersection has not already been named.

The committee will await suggestions in the matter.

Very truly yours,
L. W. COSTELLO, Secretary.

Placed on file.

ADDITIONAL APPROPRIATION FOR PRINTING DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, December 8, 1947.
To the City Council.
Gentlemen,—I am in receipt of the attached request from the Superintendent of Printing for an additional appropriation of \$5,000 from the income of the Printing Department to the appropriation for Departmental Stationery and Postage. This appropriation is used entirely for resale to city departments, and it is difficult to anticipate exactly their requirements.

I am forwarding, herewith, an order appropriating the sum of \$5,000 from the income of the Printing Department, and recommend consideration and adoption of this order by your Honorable Body.

Respectfully,
JAMES M. CURLEY, Mayor.

Ordered, That to meet the current expenses payable during the financial year beginning with the first day of January, 1947, an additional sum of five thousand dollars (\$5,000) be, and the same hereby is, appropriated from the income of the Printing Department for the following purpose:

Special Appropriation.

Departmental Stationery and Postage, \$5,000.
Referred to the Executive Committee.

TRANSFER OF \$154,100 TO HOSPITAL DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, December 8, 1947.
To the City Council.
Gentlemen,—There was provided in the 1947 budget an appropriation in the sum of \$154,100 for the Construction of Buildings. This appropriation represented the amount necessary as a prerequisite to borrowing under the authority of chapter 44 of the General Laws. Because of the scarcity and high cost of materials, the uncertain labor costs, and the concentration on veterans' housing, the building program was abandoned for this year.

The institution of the 40-hour work week for employees, which could not be anticipated in the 1947 budget, together with the unforeseen increases in the costs of supplies and materials has caused shortages in some of the budget items of the Hospital Department. It is, therefore, deemed advisable to apply this appropriation to meet these unforeseen requirements in the Hospital Department which are segregated as follows:

Personal Service, \$121,000; Sheets, Pillow Cases, etc., \$6,500; Medical Supplies, \$25,000; Office Supplies, \$1,600. Total, \$154,100.

I am forwarding herewith an order transferring this sum of \$154,100 from Special Appropriations for Construction of Buildings to the appropriate items in the budget of the Hospital Department, and recommend consideration and adoption by your Honorable Body.

Respectfully,
JAMES M. CURLEY, Mayor.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From Special Appropriation, Construction of Buildings, and Original Equipment and Furnishings Thereof, \$154,100, to Hospital Department, A-1, Permanent Employees, \$80,000; A-2, Temporary Employees, \$10,000; A-3, Unassigned, \$31,000; C-7, Furniture and Furnishings, \$6,500; D-1, Office, \$1,600; D-5, Medical, Surgical, Laboratory, \$25,000.

Referred to the Executive Committee.

EXEMPTIONS FROM 40-HOUR WORK WEEK.

The following was received:

City of Boston,
Office of the Mayor, December 8, 1947.
To the City Council.
Gentlemen,—Chapter 649 of the Acts of 1947 establishing a 40-hour work week for employees exempted certain classes of employees and provided that other classes or groups of employees may, from time to time, be specifically exempted therefrom in the same manner provided for the acceptance of the act.

There are certain types of positions in the service of the city which are of an administrative or supervisory character, and the services of the incumbents of these positions should be available without restriction. After a survey, it has been decided that any person who is compensated for his services on an annual salary basis of \$3,400 or more, or on a weekly basis of \$65 or more falls into this category and should be exempt. In addition, and in compliance with the recommendation of the Fire Commissioner in the interests of economy and efficiency, it is also proposed to exempt any person on the pay rolls of the Fire Alarm Division of the Fire Department.

I am forwarding, herewith, an order providing for the above-mentioned exemptions and recommend consideration and adoption of this order by your Honorable Body.

Respectfully,
JAMES M. CURLEY, Mayor.

Ordered, That section 33A of chapter 149 of the General Laws, as inserted by chapter 649 of the Acts of 1947, shall not apply to those specifically exempted therefrom by said section or to any person on the pay rolls of the Fire Alarm Division of the Fire Department or to any person who is compensated for his services on an annual salary basis of \$3,400 or more or on a weekly salary basis of \$65 or more.

Referred to the Executive Committee.

ADDITIONAL APPROPRIATION FOR STATISTICS DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, December 8, 1947.
To the City Council.
Gentlemen,—I am in receipt of the attached communication from the Chairman of the Statistics Department requesting an additional appropriation of \$6,775 from the revenue of the City Record. This additional appropriation is necessary to provide for advertising for bids, especially by the Real Estate Department, which have more than doubled over any previous year, and was not anticipated when the budget was submitted.

There is forwarded herewith an order appropriating the above-mentioned sum from the income of the City Record. I recommend consideration and adoption of this order by your Honorable Body.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Statistics Department, December 5, 1947.

Hon. James M. Curley,
Mayor of Boston.
Dear Mr. Mayor,—May we kindly request an increase in the following budget items for the year 1947:

B-1, \$6,600; B-42, \$175; total, \$6,775.

The increase of \$6,600 in B-1, Printing, is necessitated by the increase of \$2.25 per each 1,000 ems (the average weekly issue of the *City Record* containing approximately 100,000 ems) by the Printing Department beginning January 1, 1947, about two months after the preparation of the 1947 budget sheets.

This increase is also caused by the tremendous amount of advertising for bids, especially the Real Estate Department bids, which have more than doubled that of any previous year. This type of printed matter is made up of the smallest and therefore the most expensive kind, a jump in price from \$1.75 to \$2.25 per 1,000 ems by the Printing Department.

The B-42 item for binding and mailing the *City Record* has increased approximately \$5 per weekly mailing.

Respectfully,
WILLIAM J. CAMPBELL, Chairman.

Ordered, That to meet the current expenses payable during the financial year beginning with the first day of January, 1947, an additional sum of six thousand seven hundred and seventy-five dollars (\$6,775) be, and the same hereby is, appropriated from the income of the *City Record*, Publication of, for the following purposes:

CITY RECORD, PUBLICATION OF.	
B. CONTRACTUAL SERVICES.	
1. Printing and binding.....	\$6,600
42. Miscellaneous services.....	175
	\$6,775

Referred to the Executive Committee.

TRANSFERS OF APPROPRIATIONS.

The following was received:

City of Boston,
Office of the Mayor, December 8, 1947.
To the City Council.

Gentlemen,—The enclosed requests for transfer of appropriations, together with the accompanying orders, are forwarded for consideration and adoption by your Honorable Body.

Respectfully,
JAMES M. CURLEY, Mayor.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Public Buildings Department, Market Division, B-1, Printing and Binding, \$2.50; B-13, Communication, \$23; B-18, Cleaning, \$3.20; B-39, General Repairs, \$15.25; C-7, Furniture and Furnishings, 95 cents; C-9, Office, \$3; C-13, Tools and Instruments, \$7.54; D-3, Fuel, \$150; D-5, Medical, Surgical, Laboratory, 3 cents; D-8, Laundry, Cleaning, Toilet, \$13.25; D-13, Chemicals and Disinfectants, 50 cents; D-16, Miscellaneous Supplies, \$44.13; E-10, Electrical, \$10.68; Public Buildings Department, A-1, Permanent Employees, \$130.97, to the appropriation for Public Buildings Department, Market Division, A-1, Permanent Employees, \$405.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Public Works Department, Paving Service, A-1, Permanent Employees, \$2,000, to the appropriation for Special Appropriation, Reconstruction of Streets, \$2,000.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Special Appropriation, County Contingent Fund, \$5,000, to the appropriation for Insanity Cases, B-35, Fees, Service of Venires, etc., \$5,000.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Special Appropriation, Reserve Fund, \$13,725, to the appropriation for Special Appropriation, Contingent Fund, \$13,725.

Severally referred to the Executive Committee.

ADMINISTRATIVE SURVEY OF CITY BY FINANCE COMMISSION.

The following was received:

City of Boston,
Finance Commission, December 5, 1947.
To the Honorable the Mayor and City Council.

Gentlemen,—I am enclosing, for your information, a copy of a bill filed by members of the Finance Commission with the Massachusetts Legislature to provide for an administrative survey for the City of Boston; and a copy of the statement issued by the Commission in explanation thereof.

Yours very truly,
JOSEPH K. COLLINS, Chairman.

AN ACT PROVIDING FOR AN ADMINISTRATIVE SURVEY BY THE FINANCE COMMISSION OF THE CITY OF BOSTON FOR A SPECIAL APPROPRIATION THEREFOR.

SECTION 1. Under the authority granted to it by chapter four hundred and eighty-six of the acts of nineteen hundred and nine, the Finance Commission of the city of Boston is hereby directed forthwith to make an administrative survey, analysis and appraisal of the organ-

ization, policies, procedures, practices, staff requirements, expenditures and expenditure requirements of the government of the city of Boston and of each department, bureau, office, service, commission, committee, board and other agency whose expenditures are paid in whole or in part by the treasurer of the city of Boston for the constructive purpose of revealing all possible opportunities for increasing the effectiveness and reducing the cost of such services as are paid for in whole or in part by the treasurer of the city of Boston. The Finance Commission shall make a report or reports of its findings and recommendations to the mayor of Boston, the governor of the Commonwealth and the General Court not later than the first day of February in the year nineteen hundred and fifty.

The expense of said investigation and report shall be paid by the city of Boston upon requisition by the commission, not exceeding in the aggregate the sum of dollars in addition to the annual appropriation required by section twenty of said chapter four hundred and eighty-six of the acts of nineteen hundred and nine, as amended.

There shall be appropriated by the city in each year until the investigation and report are completed sums sufficient to cover the commission's estimates of its needs for said year not to exceed the foregoing limitation.

The commission shall have the same right to incur expenses in anticipation of its appropriation as if it were a regular department of the city.

City of Boston,

Finance Commission, December 2, 1947.

Statement Issued by the Finance Commission in Explanation of Bill Filed for Administrative Survey.

The City of Boston has reached a critical point in its financial life; the impasse is produced by the simultaneous development of rising costs and lowered valuations, the latter being the chief source of revenue. The prospects for further increase of costs are alarming; the prospects for materially reversing the trend in valuations, which have been spiraling downward since 1930, are very dim.

A careful factual analysis of the situation reveals that Boston is faced with the prospect of a tax rate in the vicinity of \$55 if one excludes the possibility of additional juggling of valuations by the Assessors, legislative development of new sources of revenue, and borrowing for current maintenance charges.

Part of the already sharply increased cost of operation may be found in the broad economic factors of cost of wages and supplies; the rest is found in the growing size of the administrative machine. Since the first is uncontrollable, efforts to bring down the cost of city government must lie in the direction of internal economy.

The history of the administrative machinery of the city shows that it has grown to its present size not along the lines of any well-conceived plan but by simple accretion, i.e., each new municipal service has been superimposed upon the existing administrative structure. Addition has followed addition through the years, while the proper design of the organization and administration of the governmental structure has never been determined.

It is fairly self-evident that such unplanned development, particularly when it is attended by no adequate study of contemporary needs of the respective departments, results in duplication, lack of coordination, lack of work programming, inefficient assignment of personnel, surplus and shortages of personnel, and similar defects. These, when translated into costs of personnel and supplies, assume important dollar proportions.

Specific evidence of such shortcomings is provided in the many reports published by the Finance Commission and other agencies. Such evidence partially explains the unfavorable position which Boston occupies in most intercity unit cost comparisons. Such reports as have been made, however, while covering whole departments in some cases, have, in the main, been sample diagnoses developed in the process of exploring the problem of the moment; but they have served to indicate the need of comprehensive exploration.

To completely cover the ground and establish a foundation upon which the city government structure may operate efficiently would require the type of study sought in this petition. Once reorganized and operated along lines of maximum efficiency and minimum cost, consistent with sound policy, the city may face the future with a new confidence, secure in the knowledge that everything possible has been done to achieve financial security.

This is the reasoning which underlies the petition of the Finance Commission to the Legislature to make possible the funds for a comprehensive survey of the governmental administration which the City of Boston finances.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR EARTH EXCAVATION AND REFILLING TO ALLOW WATER DIVISION EMPLOYEES TO INSTALL, REGULATE OR REPAIR WATER DIVISION STRUCTURES; ALSO FOR THE INSTALLATION OF WOODEN BOXES AND ESTABLISHING POST HYDRANTS IN THE BRIGHTON (WATER DIVISION) DISTRICT.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for earth excavation and refilling to allow Water Division employees to install, regulate or repair Water Division structures; also for the installation of wooden boxes and establishing post hydrants in the Brighton (Water Division) district. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Earth Excavation and Refilling to Allow Water Division Employees to Install, Regulate or Repair Water Division Structures; Also for the Installation of Wooden Boxes and Establishing Post Hydrants in the Brighton (Water Division) District," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of FRIDAY, JANUARY 9, 1948, with a certified check for NINE HUNDRED (900) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

(Dec. 20.) ROBERT P. CURLEY,
Commissioner of Public Works.

CITY OF BOSTON.

BOARD OF OVERSEERS OF THE PUBLIC WELFARE.

TO GENERAL CONTRACTORS.

PROPOSALS FOR CONSTRUCTING A REST ROOM AT THE CENTRAL OFFICE ADMINISTRATION BUILDING, 43 HAWKINS STREET, BOSTON, MASS.

The Overseers of the Public Welfare in the City of Boston referred to as the Awarding Authority, invite proposals for constructing a rest room, including first aid room and fully equipped toilet room and the rearrangement of certain partitions, at the Central Office Administration Building at 43 Hawkins street, Boston, Mass., according to specifications which may be obtained at the office of the Board, first floor, 43 Hawkins street, Boston, Mass. There will be a charge of twenty-five cents (\$0.25) for each blank proposal taken out. Bidders must use the form of proposal to be obtained at this office.

Bids, with a certified check for five hundred dollars (\$500), payable to and to become the property of the City of Boston if the proposal is not carried out, must be left at the office of the Board, first floor, 43 Hawkins street, Boston, Mass., before 12 noon, Monday, December 29, 1947, at which time and place they will be publicly opened and read. A duplicate proposal, without check, must be left with the City Auditor, prior to the time named for opening of the bids. The certified check shall be in a separate envelope, properly marked.

All sub-bidders' proposals must be in the possession of the Awarding Authority and delivered or mailed to the general bidder not later than 12 o'clock noon, Friday, December 26, 1947.

A certified check payable to the City of Boston in a sum not less than 5 per cent of the amount of the bid shall be submitted by each sub-bidder, with the copy of his proposal filed with the Awarding Authority. The certified check shall be in a separate envelope, properly marked.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing will be required prior to the award of a contract.

Sub-bidders bidding on the work of sub-contractors shall use the proposal form prepared by and obtainable from the Awarding Authority.

The successful general contractor must furnish a bond for the full amount of the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract.

The Awarding Authority reserves the right to accept or reject any or all bids. The Awarding Authority reserves the right to reject all sub-bids or any item or items in accordance with chapter 480 of the Acts of 1939.

All contracts made subject to appropriations being available to meet the payments thereunder.

REPORT OF JOSEPH McKENNEY, DIRECTOR OF PHYSICAL EDUCATION, AND JOSEPH C. WHITE, MEMBER OF THE BOSTON SCHOOL COMMITTEE, ON THEIR ATTENDANCE AT THE CONVENTION OF THE AMERICAN ASSOCIATION FOR HEALTH, PHYSICAL EDUCATION AND RECREATION, HELD IN SEATTLE, WASHINGTON, APRIL 21 TO 26, 1947, INCLUSIVE, AND THEIR VISIT TO THE SCHOOLS OF LOS ANGELES AND SAN FRANCISCO, CALIFORNIA, AND PORTLAND, OREGON, FOR THE PURPOSE OF INVESTIGATING THE ACTIVITIES OF THE PHYSICAL EDUCATION PROGRAMS IN THE SCHOOLS OF THESE CITIES.

The following is a report of the attendance at the National Convention of the American Association for Health, Physical Education and Recreation, and a survey of the recreational and physical education facilities of Los Angeles and San Francisco, California, Portland, Oregon, and Seattle, Washington, by School Committee Member Joseph C. White and Joseph McKenney, Director of Physical Education.

LOS ANGELES.

Facilities.

Los Angeles has the finest health, physical education, and recreational facilities in the United States, but their city planners still feel that the needs of its people are still inadequately served.

Although the primary responsibility for child health lies in the home, Los Angeles emphasizes that child health is a community responsibility. The cooperation and teamwork of the schools, homes, and the health and welfare organizations of Los Angeles are without equal.

The Los Angeles teacher occupies a most strategic position in the school health program. No remedial defect of a pupil under her supervision should go uncorrected. Physicians, nurses, dentists, corrective and physical education teachers are available for consultation concerning her pupil needs. It is the primary duty of the classroom teacher to see that each pupil in her care receives the nutritional, medical, psychological, and dental care necessary for healthful living.

Health Services.

These health services are made available through the generosity of the Parent-Teachers Association of Los Angeles. The Board of Education maintains the buildings, supplies the equipment, and pays the salaries of the employees. The Parent-Teachers Association and Community Chest pay for all equipment, supplies, and expenses not in the province of the Board of Education, such as glasses, X-ray work, basal metabolisms, electrocardiograms, and blood chemistries. In addition to the diagnostic services provided by the Board of Education, the Parent-Teachers Association also sponsors clinics including endocrine, eye, ear, nose and throat, dermatology, medical and dental.

The following significant statistics show the tremendous value of the Parent-Teachers School Health Centers in Los Angeles:

Yale Street Health Center, patient visits	17,175	
San Pedro Health Center, patient visits	1,767	
Total patients visits, other clinics	15,798	34,740
Yale Street Health Center, operations and treatments	44,664	
San Pedro Health Center, operations and treatments	4,933	
Total operations and treatments, other clinics	35,559	85,156
Tonsilleotomies	1,459	
Glasses delivered	1,807	

Our visit to the Yale Street Clinic was one of the most enjoyable and worth-while experiences of our survey.

PHYSICAL EDUCATION.

Swimming Pools.

Since swimming skill is now a requirement for graduation from high school in Los Angeles, the new construction plans call for a new pool in all senior high schools. Original plans called for a pool in all junior and senior high schools, but sufficient financial means could not be secured for this ideal plan. The high school pool is built to serve all the schools in the senior high school area. It is stipulated from the outset that such a pool is the mutual property of the schools in the area and that it should be scheduled for use, accordingly, by all schools, elementary, junior and senior.

SCHOOL CONVENTION REPORT OF JOSEPH McKENNEY, DIRECTOR OF PHYSICAL EDUCATION, AND JOSEPH C. WHITE, MEMBER OF THE BOSTON SCHOOL COMMITTEE.

(Continued from page 1389.)

Land.

Ten acres for elementary school areas; fifteen acres for junior high schools, and twenty acres for senior high schools must be available before construction is started. This assures ample play space for pupils at all school levels.

AUDITORIUM FACILITIES.

LOCATION.

Buildings.

All future school buildings in Los Angeles will be located off of heavily traveled highways. If it ever should happen that the school must be adjacent to such a highway, the building will face on an interior quiet street. No school will be constructed near a railroad or factory.

Auditoriums.

Auditoriums must be placed on one end of the plant, preferably on a corner, to facilitate parking and ingress and egress of people as well as avoidance of disturbance while in use during school hours. After school hours it will only be necessary to open auditoriums and not the entire school when it is to be used.

Gymnasiums.

The gymnasium must be located as far to the rear, away from classrooms, as possible. There are separate gymnasiums for boys and girls. Both gyms have entrances on to the playfields and have separate exits and entrances so that it will not be necessary to open the entire school to use the gym in after-school activities.

The playfields must, in no case, be adjacent to classrooms, as is so often the condition in many school plants.

Showers.

Every school visited in Los Angeles had a minimum of 15 showers. Most shower arrangements were on the gang-type basis with the temperatures of showers ranging from hot to cool as each boy passes through.

Every boy in junior high and high is provided with a clean towel after each shower. Since each pupil takes physical education one period each day it means that each pupil has a daily shower. It is definitely a worthwhile procedure.

Programs.

Los Angeles' physical education program could be divided into three parts: (1) corrective; (2) games; (3) dances. It is strictly informal with games and dancing predominating in junior high and high and correctives in the elementary school program.

The average teacher of physical education teaches five periods per day, with one free period and one period assigned to counseling.

RECREATIONAL FACILITIES.

The postwar plans of recreational facilities for Los Angeles can be used as the model for most of the cities of the United States.

While we were in Los Angeles the City Council voted to submit a bond issue of

\$12,078,000, for new playground and extended recreational facilities, to the voters at their municipal election in May. I have just been informed that it was approved overwhelmingly by the electorate.

The recognized standard of financial support for public recreation in a large city is an annual expenditure of \$1.50 per capita (not including parks and beautification). Los Angeles is now spending \$0.50 per capita for municipal recreation. In fifteen years Los Angeles has increased 50 per cent in population, thus rendering the present facilities inadequate.

The postwar program is as follows:

1. Thirty (30) new neighborhood playgrounds.

The Recreation and School Department furnish the present facilities. These 30 new playgrounds will be built in areas where schoolyard facilities are impractical.

2. Thirteen (13) recreation centers and swimming pools.

These facilities are called District Centers in Los Angeles. They may be under the jurisdiction of the School Department, Park Department or Recreational Department. These 13 additional centers will provide a recreation center for every district in Los Angeles.

3. Regional Recreation.

One major sports center is planned. This center will be of enormous size with space for numerous baseball and softball diamonds, football and athletic fields, tennis courts, swimming pool, indoor sports pavilion, and auditorium with a large seating capacity.

4. Public Beaches.

Full development of the public beaches is similar to our local plan of the Park Department, Metropolitan District Commission, and State Beaches. The new master plans of Los Angeles and the county calls for a unified development of the entire Pacific shore within the Los Angeles limits.

This plan will double the facilities now available and also improve and expand the existing facilities. With the completion of this plan the citizens of Los Angeles will have the finest facilities for leisure, relaxation, and recreation.

Public recreation today is a necessity. Boston must determine the financial means for its accomplishment.

Financial.

The maximum tax rates for all purposes (except for debt service and the Retirement System which have a separate tax), fixed by the State Legislature for the Los Angeles City School Districts on each \$1.00 of assessed valuation, are as follows:

Elementary and Kindergarten.	\$0 90
High school.	75
Junior college.	35

These rates may be raised by a majority of each school district.

District tax rates are set by the county on or before September 1, and are based on the budget of the Board of Education. The budget must first be given a public hearing and be approved by the County Superintendent.

The State of California raises for the support of the public schools as follows:

Elementary, not less than \$80 per pupil in average daily attendance.
High school, \$90 per pupil.
Junior college, \$90 per pupil.

The school budget for 1937-38 was

\$40,905,911; for 1946-47 the budget was \$59,955,459.

The school tax dollars were spent in 1946 as follows:

1. Education administration....	\$0 015
2. Business and other administration.....	025
3. Instruction.....	73
4. Operation of school plant.....	08
5. Auxiliary service.....	03
6. Maintenance of school plant...	04
7. Fixed charges.....	07
8. Community services.....	01

\$1 00

Educational Administration.

This includes the salaries of Superintendent, Assistant Superintendents, their office assistants, and the necessary supplies and expenses. Also, the salaries of the Personnel Division which keeps the records of the 17,000 school employees.

Business and Other Administration.

This includes salaries and operating expenses of the offices of the Business Manager, the Purchasing and Distribution Branch, Maintenance and Operation Branch, and those of the Secretary to the Board and Controller.

Instruction.

The salaries of all who have to do with instruction, including principals and supervisors are included in this item. All supplies, i.e., textbooks, visual aids, and library books are covered by this classification also.

Operation of School Plant.

The expenses of fuel, light, water, and telephones, plus the salaries and supplies of custodians, engineers, gardeners, and watchmen are included in this item.

Auxiliary Services.

All expenses and salaries of welfare services, employment division for pupils, promotion of pupil health and transportation of pupils are included in this item.

Maintenance of School Plant.

This includes all charges for repair of buildings, repair and replacement of equipment, upkeep of ground, etc.

Fixed Charges.

Included in this item are insurance premiums, school rentals, Teachers' State Retirement Fund, and other fixed items.

Community Services.

Covers school expenditures for civic centers and recreation.

The State of California contributes 33.3 cents of each dollar expended for school purposes in Los Angeles. Although Los Angeles has superior school facilities, the calibre of teaching does not equal that of the Boston system. San Francisco, Portland, and Seattle also have superior facilities, but the calibre of teaching does not equal that of the Boston system.

The older schools in these systems have facilities similar to Boston insofar as they have minimum play spaces surrounding their schools. These cities are following the example of Los Angeles in their new construction. The new George Washington High School in San Francisco has the finest facilities we witnessed on the West Coast. Every modern facility has been placed in the boys' and girls' gymnasiums and in the outdoor athletic plant. The trend is to build these new schools on the outskirts of the cities where plenty of space is available. The five acres for elementary, ten for junior high, and fifteen

to twenty for high schools seem to be the standard for all new construction in the West.

San Francisco is similar to Boston in many respects. The high schools of San Francisco have military drill. It is optional with the student whether to take five periods of physical education per week, or to select military drill. The majority of the students select physical education. The teachers of physical education teach 1,200 pupil-hours per week, with a maximum of 26 periods. Many teachers of physical education are used for counseling.

The fifty-second Annual Convention was held in Seattle, April 21 to 26, with the Northwest and Southwest districts cooperating. The convention theme was "Problems and Plans." The meetings were conducted on a "workshop" basis. Workshops were conducted in health, physical education and recreation.

PHYSICAL EDUCATION NEED.

The Public School section had as its theme "Looking Ahead in Public School Physical Education."

The universal demand in elementary school physical education is adequate time allotment and facilities. The older schools of the United States have the same problem as Boston with regard to building restrictions. Playrooms are not available and rhythmic work is prohibited above the first floor. Where climate conditions permit, the elementary program is conducted in the schoolyard.

Two of the outstanding addresses of the Convention were given by Dr. Joseph Wolfe of the School of Medicine, Temple University, and General Maxwell D. Taylor, Superintendent of the United States Military Academy, West Point.

Dr. Wolfe held that a normal heart cannot be injured by excess physical education or athletics. Complete fatigue will result before any heart damage can be done.

General Taylor stressed the need of physical education in military life. He explained the physical education testing program now in use at West Point and the demand for perfect physical condition by the military authorities.

One of the features of the convention was a special demonstration given by the official gymnastic team from Denmark.

This special touring team of young Danes is composed of 21 men and 21 women ranging in age from 18 years to 25 years, and chosen through national competition. The team demonstrated special Danish physical activities in their highest developmental stage, including calisthenics, gymnastics, tumbling, and folk dances. I have never seen a finer demonstration of poise, agility, speed, and timing. The enthusiastic reception given to the team at the convention is a tribute to the character and performance of the personnel and the excellent leadership.

The National Section on Women's Athletics urged the adoption of their document of "Desirable Practices in Athletics for Girls and Women" by the public schools. For the welfare of the girls and women who participate in sports they have suggested standards for participation, leadership, health, sports sessions, practice sessions, types of competition, education of spectators, publicity, and general policies. It is definitely worthy of the study for all public school systems.

I was privileged to be selected to represent the East in a panel discussion

at the section meeting of the National City Directors. The panel was composed of Dr. Samuel Fleming, Superintendent of Schools, Seattle, Washington; Dr. Elden Jenne, Portland, Oregon, and Dr. Ruth Abernathy of the University of Texas.

One of the purposes in attending the convention was to urge the Legislative Council to select Boston as the convention city in 1949. It was so rated.

With the cooperation of the public schools, private schools, teacher colleges, recreation groups, and our School Committee we can plan and produce the finest convention ever held by this branch of the N.E.A.

REPORT OF ELEANOR D. UPHAM, DIRECTOR OF SCHOOL LUNCHES, ON ATTENDANCE AT AMERICAN DIETETIC ASSOCIATION CONVENTION, AT PHILADELPHIA, OCTOBER 14 TO 17, 1947, INCLUSIVE.

The following is the report of the Director of School Lunches on attendance at Convention of American Dietetic Association at Philadelphia, October 16 to 18:

While attending the American Dietetic Association Convention in Philadelphia, from October 16 through October 18, I had an opportunity to visit several school lunchrooms in senior and junior high schools. The school feeding program in Philadelphia has been well organized for many years. There is a trained dietitian in charge of each lunchroom and in larger schools an assistant dietitian and student dietitian are employed as well.

The lunchrooms are well equipped with heavy duty food machines of all kinds. This fact enables a school to employ fewer workers than when there is no heavy duty equipment. However, because pupils are not allowed to work in Philadelphia school lunchrooms, there is a larger number of women employed per 100 pupil enrollment than in our Boston lunchrooms. It was especially interesting to find that the schools I visited had forty-five-minute lunch periods, and four consecutive lunch periods in schools with large enrollment.

Several facts were noted in Philadelphia schools that are known to exist in other cities, as well as Boston, i.e., pupils seem to have less money to spend than formerly, and because of increased selling prices, they are not purchasing as much food.

As at other conventions, a great deal of emphasis was placed on the importance of sanitation and safety in food service establishments. The point was stressed that a manager of a food serving unit should be responsible for seeing that precautionary measures are observed and physical hazards removed.

The trip was most interesting and valuable and I appreciate the opportunity of going to Philadelphia.

MAYOR APPEALS FOR CHRISTMAS CHEER FOR UNFOR- TUNATE FAMILIES.

*Share the Joy of the Christmas Season
with Those Less Fortunate than You and
Your Family.*

It would be a source of real consolation if every needy family in Boston would enjoy a Christmas dinner, and this is possible, provided the public generally will cooperate. Any person desiring to provide a Christmas dinner for a needy

family can telephone the office of the Mayor, City Hall, School street, Boston, LAF. 1100, and the name of a person that has been checked and is needy will be furnished him with the number of dependents in the family. To the present time, more than 800 requests have been received for Christmas dinners at the office of the Mayor.

MAYOR CURLEY VISITED IN- MATES OF LONG ISLAND HOSPITAL TO CHEER INVALIDS THERE.

On Tuesday, December 23, Mayor Curley made his Annual Christmas visit to Long Island. This year he was accompanied by the Firemen's Band, the City Glee Club, and various acts of vaudeville.

The Mayor and his party left at 10.30 a.m. on Tuesday morning for Long Island and spent the balance of the morning and the early afternoon bringing cheer and entertainment to the old folks living there.

ANNUAL CHRISTMAS EXERCISES.

On Wednesday, December 24, the City of Boston held its Annual Christmas exercises on the steps of City Hall at 11 a. m. These exercises featured a brass quartet. His Honor, the Mayor, delivered a Christmas address between 4.30 and 5 p.m. in the afternoon. The Mayor officially lighted the Christmas tree on Boston Common and the Municipal Crib on Boston Common, which is being sponsored for the first time by the City of Boston. During the evening of Christmas recorded Christmas carols were played on the Parkman Bandstand and the illumination of Frog Pond started between 8 and 11 p. m.

PRISONERS WIN PAROLE FROM DEER ISLAND.

Maxwell B. Grossman, Penal Institutions Department, on December 23 issued the following statement:

As Penal Institutions Commissioner of the City of Boston and Suffolk County and in accordance with the provisions of the General Laws, chapter 127, section 141, I shall release on parole for Christmas: 45 men from the Suffolk County House of Correction; 3 women from the Charles Street Jail, and 10 men from the Charles Street Jail.

These paroles have been granted subject to the following terms and conditions, which must be faithfully observed by the persons to whom paroles have been issued:

He shall be industrious and lead an ordinary course of life.

He shall obey the laws of the city, state and country.

He shall abstain from intoxicating liquor and drugs.

He shall report every week until expiration of his parole.

He also announced the following menu for Christmas Dinner to be served at the House of Correction, Deer Island:

Roast turkey, giblet gravy, dressing, mashed potato, squash, onions, mince pie, ice cream, candy, fruit.

The turkeys and vegetables were all raised at Deer Island not only for this dinner, but for hospitals and institutions in the City of Boston.

A moving picture show will also be given on Christmas Day.

MAYOR GRIEVED AT NEWS OF DEATH OF I. J. FOX.

His Honor the Mayor, on December 17, sent the following letter:

Boston, December 17, 1947.

MRS. I. J. FOX, Beekman Hotel, 593 Park Avenue, New York City, N. Y.

DEAR MRS. FOX.—I was deeply grieved this afternoon to learn of the sudden death of your beloved husband, my friend over the years, and a truly great man.

Mr. Fox exemplified true American character. All alone and practically penniless, he had the vision to carry him to the heights. His generous personality and his boundless philanthropies endeared him to all people.

In his passing, you and yours have lost a most loved and esteemed husband and father. I have lost an esteemed companion. We all shall revere his memory, and his institutions, which he founded and nurtured, shall live.

May God be with you, your sons and your daughter, at this sad time.

Sincerely yours,

JAMES M. CURLEY, Mayor.

MAYOR DECIDES TO CONTEST CLAIMS FOR DAMAGES AGAINST CITY.

His Honor, the Mayor, on December 19, sent the following letter to Joseph Scolponeti, Corporation Counsel for the City of Boston Law Department:

DEAR SIR.—I have this day received from the City Council orders for payment of damages, largely due to injuries received as a result of sidewalk accidents, and from the number of cases and amount of money involved in each particular case, I am inclined to believe that an old racket, which was abolished in 1930, is being revived.

At that time, it was decided to try each case involving more than \$100, with the result that accident claims were reduced by more than \$100,000 in the succeeding year, and many attorneys withdrew cases pending against the city. I believe it would be wise to adopt the same policy now.

Respectfully,

JAMES M. CURLEY, Mayor.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of the city employees have been made:

HOSPITAL DEPARTMENT.

For the week ending December 9:

The following permanent employee has been appointed:

Walter Hull, provisional hospital house worker at \$25 to permanent hospital house worker at \$25.

For the week ending December 2:

The following weekly nurses have been appointed:

Permanent.—Helen Muszynski, 467 Beacon street, Elinor Quilty, 26 Mallon road, floor nurses at \$2,200 a year; Mary Beattie, floor nurse at \$2,200 a year to floor nurse at \$1.00 an hour; Patricia McAvo, floor nurse, is now replacing Helen Berman.

ADDITIONS TO CONTRACT.

FIRE DEPARTMENT.

Approval has been given of the following additions to the contract of J. A. Singarella Company, for alterations, additions and renovations to fire station Engine 33, located at 941 Boylston street, Back Bay:

Addition No. 9.

Furnish labor and material for building brick piers under hot water tanks, \$170.08.

Addition No. 10.

Furnish labor and material for building brick piers under new fuel oil tank, \$115.69.

Addition No. 11.

Furnish labor and material for plastering work on second floor of fire station, \$205.17.

Total of foregoing additions..	\$490 94
Original Contract.....	49,337 00
Total of Additions 1, 2 and 3, dated August 27, 1947.....	796 95
Total of Additions 4-8 inclusive, dated October 29, 1947.....	2,404 75
Total of Contract with all Additions.....	53,029 64
Deduction No. 1.....	40 00
Total Contract.....	\$52,989 64

Building of brick piers under hot water tank is necessary because of relocation of tank. It was originally intended to have it hung from ceiling but found it would be an additional load on first floor.

Brick piers under new fuel oil tank were not called for in original contract but are necessary.

After painter had started washing walls on second floor it was found that considerable of the wall plastering was loose and falling out. Also a portion of the plaster in toilet was found to be loose. Therefore it was necessary to remove all loose plaster and re-plaster the walls.

Although the foregoing is in addition to work contemplated in the original contract it is incidental thereto.

CHANGES IN CONTRACTS.

BOSTON HOUSING AUTHORITY.

Allied Engineering Corporation have been ordered to make the following change in the contract for the general construction of six houses at Saratoga Street, East Boston:

Heating changes required by clarification drawing and an error in the plans, as per attached letter.

An equitable adjustment of the contract price and the contract time is established as follows:

The contract price is increased five hundred and thirty dollars (\$530).

The contract time is not changed.

The conditions hereinbefore referred to are as follows:

1. The aforementioned change and work affected thereby, is subject to all the provisions of the foregoing contract.

2. The rights of the City of Boston are in no way prejudiced by this order.

3. All claims against the City of Boston which are incidental to or a consequence of the aforementioned change are satisfied.

BOSTON HOUSING AUTHORITY,

10 Post Office Square, Boston, Mass.

Attention John F. Millerick,

Re: Saratoga Street, East Boston.

GENTLEMEN,—We wish to advise you that inaccuracies in the heating layouts of Plans No. 200 and No. 201 have caused us considerable expense in cutting and changing of frame work as the house progressed.

The responsibility and work involved in changing the layouts to fit the house were left to us and were performed in the least expensive manner. However, indecision on the part of our superintendent and changes made as we went along have actually cost us a considerable amount of money. We wish to charge these houses, two of each plan, as an extra of \$100 a house, or a total of \$400.

The Plan No. 202, of which there were two houses, had a revised heating layout showing the studding of a stairway partition. We have been advised by Mr. Naylor of his extra due to this layout and this, together with our charges for labor and materials, total \$65 a house, or a total amount of \$130 on Plan No. 202 Houses.

The total amount of extras requested in this letter therefore amount to \$530. We feel that this amount is extremely conservative and does not actually cover the extra expenses accrued due to these conditions.

Very truly yours,

ROBERT E. BESSETTE.

Allied Engineering Corporation have been ordered to make the following change in the contract for the general construction of Veterans' Housing at Baker street, West Roxbury.

Additional cold water riser required in the Duplex House. Breakdown-letter attached hereto.

An equitable adjustment of the contract price and the contract time is established as follows:

The contract price is increased one thousand two hundred and seventy-six dollars and fourteen cents (\$1,276.14) the contract time is not changed.

The conditions hereinbefore referred to are as follows:

1. The aforementioned change and work affected thereby, is subject to all the provisions of the foregoing contract.

2. The rights of the City of Boston are in no way prejudiced by this order.

3. All claims against the City of Boston which are incidental to or a consequence of the aforementioned change are satisfied.

Re: Baker Street Project.
Attention: Mr. John F. Millerick.

GENTLEMEN,—Enclosed is a notification from the M. Ahern Company of extras chargeable to the Allied Engineering Corporation if the supply piping is rearranged so that each apartment in the plans 201 and 203 have separate cold water risers, branches and controls.

His charge for this change in these seventeen houses on the above project is \$1,187.11. We add to this amount 7½ per cent for supervision which is \$89.03. The total extra charge, therefore, to the Boston Housing Authority for this work will amount to \$1,276.14.

I trust that this will be satisfactory to the Authority.

Very truly yours,

ROBERT E. BESSETTE.

Re: Baker Street Housing.
West Roxbury District.

Gentlemen,—This will confirm conversation with Mr. J. Millerick of the Boston Housing Authority yesterday.

We will allow the sum of one dollar and ninety-one cents (\$1.91) per lavatory if Kohler Company's "Hampton" Lavatory, Plate K-2720, size 19 inches by 17 inches, fitted complete with fittings, less stop-cocks as shown on cut submitted by us, is used in place of the one specified. This lavatory is in production and delivery can be made much earlier than the type specified.

You will observe that this lavatory has larger basin, and also has integral shelf feature.

Very truly yours,

M. AHERN Co.

FIRE DEPARTMENT ORDERS.

General Order No. 70.

I. ANNUAL MEMORIAL MASS.

At 9 a. m., Tuesday, November 25, 1947, at the Cathedral of the Holy Cross, Washington street, Boston, the annual Solemn Requiem High Mass will be celebrated for all deceased members of the Boston Fire Department.

The Most Reverend Archbishop Richard J. Cushing will preside at the Mass and preach the sermon. The Reverend Henry J. O'Connell, Boston Fire Department Chaplain, will be Celebrant; the Reverend Thomas J. Tierney, Cambridge Fire Department Chaplain, will be Deacon; and the Reverend Dennis J. O'Leary, Quincy Fire Department Chaplain, will be Subdeacon.

All officers and members of the Fire Department and Fire Alarm Division who are off duty, also members of the Fire Prevention Division, Boston Protective Department, Maintenance and Electrical Inspection Divisions should make an effort to attend this Memorial Mass. District chiefs shall arrange to detail five members from their respective districts. The uniform for privates and officers will include overcoats and white gloves, for those members having overcoats, otherwise sack coats.

Members of the Fire Alarm, Fire Prevention, Maintenance, and Electrical Inspection Divisions, and the Boston Protective Department, will march as separate units in the procession from Engine Company 3 quarters to the Cathedral.

FIRE DEPARTMENT ORDERS.

(Continued from page 1399.)

All members of the department who attend should report to Lieutenant-Drillmaster Augustus J. Beaupre at 8.30 a. m., Tuesday, November 25, at the quarters of Engine Company 3, 618 Harrison avenue, Boston. They will march from this point to the Cathedral of the Holy Cross.

Many members of the fire service are enrolled on the list of heroic dead. Some have died in defense of country, others as the result of injuries incurred in the line of duty. Others have passed on after illness or the natural course of years. All of these we remember in this religious service as we ourselves may wish to be remembered some day in years to come. The extent of the tribute and remembrance of our Fire Department dead in this instance rests squarely upon the department itself. By the response of members will be measured the depth of our respect for our departed fellow firemen. All persons, all groups, and all organizations should combine in this activity to make the attendance at this service as large as possible.

Families, relatives, and friends of members and former members are likewise cordially invited to attend our fifth Annual Memorial Mass.

At the conclusion of the services, members shall march from the church to Engine Company 3 quarters where they will be dismissed.

The following-named members will serve as ushers at the memorial services at the Holy Cross Cathedral. They shall report to District Chief William A. Donovan at 8.30 a. m. at the Cathedral:

Lieut. James Donovan, Engine Company 21.

Lieut. Edwin Finnegan, Engine Company 12.

Hoseman William Gavin, Engine Company 19.

Hoseman Thomas Driscoll, Fire Prevention Division.

Ladderman Charles I. Pierce, Ladder Company 1.

Ladderman Gerard E. McGowan, Ladder Company 16.

Ladderman Martin Pierce, Ladder Company 17.

Assistant Operator Chas. F. Connors, Fire Alarm Division.

The following-named members will serve as color guard at the memorial services, and they shall report to Engine Company 3, Band Manager Frank Marr, at 8.30 a. m.:

Hoseman Richard J. Mahoney, Engine Company 2.

Ladderman Martin A. Lombard, Ladder Company 24.

Ladderman Peter Cotter, Ladder Company 26.

Operator Herbert F. Kearns, Fire Alarm Division.

Band Manager Frank Marr shall arrange for a limited representation from the band to participate in these exercises. Members selected shall report to Band Manager Marr at Engine 3 quarters at 8.30 a. m.

The Superintendent of Maintenance shall arrange to deliver colors and rifles to the assembly point, Engine Company 3 quarters, and flag stands to the Holy Cross Cathedral.

By order of Fire Commissioner RUSSELL S. CODMAN, JR.

NAPEEN BOUTILIER,
Chief of Department.

General Order No. 71.

I. PROMOTION.

The following assignment, which became effective at 8 a. m., Wednesday, November 12, 1947, is hereby announced:

Lieutenant Francis W. Kelley, Fire Prevention Division, to Lieutenant-Chief Inspector.

II. RETIREMENTS.

The following retirements, which will become effective at 8 a. m., Monday, December 1, 1947, are hereby announced:

First Engineer Clarence T. Murphy, Engine Company 44.

Ladderman Armando F. Caggiano, Ladder Company 1.

Ladderman Allan R. McIntyre, Ladder Company 2.

Provisional Fireman John J. Donahue, Ladder Company 4.

First Engineer Murphy was appointed to the department on September 19, 1930; Ladderman Caggiano was appointed on May 31, 1929; Ladderman McIntyre was appointed on February 1, 1924, and Provisional Fireman Donahue was appointed January 29, 1947.

III. RESIGNATION.

The following resignation, which became effective at 5 p. m., Tuesday, November 18, 1947, is hereby announced:

Provisional Clerk Joseph B. Connors, Electrical Inspection Division.

IV. DUMPING PERMITS.

All permits issued by the Health Commissioner of the City of Boston for the dumping of ashes and house refuse on vacant lands expire on December 31, 1947.

District chiefs shall report on Form 5, on or before December 8, 1947, whether or not they have any objection to the renewal of such dumping permits in their respective districts.

V. ELECTION OF OFFICERS. CHARITABLE ASSOCIATION.

The attention of the members of the department is called to article 5 of the Constitution and bylaws of the Charitable Association of the Boston Fire Department concerning nomination of trustees of this organization.

The Board of Chiefs and each district of the fire fighting force of the Boston Fire Department, including District 16, so-called, and the Boston Protective Department, shall submit the name of any candidate or candidates for the office of trustee of the Association, to the secretary, on or before the first Monday in December each year.

Attention of members is called to the fact that it does not mean a man from each house unless a member decides to be a candidate.

Nominations should be sent to the secretary, Frank C. Jacobs of Ladder Company 10.

From the list of nominations received there shall be elected on the third Monday in December, one trustee to represent the Board of Chiefs, two trustees in each district to represent the Fire Fighting Force, and one trustee to represent the Boston Protective Department.

VI. BOSTON AUTOMATIC ASSIGNMENT. DISCONTINUANCE AND CHANGE.

Company commanders shall add the following signal number to running cards of the Boston Automatic Fire Alarm Company in this department:

No. 366, building, 251-253 Congress street and 549 Atlantic avenue. Apparatus to respond: Engine 25, Ladder 8, District Chief 5. Nearest box is 1292.

Notice has been received from the Boston Automatic Fire Alarm Company that the following signal has been discontinued:

Signal 72, building, 26-32 West street.

Boston Automatic Signal 625, page 24 of the Automatic Book now reads:

Signal 625, 350 C street, enter gate; change to read, Signal 625, building in rear, enter 340 C street.

VII. COMMENDATIONS.

Lieut. Charles J. Fleming of Ladder Company 1 is hereby commended for extinguishing a fire in cellar of a dwelling house on Adams street, Dorchester, November 12, 1947, while off duty.

Lieut. Herbert I. McLane of Engine Company 51 is hereby commended for responding to and working at fire, Box 5184, November 17, 1947, while off duty.

By order of Fire Commissioner RUSSELL S. CODMAN, JR.

NAPEEN BOUTILIER,
Chief of Department.

The meeting was opened with the salute to the Flag.

APPROPRIATION FROM PARKMAN FUND.

The following was received:

City of Boston,

Office of the Mayor, December 15, 1947.
To the City Council.

Gentlemen,—I am in receipt of the attached communication from the Board of Park Commissioners requesting the appropriation of \$18,394.07 from the income of the George F. Parkman Fund, to be expended under the direction of the Board of Park Commissioners for the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887.

The 1947 budget estimates of the personal service requirements of the Park Department included an estimate of the total income of \$180,000 from the Parkman Fund. The budget allowances made provision for the appropriation of this income as it accrued for the purpose of defraying the cost of work actually performed on the Common and Parks in Existence on January 12, 1887.

I submit herewith an order appropriating the sum of \$18,394.07, the accrued income now available from the Parkman Fund, and respectfully recommend its immediate passage by your Honorable Body.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,

Park Department, December 12, 1947.
Hon. James M. Curley,

Mayor of Boston.

Dear Sir,—By vote of the Board of Park Commissioners, you are respectfully asked to request the City Council to transfer from the income of the George F. Parkman Fund the sum of \$18,394.07, which is now available, to be expended under the direction of the Board of Park Commissioners, as follows:

Common and Parks in Existence on
January 12, 1887, Maintenance
and Improvement of.....\$18,394 07

When making up the budget estimates for the year 1947, a sum equal to the total yearly income of the George F. Parkman Fund was deducted from A-1, Permanent Employees, with the understanding that this deduction was to be replaced by the total yearly income of said Parkman Fund for 1947, to be transferred as it accrued from time to time during the year to the regular maintenance appropriation of the Park Department.

Respectfully yours,
JOHN J. MURPHY, Chairman.

Ordered, That the sum of \$18,394.07 be, and hereby is, appropriated from the income of the George F. Parkman Fund, to be expended under the direction of the Park Commissioners for the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887, as follows:

Common and Parks in Existence on
January 12, 1887, Maintenance
and Improvement of.....\$18,394 07

Referred to Committee on Parkman Fund.

AMENDMENT OF COMPENSATION AND CLASSIFICATION PLANS.

The following was received:

City of Boston,

Office of the Mayor, December 15, 1947.
To the City Council.

Gentlemen,—I transmit herewith for consideration by your Honorable Body the attached proposal by the Budget Commissioner to amend the Compensation and Classification Plans for the Officers and Employees of Suffolk County.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,

Budget Department, December 15, 1947.
To the Mayor and City Council.

Honorable Dear Sirs,—In accordance with the provisions of Rule 3 of the "Rules for the Administration of Classification and Compensation Plans for the Employees of Suffolk County," the Penal Institutions Commissioner has forwarded the

attached request for the establishment of the classification "Supervisor of Industries" at the House of Correction.

After an investigation of the actual and proposed duties and responsibilities of this position, I hereby recommend that the following new classification be established:

Title of Class: Supervisor of Industries.

Duties: Under general direction, to have charge of, and be responsible for, the work connected with the industries established at the House of Correction, and under pertinent statutes to act as agent in the procurement of equipment, materials, and supplies for the industries, and in the distribution of the completed products; and to perform other related work.

Fixed Salary: Annual, \$3,500.

Very truly yours,

JOHN A. SULLIVAN,
Budget Commissioner.

City of Boston,

Penal Institutions Department,
December 5, 1947.

Hon. James M. Curley,
Mayor of Boston.

Dear Sir,—Attached please find original communication signed by George F. A. Mulcahy, Master of the Suffolk County House of Correction.

I have investigated this classification of new position and find that Mr. George H. Donovan, who is now a deputy master, is performing his duties in a very creditable manner. Industries in a correctional institution are one of the most important factors in keeping the inmates occupied, and proper supervision of these industries is absolutely essential. Supervision of the industries at the House of Correction, for the past few years, has been on a more or less part-time basis and I am firmly of the belief that full-time supervision of these industries is absolutely necessary.

I find, therefore, that this proposed new classification, Supervisor of Industries, is necessary, and I do recommend it for the Suffolk County House of Correction.

I further recommend that the salary for this position be established at thirty-five hundred dollars (\$3,500) per year and maintenance.

Very truly yours,

MAXWELL B. GROSSMAN,
Penal Institutions Commissioner.

To: Maxwell B. Grossman, Commissioner, Penal Institutions Department.

From: George F. A. Mulcahy, Master, House of Correction.

Subject: Classification of New Position.

For some time now Mr. George H. Donovan has been acting as construction and maintenance deputy master at this institution. He has performed the duties of this position in a very creditable manner.

In addition to the duties of his present position he has been carrying on, on a part-time basis, the supervision of the industries established under the provisions of the Statutes.

Taking into consideration the status, financial and otherwise, of the industries accounts here in late 1945 and the present healthy condition of these same accounts, Mr. Donovan's supervision of this phase of the work here speaks for itself.

Mr. Donovan's original appointment in 1933 was that of shoe supervisor, and he is familiar with the procedure in the industries as to procurement of equipment, material, and supplies, and the disposal of the completed products. Accordingly, it is recommended that steps be taken in conformity with the procedure outlined in Document No. 54 of 1944 known as the Compensation and Classification Plans for the Officers and Employees of Suffolk County, for the creation of the following new position at this institution with the view in mind of having Mr. Donovan appointed to this position for which he is peculiarly fitted.

Proposed New Classification—Supervisor of Industries: Under direction to have charge of, and be responsible for, the work connected with the industries established at the House of Correction, and under pertinent statutes to act as agent in the procurement of equipment, materials, and supplies for the industries, and in the distribution of the completed products; to perform other related work.

It is felt that such a move will be for the best interests of the institution in that it will allow an administrative official to devote his full time to the work of the industries here.

GEORGE F. A. MULCAHY, Master.

Ordered, That the Compensation and Classification Plans for the Officers and Employees of Suffolk County, as amended, be, and hereby are, further amended by inserting the following new classification:

Title of Class: Supervisor of Industries.

Duties: Under general direction, to have charge of, and be responsible for, the work connected with the industries established at the House of Correction, and under pertinent statutes to act as agent in the procurement of equipment, materials, and supplies for the industries, and in the distribution of the completed products; and to perform other related work.

Fixed Salary: Annual, \$3,500.

Referred to Committee on County Accounts.
